See responses below.

And yes you do need to notify the community council and provide an updated MJ-08 (FYI: community council and municipality of anchorage are two different entities). As for the notice to the Muni if you did not properly notify them, then please do so and submit an updated MJ-08.

Thanks
Jane

Wildflowers application is deemed complete, correct? Yes

Public notice was sent to the Muni on the date notated on MJ-08. Are you asking for another MJ-08 dated today because public notices were sent again to another department, identified only this week by AMCO at the muni? Please clarify. Please look for the email forwarded to you on 9/26/2016 from the Municipality of Anchorage stating they were not notified of the application.

Also, please identify what staff member is making these requests. There seems to be ongoing confusion as to who is doing what at AMCO. Not sure what you mean by this.

Please clearly and specifically answer each question above to avoid any further confusion. Not sure what confusion you are referring to.

Thank you very much.

Good afternoon;

It just came to our attention that you did not notify the community council in the area of this proposed premises for the marijuana cultivation facility (MJ-08 does not have the name of the community council you notified).

Additionally, another email was forwarded to you from the Municipality of Anchorage stating they were not notified properly.

Please properly notify your community council and the Municipality of Anchorage and file an updated MJ-08 with us.

Thank you
