Andrea,

You need to notify the right community council. I have recopied our examiners answers to your questions below so that you can read them again.

I also included the letter written to me by the Spenard Community Council pointing out that they are not the community council with jurisdiction over your premises. This is your job to know who your community council is.

Is it possible that you are confused because you are having someone else fill out these documents for you?

We got an email from someone that is not an approved point of contact to your application asking for information on your application, also copied below. This person, Hugh Wade, wrote to Sarah Oates directly. We will not share information about your application with a person we do not know and who is not a licensee or an authorized user of your electronic license file. If you have been to the electronic application, you can see where you can add such persons. Why did he write Sarah instead of sending this to marijuana.licensing@alaska.gov?

Are you sure that you understand the licensing process? Maybe you need to go back and review the instructions and video again. I would also appreciate you exercising common courtesy to our staff. I am their boss, not you.

Thanks, and I hope you get a handle on the application process and get the correct community council notified. The MOA has protested your application and will not lift the protest until you have been to some community council meetings. Hopefully you are familiarizing yourself with the MOA processes as well. This is not something you can have done for you, like getting someone to pick up your dry cleaning. If you want to be a marijuana license holder, you should start educating yourself.

Cynthia Franklin, Director
Alcohol & Marijuana Control Office
907-269-0351

Wildflowers application is deemed complete, correct? Yes, but the examiner did not see that you put MOA on the community council line, which is not a community council. The MOA noticed it and pointed it out to us. See below.

Public notice was sent to the Muni on the date notated on MJ-08. Are you asking for another MJ-08 dated today because public notices were sent again to another department, identified only this week by AMCO at the muni? Please clarify. Please look for the email forwarded to you on 9/26/2016 from the Municipality of Anchorage stating they were not notified of the application.

Also, please identify what staff member is making these requests. There seems to be ongoing confusion as to who is doing what at AMCO. Not sure what you mean by this.

Please clearly and specifically answer each question above to avoid any further confusion. Not sure what confusion you are referring to

And yes you do need to notify the community council and provide an updated MJ-08 (FYI: community council and municipality of anchorage are two different entities). As for the notice to the Muni if you did not properly notify them, then please do so and submit an updated MJ-08.

Director Franklin-

The above referenced proposed marijuana business in not in the Spenard Community Council area. It is in the North Star Community Council area.

Please issue the notification letter again with the correct information displayed.

The most recently updated Master List of community council contacts is always available on the Community Councils website at:
http://communitycouncils.org/servlet/content/1552.html

Thank you.

Subject: Inquiry

Sarah,

I have a client who is a tenant at 2229 Spenard Road. She asked me to check on the status of the various licenses for Wild Flower Holdings at that address.

From the map and other info available on the website, I see that:

- The cultivation license is incomplete.
- The concentration license has been initiated.
- The retail license has been initiated.
- The product manufacturing license has been initiated.

Could you provide more of an update or more info? Okay to call if faster and easier.

Thanks Sarah.

Hugh

For clarification, please answer all the questions asked in my last email.

Thank you.

Good afternoon;

It just came to our attention that you did not notify the community council in the area of this proposed premises for the marijuana cultivation facility (MJ-08 does not have the name of the community council you notified).

Additionally, another email was forwarded to you from the Municipality of Anchorage stating they were not notified properly.

Please properly notify your community council and the Municipality of Anchorage and file an updated MJ-08 with us.

Thank you
