Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.

Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Cannabis Cream		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Edible		

Product Description: Details must include the color, shape, and texture.	Cream is a dairy product composed of the higher-fat layer skimmed from the top of milk before homogenization. It is white to off white and can be in liquid form or whipped up into stiff peaks.
Ingredients:	Cream and either rosin chips, flower, trim, keif or distillate. CBD from an approved Alaska Industrial Hemp source may be added.
Standard Production Procedure and Detailed Manufacturing Process:	In a saucepan combine cream and rosin chips or flower/trim or distillate and bring to a simmer for one hour stirring occasionally. Strain through cheesecloth or fine mesh. Pour cream into a mixing bowl and mix in blender for 30 seconds. Chill until ready for use in infused ice cream or infused coffee creamer. CBD from an approved Alaska Industrial Hemp Source may be added at a 1:1 THC ratio with the concentrate used in production
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Cannabis Cream
Product Type:	OtherMarijuana product

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Infused cream will not be for sale; it will be used to make marijuana infused edibles. Infused cream will be stored in sealed glass containers. Actual amount of THC and CBD per testing results will be clearly indicated on the final product label.
CBD ratio 1:1 THC

Example of storage containers (or similar):

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

We will not be labeling infused cream for retail or wholesale sales as it will not be for sale and will be used exclusively in house to make infused edibles. It will be labeled with it's METRC package tag or package tag number and/or production batch number; additionally it will be labeled with in house food safety and qc labeling which may have date of production, date of disposal, potency by volume, or other relevant internal information
