Hello,

I reviewed the corrections I received yesterday, I attached to this email the corrected MJ-02 you submitted.

Now, the first thing I noticed was that you reference the "Pink" retail store on the second page, and that your diagram brightly shows the retail store, but this is for a cultivation facility. So, what I need is the same brightness but for the cultivation. If you want to leave it in black, will you please make that reference on the diagram, and reference the cultivation instead of retail on the second page.

Call me if you have questions. I don't mean to be a pest, I am just trying to help applicants have a good applications in front of the board.

Thank you
