MEMORANDUM

TO: Chair and Members of the Board

FROM: Randi Baker, Occupational Licensing Examiner

DATE: March 23, 2021

RE: ALASKAN BLOOMS, LLC LIC# 10073

ALASKAN BLOOMS, LLC, a Standard Marijuana Cultivation Facility is requesting approval of its Updated Operating Plan and Licensed Premises Diagram.

See attached MJ-15 with Updated MJ-04 and MJ-14.

Both the MJ-14 and MJ-15 applications are being presented in conjunction with New Marijuana Product Manufacturing facility License 27122.

The licensee is requesting to transform a portion of their currently operating standard cultivation facility into a product manufacturing facility with overlapping premises upon approval and completed delegation of 27122. Licensee is awaiting approval from Fairbanks North Star Borough and enforcement for the MJ-14, but it has been approved by the Director, pending Local Government and enforcement approval. The licensee is requesting to not take action on their diagram changes until they have received all delegations and approvals for 27122.

The MJ-15 has received temporary approval from Director Klinkhart.

Summary of changes are outlined on page 2 of MJ-15 form. The updated operating plan seems to be in accordance with what the board has approved before and in general.
