Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable		

Product Description: Details must include the color, shape, and texture.	Shatter is smooth and brittle when cool and soft and pliable when warm. The color ranges from light yellow to golden brown depending on the strain used and is generally broken into semi square pieces.
Ingredients:	
Standard Production Procedure and Detailed Manufacturing Process:	Shatter will be produced in a closed-loop, supercritical CO2 extraction machine with specific settings for shatter and using CO2 as a solvent. The machine uses temperature and pressure to create a phase change in the carbon dioxide to extract components in the plant materials which can be separated and collected. Pressures and temperatures are varied in order to target specific compounds and create oil. After the the shatter is collected from the vessel, it can be stored in a freezer.
