Attachment to MJ-20: Section 3 – Violations and Charges

Goldhill Gardens (License number 4a-10481)

To Whom it May Concern,

I believe that I received two Notices of Violations this last year around August and September, and possible one in February. I'm sorry that I can't remember. I believe that I did address them right away, in writing to the Board. The only violation or violations that I have received have been for being late on taxes. The delays in August were the result of trying to pay taxes and renewal fees. We had a very difficult year last summer with the heat bringing down the quality of our harvest and having to sell them for less and still paying a flat fee on the products. In February, my mom passed away. She lived in Ohio and as a result of helping my birth family, I think I may have been late. However, I was in contact with Enforcement and the department of Revenue. Anyways, the taxes are all paid and were, within a month after they were due.

My sincerest apologies for the delays.
