Subject: ON RESPONSE TO COVID-19 OUTBREAK OF MARIJUANA CONTROL BOARD
Date: Wednesday, December 2, 2020 11:12:13 AM

I support online ordering, drive through, curbside pickup and delivery of marijuana products.

Here is a copy of my receipt for my latest cannabis purchase.

The voters passed this industry recreationally and it's the states responsibilities to support the growth and competition of this industry including medical marijuana.

Drug utilization review boards are being reviewed and hopefully modernized. It's from earlier this year but you can submit testimony on regulations at anytime. I have e find that statute but I find it interesting that DUR's are just now being reviewed and updated including the prescribing of opioids in medicaid. It's the medicaid expanded states having the hardest time reducing opioid use. If my surgery this last year was a sign it's less than $2.00 for 86 opioids and at least $50 - $100.00 for cbd which doesn't have THC in it.

The laws need to be harmonized but if I could order online opioids through my PBM than its your responsibility to ensure consumers have safe access to cannabis including online ordering, delivery (I'm mobility challenged) and generally giving this industry the respect and support it needs by reducing burdens and supporting competition and growth in this industry in all forms.

Sincerely,

Cheryl Bowie
