RE: Amendment Request – Common Carrier Registration for Alaska Northern Courier LLC

To the Members of the Board:

I respectfully submit this request for an amendment to our common carrier registration to permit Alaska Northern Courier LLC to facilitate package pick-up by consignees at our Anchorage hub and only under specific circumstances. These circumstances include situations where the delivery address is invalid, inaccessible, unattended, or when the consignee has relocated.

For every such pick-up, we will maintain thorough documentation, including verification of identification and execution of a signed release by the consignee. At no time will alcoholic beverages be accessible to the public.

Alaska Northern Courier LLC does not intend to provide these services to consumers directly; our operations are offered exclusively to licensed entities and scheduled deliveries, in strict compliance with all applicable AMCO regulations.

Thank you for your consideration.

Sincerely,

Charles Britt Ward Jr.
