To Whom It May Concern

After the last special meeting regarding the use of drive-throughs and curbside service, we decided to see what our customers thought of the idea of making the drive through permanent. I have enclosed a handful of the comments. I will send you more as we get them.

We think the drive-through is a necessity. First and foremost, we have a pandemic on our hands that doesn't appear to be leaving the planet anytime soon. The drive-through allows customers to shop without contact; safe and secure in their own vehicle. Our customers with health issues really appreciate the fact that they don't have to enter the building to purchase and if the weather is particularly nasty, they don't have to get out in the wind, rain and snow. We also have customers that can't deal with the constraints of a store (anxiety, panic attacks, etc.) and this is a great choice for them as well.

Second, it's convenient. And safe. And secure. I hope that you will consider coming out to our retail in the near future and see for yourselves how it works and the lengths we have gone to in order to serve our customers safely and securely with each transaction with our drive through.

Thank you for your attention to this matter. And have a very Merry Christmas!
