AMENDED 05-2023

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Control plan for persons under the age of 21
- Security
- Business records
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Health and safety standards
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06**) to meet the additional operating plan requirements for each license type.

Section 1 – Establishment & Contact Information

Enter information for the business seeking to be licensed, as identified on the license application.

AMCO
MAY 12 2023

Section 2 – Control Plan for Persons Under the Age of 21

2.1. Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

All exterior doors will remain locked at all times. All visitors will enter through the front door (reception area) and ID will be checked upon entry. Visitors will be required to sign in at door upon entry, and given visitor badges.

The only exception building entry will be food deliveries, to be delivered to back entrance of building. All delivery access will be handled by on-site staff and no delivery persons will be allowed entry into building without ID and sign-in.

Also, the premises will be monitored by a security system discussed elsewhere in this application.

Section 3 – Security

Restricted Access Areas (3 AAC 306.710):

3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:

A locked exterior door at the front and back of the facility will keep un-escorted members of the public from entering the facility; the doors will be labeled "restricted access area" per regulations.

Any visitor to the kitchen area will be required to sign in to the visitors logbook, wear a badge and be escorted by on-site staff.

3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:

Before entering the premises, visitors will sign a logbook and be given a visitors badge. Any visitors into the restricted access area will be given identification badges and escorted by staff. Visitor logbooks will be kept on record for forty (40) days, and no more than five (5) visitors at a time will be permitted.

AMCO
MAY 12 2023

AMCO
MAY 12 2023

3.3. Provide samples of licensee-produced identification badges that will be displayed by each licensee, employee, or agent while on the premises, and of visitor identification badges that will be worn by all visitors while in restricted access areas:

See following page, sample included.

Security Alarm Systems and Lock Standards (3 AAC 306.715):

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Both exterior entrances to the facility (the front door and the rear delivery entry door) will be equipped with motion-sensor LED flood lights. There are two outside lights over the windows and a large light box above each door. These exterior lights will facilitate surveillance by illuminating the front and rear doors so that any entries or exits to the building as well as any loitering or attempts to enter the premises will be easily visible, and can be recorded on the video monitoring surveillance cameras.

AMCO
MAY 12 2023

Form MJ-01: Marijuana Establishment Operating Plan

3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:

All doors to the facility will be equipped with magnetic breach plates and linked to a central alarm box. Shatter glass sensors will be installed in the office area in the vicinity of the exterior windows. Motion sensor cameras will be installed throughout the facility to operate together with the alarm system when the facility is closed.

In the event of an unauthorized entry, a security monitoring agency will contact Designated Licensee. If the entry is unauthorized, police will be notified immediately, and any/all licensee staff will not enter the premises until authorized and directed by the responding law enforcement.

The State of Alaska Department of Commerce, Community, and Economic Development, Alcohol and Marijuana Control Office will be notified as soon as possible and in any case within 24 hours after any unauthorized access to the premises or the Designated Licensee's knowledge of evidence or circumstances that reasonably indicate theft, diversion, or unexplained disappearance of marijuana, marijuana products, or money from the premises.

3.6. Describe your policies and procedures for preventing diversion of marijuana or marijuana product, including by employees:

All raw cannabis products (flower, leaf) will be kept in a secure storage cabinet until ready to use, and weighed/inventoried weekly to ensure no product diversion by staff. When being extracted/handled, all of the product will be handled and weighed on a State of Alaska certified scale by trained and qualified staff and monitored by security cameras. Upon completion of each product batch, products will be clearly labeled and securely stored until product testing is complete and the production batch is cleared for sale.

3.7. Describe your policies and procedures for preventing loitering:

Any non-staff may only gain access to the premises when accompanied by a member of staff; such visitors must be signed in and escorted through the premises by a member of staff at all times. If any individual is found loitering on the premises or near an entrance, they will be immediately be escorted off the premises. If the loiterer will not leave or reappears in a similar manner, a staff-member shall call law enforcement immediately.

You must be able to certify the statement below. Read the following and then sign your initials in the box to the right: Initials

3.8. I certify that if any additional security devices are used, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm, to enhance security of the licensed premises, I will have written policies and procedures describing their use. [illegible]

AMCO
MAY 12 2023

Video Surveillance (3 AAC 306.720):

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

3.9. The video surveillance and camera recording system for the licensed premises covers each restricted access area, and both the interior and exterior of each entrance to the facility.

3.10. Each video surveillance recording: is preserved for a minimum of 40 days, in a format that can be easily accessed for viewing (consistent with the Alcohol & Marijuana Control Office's approved format list); clearly and accurately displays the time and date; and is archived in a format that does not permit alteration of the recorded image.

3.11. The surveillance room or area is clearly defined on the Form MJ-02: Premises Diagram that is submitted with this application.

3.12. Surveillance recording equipment and video surveillance records are housed in a designated, locked, and secure area or in a lock box, cabinet, closet or other secure area where access is limited to the licensee(s), an authorized employee, and law enforcement personnel (including an agent of the Marijuana Control Board).

3.13. Describe how the video cameras will be placed to produce a clear view adequate to identify any individual inside the licensed premises, or within 20 feet of each entrance to the licensed premises:

Network video recordings will be stored securely for 40 days.
HD 1080 Color - 24HR MOTION, 40 DAY
The facility structure is rectangular with a front and back entrance. The structure has a separate vault, office and rest room but there are no other wall obstructions. All camera An exterior camera will be placed to the right side and above each door approximately 10 foot way from the entrance with 90 degree view focused on each entrance. Inside the facility each exterior door shall have a camera with 90 degree view directly facing each door set at approximately 7 foot above the floor. Inside the locked vault and the front office there will be a camera placed in the northern most corner with 90 degree view and complete surveillance of each area. In the three main work areas (production, packaging and sanitation) each will have two cameras with 90 degree view placed in opposite corners facing into the area. The array of the 10 interior cameras provide a complete and unobstructed, and in most instances redundant, view of the entire facility.

3.14. Describe the locked and secure area where video surveillance recording equipment and original copies of surveillance records will be housed and stored, and how you will ensure the area is accessible only to authorized personnel, law enforcement, or an agent of the Marijuana Control Board. If you will be using an offsite monitoring service and offsite storage of video surveillance records, your response must include how the offsite facility will meet these security requirements:

All surveillance equipment and recording equipment will be housed in a locked and secure server closet built into the main office on the premises. Video surveillance will only be acceptable to Licensee, its authorized employees, and law enforcement. Surveillance will be maintained in the office. Licensee maintains its own private server with firewall to maintain data integrity and prevent tampering.

AMCO
MAY 12 2023

Section 4 – Business Records

Review the requirements under 3 AAC 306.755. All licensed marijuana establishments must maintain, in a format that is readily understood by a reasonably prudent business person, certain business records.

4.1. I certify that the following business records will be maintained and kept on the licensed premises: Initials

a. **all books and records necessary to fully account for each business transaction conducted under my license for the current year and three preceding calendar years** *(records for the last six months must be maintained on the licensed premises; older records may be archived on or off-premises)*;

b. **a current employee list setting out the full name and marijuana handler permit number of each licensee, employee, and agent who works at the marijuana establishment;**

c. **the business contact information for vendors that maintain video surveillance systems and security alarm systems for the licensed premises;**

d. **records related to advertising and marketing;**

e. **a current diagram of the licensed premises, including each restricted access area;**

f. **a log recording the name, and date and time of entry of each visitor permitted into a restricted access area;**

g. **all records normally retained for tax purposes;**

h. **accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed;**

i. **transportation records for marijuana and marijuana product, as required by 3 AAC 306.750(f); and**

j. **registration and inspection reports of scales registered under the Weights and Measures Act, as required by 3 AAC 306.745.**

4.2. A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

The company will maintain all records electronically by direct collection electronically as received or through electronic scanning. Paper copies will be kept as necessary for short duration in a locked file cabinet in the Office area. All electronic data will be stored on a secure Dropbox files as well as company server at the facility with weekly physical back up of the disc drives to data media maintained offsite.

Section 5 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730. All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with Metrc to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana is propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a marijuana product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

5.1. My marijuana establishment will be using Metrc, and if any other tracking software is used, it will be capable of sharing information with Metrc.

5.2. All marijuana delivered to a marijuana establishment will be weighed on a scale registered in compliance with 3 AAC 306.745.

5.3. My marijuana establishment will use registered scales in compliance with AS 45.75.080 (Weights and Measures Act), as required by 3 AAC 306.745.

Section 6 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700. All licensees, and every employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, must obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

6.1. All licensees, and each employee or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment.

6.2. Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the licensed premises) when on the licensed premises.

6.3. Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired.

6.4. Describe any in-house training that will be provided to employees and agents (apart from a marijuana handler course):

Licensee has policies and procedures that are designed to protect the employees and customers while maintaining security for restricted access areas. Licensee employees will be trained in the following emergency response scenarios:
* Robbery
* Theft
* Hostage
* Medical emergency
* Fire
* Earthquake
* Other natural disaster

Licensee staff are also apprised of any new regulations or laws during mandatory monthly meetings.

AMCO
MAY 12 2023

Section 7 – Health and Safety Standards

Review the requirements under 3 AAC 306.735.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box:	Initials
7.1. I understand that a marijuana establishment is subject to inspection by the local fire department, building inspector, or code enforcement officer to confirm that health or safety concerns are not present.	
7.2. I have policies regarding health and safety standards (including: ensuring a person with an illness or infection does not come into contact with marijuana or marijuana product; good hygienic practices; cleaning and maintenance of equipment and the premises; pest deterrence; chemical storage; sanitation principles; and proper handling of marijuana and marijuana product) and will take all reasonable measures and precautions to ensure that they are met or exceeded.	
7.3. I have policies to ensure that any marijuana or marijuana product that has been stored beyond its usable life, or was stored improperly, is not salvaged and returned to the marketplace.	
7.4. I have policies to ensure that in the event information about the age or storage conditions of marijuana or marijuana product is unreliable, the marijuana or marijuana product will be handled in accordance with 3 AAC 306.735(d).	

Answer "Yes" or "No" to each of the following questions:	Yes	No
7.5. Adequate and readily accessible toilet facilities that are maintained and in good repair and sanitary condition are clearly indicated on my Form MJ-02: Premises Diagram.	✓	
7.6. Convenient handwashing facilities with running water at a suitable temperature are clearly indicated on my Form MJ-02: Premises Diagram.	✓	

7.7. If you answered "No" to either 7.5 or 7.6 above, describe how toilet and/or handwashing facilities are made accessible, as required by 3 AAC 306.735(b)(2):

Section 8 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750.

8.1. Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

See exhibit I, attached.

You must be able to certify each statement below. Read the following and then sign your initials in the corresponding box: Initials

8.2. The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700.

8.3. The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle.

8.4. The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport.

8.5. During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport.

8.6. Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment.

8.7. When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received.

8.8. The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest.

Section 9 – Signage and Advertising

Review the requirements under 3 AAC 306.770.

9.1. Describe any signs that you intend to post on your establishment, including quantity, dimensions, graphics, and location on your establishment (photos or drawings may be attached):

There will be absolutely no signage except that required by the Anchorage Fire Department to identify flammable goods on site and address numbers on the front and rear of the building.

AMCO
MAY 12 2023

Form MJ-01: Marijuana Establishment Operating Plan

9.2. Describe any advertising you intend to distribute for your establishment. Include medium types and business logos (photos or drawings may be attached):

We will have several printed materials used to educate and sell our products.
We will have a product list with associated pricing, pictures of the packaging and edible or concentrate item.
We will also have a product map used as an educational piece to help customers understand more about our company, processes, recycle packaging, ingredients, and effects.
We will used pictures similar to those included in MJ-05. Please see attached for examples of our brand and draft packaging, only minor changes expected in our final drafts.
We would also like to have branded merchandise such as refrigerators, wall and table displays, customer branded pieces displayed at dispensaries, product menus, banners, posters, framed product images and swag items such as: clothing, water bottles, etc.
Any sway items will mirror our branding documents, attached to this license.

I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

(Additional Space as Needed):

8.1 Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment. Include a description of the type of locked, safe, and secure storage compartments to be used in vehicles transporting marijuana or marijuana product:

Aurora Blum's procedures for shipping, receiving and transporting marijuana and marijuana product are as follows:

1. Aurora Blum shall keep records of all marijuana and marijuana products shipped from or received at the licensed premises as required by 3 AAC 306.750.
2. Aurora Blum shall only use a person who possesses a valid marijuana handler permit to transport marijuana or marijuana product.
3. All marijuana or marijuana product leaving the licensed premises will be placed into a durable, tamper-evident packaging for transport.
4. The shipment will be accompanied by the appropriate manifest and will be verified by a Aurora Blum employee, licensee or designated agent before the shipment leaves the premises.
5. Aurora Blum shall use the marijuana inventory tracking system to record the type, amount and weight of the marijuana or marijuana product being transported, the name of the transporter, the estimated time of departure, destination
6. and expected time of arrival. The make, model and licensed plate number of the vehicle being used to transport the shipment shall also be recorded.
7. The marijuana or marijuana product shipment will be sealed in a package or container for transport.
8. The sealed package or container will be placed in a locked, safe and secure storage compartment or container in the transporting vehicle. The sealed package may not be opened during transport.
9. The vehicle transporting the marijuana or marijuana product must travel directly from the shipping premises to the receiving premises, and may not make unnecessary stops in between, except to deliver or pick up marijuana or marijuana product at another licensed marijuana establishment.
10. When a licensed entity receives marijuana or marijuana product transported in compliance with this section the recipient of the shipment shall use the marijuana inventory tracking system to report the type, amount, and weight.
11. Aurora Blum shall refuse to accept any shipment of marijuana or marijuana products that is not accompanied by an appropriate transportation manifest

LOGOTYPE

BLÜM

The logotype is set in Harbour Medium. It's a unique typeface that combines elements of blackletter and Latin letterforms. Traditional blackletter faces can create reading difficulties for present-day readers, but the Latin-influenced style of Harbour greatly enhances its legibility.

Harbour Medium

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

BLÜM

BLÜM

BLÜM

BLÜM

ADULT ANTIQUA

Adult Antiqua blends the best of both worlds. It uses calligraphic forms that are derived from writing with quills, but is a typeface that is clearly drawn by hand. This modern interpretation of a classic presents a sophisticated voice that is unique and personable. This font is the primary headline and subhead text (large and in few words).

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

Adult Antiqua Regular
Adult Antiqua Medium
Adult Antiqua Semibold
Adult Antiqua Regular

Cera Pro

Chosen for its simplicity and readability. This geometric sans serif has a hand-drawn influence, which gives it an organic feel and makes it easy on the eyes. Recommended for use as body copy.

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz

Cera Pro Light
Cera Pro Light Italic
Cera Pro Regular
Cera Pro Regular Italic
Cera Pro Medium
Cera Pro Medium Italic
Cera Pro Bold
Cera Pro Bold Italic

The open and rounded letterforms of both fonts present a friendly and inviting personality to the brand. While the headline speaks in a sophisticated tone, the bodycopy continues the conversation in a readable way.

A sample headline or statement.

This is a sample subheadline, second to be read and should contain top-level, support info to the header.

This body text should contain the details and information that fall under the headers and subhead. The following paragraph is placeholder text.

This is filler text showing more body text. Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad min, quis nostrud. Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet. Ut enim ad min, quis nostrud.

About Blüm

Blüm products include a range of unique and handcrafted flavor recipes. We use locally sourced raw ingredients from Alaska farms and small businesses whenever possible. We believe that building partnerships and collaboration will build a stronger community.

We believe in doing good by the customer and Mother Earth. Blüm packaging uses little to no plastic, and boxes are recyclable.

We aim to make our products accessible to every person, from the curious newbie to the seasoned partaker. We invite every Alaskan (21+) to love Blüm as much as we do!

AMCO
MAY 12 2023

Our Products

Blüm sources only high-quality cannabis plants for use in our products. After plant materials are processed into crude oil, we use a proprietary scientific process to modify the cannabinoid and terpenoid profiles to get the desired effect. The result is a pure, consistent high every time.

Blüm offers three unique blends to cover a range of effects. All products are clearly marked with a label signifying the effect. Blüm is the first cannabis line in the Alaska market to make it easy for consumers to shop for the feeling they desire.

ZING
An energizing and lively sativa effect.

COAST
A smooth and sustained hybrid effect.

UNWIND
A calming and relaxing indica effect.
