Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Distillate Oil		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable/wholesale/in-house		

Product Description: Details must include the color, shape, and texture.	THC distillate is cannabis oil that has been refined using short path distillation. It is an odorless, tasteless extract that can range in color from pale amber to tan. The texture is similar to honey and can be thicker or thinner than honey depending on the room temperature.
Ingredients:	N/A-
Standard Production Procedure and Detailed Manufacturing Process:	Winterize the material being used by combining with 200 proof alcohol, mixing well and storing overnight. Prepare the short path distillation kit; grease all joints and make sure everything is vacuum tight. Add the extract to the funnel and flask and follow steps to extract distillate in SOP-M-006 Distillate Extraction. Transfer the distillate into an airtight container and store in a cool dark place. CBD from an approved Alaska Industrial Hemp source may be added during final production phase.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
