Re: Marijuana Product Manufacturing Facility Facility #15790

Dear applicant,

The AMCO Office is reviewing the documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted**.** Please be sure to read the entire letter.

- **MJ-00 Application Certifications**
  - Page 1, Section 3 – Other Licenses for both:
    - The license number listed for the retail marijuana store in this section is the same as the license number being applied for.
- **MJ-01 Operating Plan**
  - Page 1, Section 1 – Establishment Information:
    - James Hacker was listed as the designated licensee when the online application was initiated, but this form lists Lisa Hacker as the designated licensee. Please confirm who should be listed as the designated licensee for this license.
  - Page 6, Section 4.2:
    - As a reminder, you need to keep at least six months of records on the licensed premises of the production facility (you initialed this on 4.1). Older records may be archived on or off the licensed premises.
- **MJ-02 Premises Diagram**
  - All:
    - Please number your diagrams according to the list on Page 1 of Form MJ-02.
    - According to the legend, an orange highlight indicates a shared office, but the same color was used to mark the area labeled "Shared Locked Waste Storage".
    - Please specify in the legend that the shared office is an unlicensed area.
    - The Waste Disposal procedures must be performed within each of the licensed premises for each of the licenses, and be under surveillance. Therefore, the "Shared Locked Waste Storage" will not be allowed. Please amend all diagrams that show this area accordingly.
  - Scorpion Grass Site Plan(s):
    - An area labeled "Cannabis Waste Enclosure / 8 CY" is included in one of the site plan diagrams but is not present on the other, which has an area labeled "Secured Locked Waste Container" in a different location.
- **MJ-05 Manufacturing Supplemental**

- Page 4, Section 5.3:
  - It was stated in 5.2 that the manufacturing facility would not be performing in-house testing, but you have certified that the in-house testing area is clearly identified on Form MJ-02. Please review and correct accordingly.
- Section 7 – Proposed Product Packaging and Sample Labels for Scorpion Grass CO_2 Oil:
  - The Packaging Description states that CO_2 Oil will be packaged in jars up to one pound for wholesale. Please specify who these jars would be sold to.
- Section 7 – Proposed Product Packaging and Sample Labels for Scorpion Grass Budder:
  - In the Packaging Description, Scorpion Grass Budder is referred to as wax. Please correct accordingly.
- Section 6 – Proposed Marijuana Concentrates and Marijuana Products for Scorpion Grass Vape Pen:
  - The Product Description omits the word "oil" in the first sentence and reads "Vape pens will be filled with CO2 manufactured by Scorpion Grass". Please specify that the vape pens will be filled with CO_2 Oil.

- **MJ-07 Public Notice Posting Affidavit**
  - Section 2 – Certifications:
    - Please identify what the other conspicuous location where the application was posted was (in addition to listing its address).

It is very important that you submit the above corrections and/or documents as soon as possible. AMCO staff needs adequate time to review the documents and determine if additional corrections and/or documents are necessary to complete your application. If you fail to complete this application within 90 days of the date of this notice, you must file a new application and pay a new fee, per 3 AAC 306.025(f).

Respectfully,

TJ Zielinski, Occupational Licensing Examiner

---

Good afternoon,

Your application for your marijuana establishment license has been reviewed, and at this time is considered incomplete. Please see the attached notice regarding corrections, additional documents, and/or resubmittals that need to be addressed in your application. Let us know if you require copies of any documents that were submitted.

If you have any questions or concerns, please address them to marijuana.licensing@alaska.gov.

Sincerely,

TJ Zielinski

Good afternoon,

I have finished reviewing the revisions submitted for this application, but there are some additional revisions required:

Form MJ-01 Operating Plan

Page 6, Section 4.2 - the response in this section was revised to say that records would be kept for six months in the shared office. However, 3 AAC 306.755(a)(1) states that records for the last six months must be maintained on the marijuana establishment's licensed premises. Older records can be archived on or off premises, but the current six months of records will need to remain on the premises of the product manufacturing facility.

Form MJ-02 Premises Diagram

Diagram #4 - An area was added to the proposed licensed premises of the standard marijuana cultivation facility (license #15789) for secure waste storage, but this area is not reflected on this diagram. However, please be sure to review my response regarding License #15789 before making any changes to the diagrams for this application.

If you have any questions, please direct your correspondence to marijuana.licensing@alaska.gov.

Sincerely,

TJ Zielinski

Attachments:	image001.png

Good afternoon,

I have completed my review of the attached documents for these licenses and see that most of the needed revisions have been addressed. However, during my review of the revised Form MJ-02 diagrams, I noticed that the restroom in the cultivation facility has been labeled as a restricted access area which would require the area to be under video surveillance. The restroom had not been labeled as a restricted access area initially, so this may have been accidental.

For License #15788, the restroom can be found on the diagrams labeled **Diagram #1 & 2 P. 1** and **Diagram #1 & 2 P. 2**.

For License #15789, the restroom can be found on the diagrams labeled **Diagram #1 & 2 P. 1** and **Diagram #1 & 2 P. 3**.

For License #15790, the restroom can be found on the diagrams labeled **Diagram #2 & 5 P. 1** and **Diagram #2 & 5 P. 2**.

Sincerely,

Good morning Valerie,

The outlined bathroom is the correct one that I was referencing. The full bathroom is not shown on the second diagrams for each license, but a portion of the lower right-hand corner is. Just to keep the diagrams consistent with each other, this section should also be labeled as part of the licensed premises but not a restricted access area:

Hi TJ,

Attached are the updated diagrams outlining the restrooms as not Restricted Access Area's. However, on the second diagram for each license you mention below, there are no bathrooms on the diagram. There are sinks shown, but these sinks are a three compartment sink and a handwashing sink that is required by DHHS/DEC. Please let me know if that is what you were referencing or if was a different diagram you were meaning.

Thank you!

Hi – none of the restrooms are intended to be restricted access – it was accidental when the architect revised the diagrams – we will make a notation on each of the diagrams you identify below that the restroom is NOT included in the restricted access area, would this be acceptable? Please let us know as soon as possible, and please let us know if you need anything else to deem these applications complete for October hearing. The applicants are really hoping/and really do need to make the October hearing – so please let us know asap.

Re: Response to Incomplete Letter for L&J Ventures, Inc. Manufacturing License No. 15790

AMCO Team:

Thank you for your correspondence dated August 15, 2018. Please find the following attachments and/or statements to address your incomplete items:

- MJ-00 retail license number has been amended to Page 1.

- MJ-01 Page 1 has been updated to reflect James Hacker has designated licensee
    - Page 6 has been updated to add that all records will be stored at least 6 months on site in shared office.

- MJ-02 All diagrams have been numbered
    - Shared office is now specified as unlicensed area but will remain restricted access area.
    - Shared waste storage has been removed and waste storage is located in each licensed premises.
    - Diagrams have been numbered and labeled per MJ02.

- Shared "Cannabis Waste Enclosure" has been removed from diagram.

- MJ-05 Page 4, initialed box has been removed, removing the statement that in-house testing will be clearly identified on MJ-02.
    - Section 7 has been amended to remove the sale of wholesale CO2 Oil
    - Section 7 Scorpion Grass Budder has been amended to remove the word wax and replace with Budder.
    - Section 6 has been amended to insert the word "oil" in the first sentence.

AMCO Received 8/31/2018

- MJ-07 has been updated to identify the name of the conspicuous location where the application was posted (Three Bears Alaska).

Thank you for your consideration,

Jana D. Weltzin, Esq.

AMCO Received 8/31/2018
