Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Green Fire Distillate		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable/Wholesale		

Product Description: Details must include the color, shape, and texture.	Green Fire Distillate will range in color from a slightly translucent yellow to a dark rich amber. Green Fire Distillate will be a thick, sticky and viscous liquid that takes the shape of its container.
Ingredients:	N/A
Standard Production Procedure and Detailed Manufacturing Process:	Raw ground up cannabis material will be soaked in pre-chilled ethanol and/or butane and frequently agitated until the plant's trichomes are separated from the plant matter. Once complete, the mixture will be run through a filter system to remove the solid plant matter. The filtered product will then be put through a winterization process by being placed in a freezer until the residual solvent rises to the top of the oil for easy removal or placed in a rotary evaporator until the desired results are achieved and then placed in a vacuum oven to remove any residual solvent.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
