Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Rosin		
Product Type: Choose one.	Marijuana Concentrate		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	9 months
Intended Use: Smokable/ edible/topical/wholesale/etc.	Smokable and wholesale		

Product Description: Details must include the color, shape, and texture.	Rosin is translucent, sappy and sometimes shatter-like. The color can range from light amber to tan.
Ingredients:	N/A-
Standard Production Procedure and Detailed Manufacturing Process:	Using a heat plated press and the desired material (flower, keif or hash) will be loaded into a micron mesh bag and placed between folded parchment paper. Insert the parchment paper so it aligns with the back of the heated plate and press the material, increasing until the rosin starts to flow. Continue to apply pressure as indicated in SOP-M-001 Rosin Extraction and stop when the rosin begins to darken. Remove the parchment paper. Use a dab tool to collect the rosin from the parchment paper and store in an airtight container. CBD from an approved Alaska Industrial Hemp source may be added during final production phase.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Rosin
Product Type:	Marijuana Concentrate

Packaging Description:
Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Rosin will be packaged in .5, 1, 3, or 7 grams in clear or opaque glass or plastic containers with a thick base and solid black or white screw top lid and heat sealed in a mylar bag such as shown below, or similar.
Total amount of THC will range from 40 - 99%. The actual THC & CBD content will be listed on the label per the testing results and will not exceed 5600mg/THC per package when packaged for retail sales. Up to 5lbs of Rosin may be stored in food grade containers for wholesale sales.
Example of packaging (or similar):

Sample Labels:
Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.
