Ms. Gribbon,

As the director, I do not examine documents. The licensing section receives documentation for marijuana applications at the above address. If you sent it to that address, you got it to the right place. Instructions regarding where to send documents appear in multiple sections of our website and instructions.

I do not have the kind of schedule where you can threaten me with meetings as below. Please don't do that. I already carved time out of my schedule to meet with you and you stated that you were going to be responsible for your own application from that point forward. Please review the instructions and FAQs on our website if you have any questions. You have to follow those instructions like the hundreds of other applicants for marijuana licenses.
