---

Jesse,

I have reviewed your application for the new standard marijuana cultivation facility mentioned in the subject line. Please address the following:

- The lease provided does not list the leased premises with address. Please have the landlord include it.
- Please look at your MJ-04, page 6, sections 8.1 and 8.2. You answered "no" to both questions, so how is it that you will be selling your product to a retail or a manufacturing facility, for example? One or both boxes should apply and be described. Unless, I'm missing something, and if I am, please, let me know.

The 90-day deadline for you to complete your application as described in 3 AAC 306.025(f) is May 11, 2023. But, will you please get me these items/corrections/information no later than 2.17.23 so I can schedule it for the agenda for March 2023.

Respectfully,

Jane P. Sawyer
