To: Chair and Members of the Board

From: Kristina Serezhenkov, Local Government Specialist

Re: Staff requests the ABC board to review the proposed business model of transfer applicant Frontier Crafted Spirits Holdings LLC which includes overlapping licensed premises with different licensees owning the overlapping licenses and make a decision if the applicant's business model is allowed under 3 AAC 305.660.

The transfer applicant, Frontier Crafted Spirits Holdings LLC proposes to become the new owner and move the location of Beverage Dispensary license #201 to 6310 A St. Anchorage, AK 99518

Further, the applicant wishes for the Beverage Dispensary license to fully overlap with three (already overlapping) licenses that exist at this premises and are owned by a different entity, Anchorage Distillery LLC.

Those licenses already fully overlapping at 6310 A St.are:

Distillery Manufacturer #5462 with an active Manufacturer Sampling Endorsement #15888
Distillery Retail #15882
Manufacturer Direct Shipment #15890

The proposed combination of overlapping license types is allowable under 3 AAC 305.660 as approved by the board. The proposed business model in which two different licensees (entities) operate their licenses on fully overlapping premises could be the issue.
