In general, objections will be reviewed at the time the MCB considers the marijuana establishment application. It is then up to the board. The proposed licensee will need to keep checking our website for upcoming meetings and the agendas.

Thanks

AMCO Staff

Wow. Thank you for the forward.

What, if anything, needs to be done to address this objection?

Please advise as money is being spent daily to build out and get our facility open.

Thank you!

> I believe this license was submitted under the name of Andrea Gribbin. If so and

it names her as having the only interest in this business I want to inform that there are also out of state parties as silent partners. Non residents who also have ownership interests in cultivation and retail stores out of state. Check into who is on the lease for their space on the proposed Spenard road location, additionally one of these out of state partners is a registered felon in Alaska and has business licensed into his wife's name. As I believe the Realtor who found these parties their space should be able to share who is was that her husband showed many properties to. These people that were shown around town properties for "their" cannabusiness and I have reason to believe Andrea Gribbin is just their straw hat business owner on paper. If this license is issued it could stand to tear a family apart over financial issues that do not need to come about. Andrea on her own has zero resources for a business venture like this please consider my suggestions. These connections may as well be referenced with Uncle Herbs cultivation and dispensaries. I'm all for legal pot business I am not for Illegal back alley shading business doings. Especially with people who have no intentions to pay their share of taxes to the industry or uncle Sam.
Thank you. Anonymous.
