Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Security
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Waste disposal
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising
- Control plan for persons under the age of 21

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 2 – Security

Review the requirements under 3 AAC 306.710 – 3 AAC 306.720 and 3 AAC 306.755, and identify how the proposed premises will meet the listed requirements.

Describe how the proposed premises will comply with each of the following:

Restricted Access Areas (3 AAC 306.710):

Describe how you will prevent unescorted members of the public from entering restricted access areas:

The Cannafarm is located on an 28 acre parcel of mostly raw land. surrounded by large parcels that are not occupied. It would be considered low traffic. The building will be kept locked at all times and we will treat the whole building as a restricted area. There will be a sign located at both doors of the building that clearly indicates that the building is off limits to the public, no one under 21 is permitted and that entering the building without an owner or employee is prohibited.

Describe your processes for admitting visitors into and escorting them through restricted access areas:

Visitors will be met at the door. upon escorted entrance to the cannabarn, visitors will wash hands and arms and don clean suits and shoe coverings. This will be done to prevent outside contaminates including bugs and debris from moving indoors. Visitors will be issued a name badge that clearly identifies them as a temporary guest. Visitors will sign a guest book. Visitors will be monitored by an employee for the entire time they are in the grow barn. There shall never be more than 5 visitors per manager or employee. Visitors will include outside professionals such as maintenance and repair technicians. Or for any service that does not required to handle marijuana in any form or to require a MHC.

Security Alarm Systems and Lock Standards (3 AAC 306.715):

Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Motion sensor lighting has been installed on all four sides of the building. Additional door lighting has been installed above both doors. The door lighting can be set to motion detector or continuous.

An alarm system is required for all license types. Describe the security alarm system for the proposed premises:

Blue Bear Cannafarm has two doors and no windows. Pressure switches for the two doors will be connected to the owners-managers smart phones with the ability to alert local law enforcement.

The alarm system must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe how the security alarm system meets this requirement:

The alarm system and door lock use a key pad. The doors will remained locked at all times. The alarm system will need to be set manually upon exiting the building.

Describe your policies and procedures for preventing diversion of marijuana or marijuana product:

Records will be kept of all plants during each stage of development and processing, as well as transportation manifests. using the Metrc software. Video surveillance will be monitored. The owners and employees understand that this is not a homegrown operation for personal use. Only people thought to be of honest nature will be hired. But if in the event that someone is caught stealing and we feel that proof is adequate, they will be fired and charges will be filed.

Describe your policies and procedures for preventing loitering:

The cannabarn is located in a secluded area. If there is someone lurking in the woods, outside cameras and wireless alarm connected to our phones will alert us. If there is someone loitering in the driveway or outside building area, we will advise them that the cannabarn is not open to the public.

Describe your policies and procedures regarding the use of any additional security device, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm to enhance security of the proposed premises:

Pressure switch alarms will be installed on both doors to alert workers in the building that the door has been opened.

A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

We will be using Metrc as our MTS. MTS will be installed on our laptop computer. At the end of the day we will back up our data on an external USB jump drive and lock the jump drive into a fireproof safe. Any paper records, such as sales receipts will be stored in a filing cabinet after they are entered into Quickbooks. Quickbooks is backed up and that USB jump-drive is stored in our fireproof safe. Records like shipping manifests will be scanned into an electronic file and saved the same way.

Section 3 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730, and identify how the proposed establishment will meet the listed requirements.

All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with the system the board implements to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

Applicants should be able to answer "Yes" to all items below.

Marijuana Tracking and Weighing:	Yes	No
A marijuana inventory tracking system, capable of sharing information with the system the board implements to ensure tracking for the reasons listed above, will be used	☑	☐
All marijuana delivered to a marijuana establishment will be weighed on a scale certified in compliance with 3 AAC 306.745	☑	☐

Describe the marijuana tracking system that you plan to use and how you will ensure that it is capable of sharing information with the system the board implements:

Our plan is to install the MTS Metrc on our laptop computer. Bluebear cannafarm has an Internet connection that will be adequate to maintain the MTS and security cameras.

Section 5 – Waste Disposal

Review the requirements under 3 AAC 306.740, and identify how the proposed establishment will meet the listed requirements.

Applicants should be able to answer "Yes" to the statement below.

Marijuana Waste Disposal:	Yes	No
The marijuana establishment shall give the board at least 3 days notice in the marijuana inventory tracking system required under 3 AAC 306.730 before making the waste unusable and disposing of it	☑	☐

Describe how you will store, manage, and dispose of any solid or liquid waste, including wastewater generated during marijuana cultivation, production, process, testing, or retail sales, in compliance with applicable federal, state, and local laws and regulations:

Solid waste: Leaves, stems and stalks that are not of any quality for sale to a processor shall be dried then chipped or ground and added to dirt. This material will be used to increase the organic mater for Blue Bear Farm. Sugar shake, or any other plant mater that would be bought by a processor will be dried and stored in the cure room until sale.
Grow medium: Grodan cubes will be dried and stored in cold storage until summer. The plastic wrap will be removed and sent to the borough landfill. The cubes will be tilled into the farm garden and used in landscaping.
Waste water: Water conservation is high in our growing ethics. Our grow method is a closed loop hydroponic method. Liquid waste from the plants will be evaporated as much as possible. We have a 500 gallon holding tank that will be pumped by us and used in landscaping projects.

Describe what material or materials you will mix with the ground marijuana waste to make it unusable:

The soil at Blue Bear Farm is very poor in organic mater and nutrients. We will start amending that dirt with our spent rock-wool cubes and roots. Also the chipped stems, stalks and leaves. So..... Dirt. We will be adding dirt.
