INTRODUCTION

Thank you for your interest in city and borough dissolution. The process for changing boundaries, including dissolving a municipality, takes place at the state level in Alaska. Boundary changes are subject to a process first described in the Constitution of the State of Alaska. The intended audience for this information is cities, boroughs, and residents interested in pursuing dissolution, and this packet seeks to provide the necessary information to get started. This packet is primarily intended for those considering preparing a petition; however, opponents and proponents of current or planned petitions can find helpful information as well.

This packet is organized into several modules:

- [About the Local Boundary Commission](#)
- [About Municipal Dissolution](#)
- [Planning for Dissolution](#)
- [Procedures for Petitions](#)

These modules are intended to provide background information and orient interested persons and cities with the process for dissolution in Alaska and the relevant entities involved. This information packet provides background information on the Local Boundary Commission (LBC or commission) and its authority to consider boundary changes as well as the staff that supports the commission. It also describes steps to take, lists important considerations when deciding whether to pursue dissolution, and offers guidelines on the planning process. In addition, this packet provides information about the procedures before and after a petition is filed with the LBC.

Throughout the packet, the text refers to Alaska statutes, regulations, and sections of the Alaska constitution. All relevant laws are listed by title, and the full text can be found in the appendices. In this text, the term ‘municipalities’ refers to both cities and boroughs. The appendices also include a generic sample petition form; however, interested persons should still consult LBC staff before drafting a petition. Dissolution, however small the municipality proposed to be dissolved, is an involved process. This information packet aims to help prepare potential petitioners, and educate those interested in the process. Prospective petitioners and those with questions should feel free to contact staff:

CONSTITUTIONAL ORIGIN OF THE LOCAL BOUNDARY COMMISSION

The framers of Alaska’s constitution subscribed to the principle that, “unless a grave need existed, no agency, department, commission, or other body should be specified in the constitution.”¹ The framers recognized that a “grave need” existed when it came to the establishment and alteration of municipal governments and provided for the creation of the Local Boundary Commission (LBC or commission) in Article 10, Section 12 of the constitution.²

The LBC is one of only five state boards or commissions established in the constitution (among a current total of approximately 120 active boards and commissions). The Alaska Supreme Court characterized the framers’ purpose in creating the LBC as follows:

An examination of the relevant minutes of [the Local Government Committee of the Constitutional Convention] shows clearly the concept that was in mind when the local boundary commission section was being considered: that local political decisions do not usually create proper boundaries and that boundaries should be established at the state level. The advantage of the method proposed, in the words of the committee:

. . . lies in placing the process at a level where area-wide or state-wide needs can be taken into account. By placing authority in this third party, arguments for and against boundary change can be analyzed objectively.³

DUTIES AND FUNCTIONS OF THE LBC

The LBC acts on proposals for seven different municipal boundary changes. The term “municipalities” includes both city governments and borough governments. These are:

- incorporation of municipalities;
- reclassification of city governments;
- annexation to municipalities;
- dissolution of municipalities;
- detachment from municipalities;

¹ Victor Fischer, Alaska’s Constitutional Convention, p. 124.

² Article 10, Section 12 states, “A local boundary commission or board shall be established by law in the executive branch of state government. The commission or board may consider any proposed local government boundary change. It may present proposed changes to the Legislature during the first ten days of any regular session. The change shall become effective forty-five days after presentation or at the end of the session, whichever is earlier, unless disapproved by a resolution concurred in by a majority of the members of each house. The commission or board, subject to law, may establish procedures whereby boundaries may be adjusted by local action.”

³ *Fairview Public Utility District No. 1 v. City of Anchorage*, 368 P.2d 540, 543 (Alaska 1962).

- merger of municipalities; and
- consolidation of municipalities.

In addition to the above, the LBC has a continuing obligation under statutory law to:

- make studies of local government boundary problems;
- adopt regulations providing standards and procedures for municipal incorporation, annexation, detachment, merger, consolidation, reclassification, and dissolution; and
- make recommendations to the legislature concerning boundary changes under Article 10, Section 12 of Alaska's constitution.

The LBC is sometimes assigned duties by the legislature. Examples include the 2002 requirement to study the unorganized borough and determine which areas meet borough incorporation standards, and the 2003 directive to work with the Department of Education and Early Development regarding school district consolidation. These materials are available on the LBC website.

LBC DECISIONS MUST HAVE A REASONABLE BASIS AND MUST BE ARRIVED AT PROPERLY

LBC decisions regarding petitions that come before it must have a reasonable basis. That is, both the LBC's interpretation of the applicable legal standards and its evaluation of the evidence in the proceeding must have a rational foundation.⁴ The LBC must proceed within its jurisdiction, conduct a fair hearing, and avoid any prejudicial abuse of discretion. Abuse of discretion occurs if the LBC has not proceeded in the manner required by law or if its decision is not supported by evidence.

COMMUNICATIONS WITH THE LBC

LBC proceedings regarding a municipal boundary change must be conducted in a manner that upholds the right of everyone to due process and equal protection. Ensuring that communications with the LBC concerning municipal boundary proposals are conducted openly

⁴ See *Keane v. Local Boundary Commission*, 893 P.2d 1239, 1241 (Alaska 1995). When an administrative decision involves expertise regarding either complex subject matter or fundamental policy formulation, the court defers to the decision if it has a reasonable basis; *Lake and Peninsula Borough v. Local Boundary Commission*, 885 P.2d 1059,1062 (Alaska 1994); *Mobil Oil Corp. v. Local Boundary Commission*, 518 P.2d 92,97-8 (Alaska 1974). Where an agency action involves formulation of a fundamental policy the appropriate standard on review is whether the agency action has a reasonable basis; LBC exercises delegated legislative authority to reach basic policy decisions; acceptance of the incorporation petition should be affirmed if court perceives in the record a reasonable basis of support for the LBC's reading of the standards and its evaluation of the evidence; *Rose v. Commercial Fisheries Entry Comm'n*, 647 P.2d 154, 161 (Alaska 1982) (review of agency's exercise of its discretionary authority is made under the reasonable basis standard) cited in *Stosh's I/M v. Fairbanks North Star Borough*, 12 P.3d 1180, 1183 nn. 7 and 8 (Alaska 2000); see also *Matanuska-Susitna Borough v. Hammond*, 726 P.2d 166, 175-76 (Alaska 1986).

and publicly preserves those rights to due process and equal protection. To regulate communications, the LBC adopted [3 AAC 110.500\(b\)](#) which expressly prohibits private (*ex parte*) contact between the LBC and any individual, other than its staff, except during a public meeting called to address a municipal boundary proposal. The limitation takes effect upon the filing of a petition and remains in place through the last date available for the commission to reconsider a decision. If a decision of the LBC is appealed to the court, the limitation on *ex parte* contact is extended throughout the appeal in the event the court requires additional consideration by the LBC.

In that regard, all communications with the commission must be submitted through staff. The LBC staff may be contacted at the following address, telephone number, fax number, or email address.

LBC MEMBERSHIP

The LBC is an independent commission. Members of the LBC are appointed by the governor for five-year overlapping terms.⁵ Notwithstanding their terms, the five members of the LBC serve at the pleasure of the governor.⁶ One member is appointed from each of Alaska's four judicial districts. The fifth member is appointed from the state, at-large.

State law provides that members of the LBC must be appointed "on the basis of interest in public affairs, good judgment, knowledge and ability in the field of action of the department for which appointed, and with a view to providing diversity of interest and points of view in the membership."⁷ LBC members receive no pay for their service on the commission. However, they are entitled to travel expenses reimbursement and per diem authorized for members of boards and commissions under AS 39.20.180. A biographical summary of the current members of the LBC can be found on the LBC website.

STAFF TO THE LOCAL BOUNDARY COMMISSION

The framers provided for a local government agency in Article 10, Section 14 to advise and assist local governments.⁸ The constitutional duty to support local governments is entrusted to Alaska Department of Commerce, Community, and Economic Development (DCCED or department).⁹ Within DCCED, the Division of Community and Regional Affairs (DCRA) carries out the duty to advise and assist local governments, and provides staff to the commission pursuant to [AS 44.33.810](#).

The department is required to investigate each boundary change proposal and make recommendations regarding each to the commission.¹⁰ LBC decisions must have a reasonable basis (i.e., a proper interpretation of the applicable legal standards and a rational application of those standards to the evidence in the proceeding). Accordingly, DCCED adopts the same standard for itself in developing recommendations regarding matters pending before the LBC. That is, DCCED's self-imposed standard requires its recommendations to the LBC to be based on a proper interpretation of the applicable legal standards and a rational application of those standards to the evidence in the proceeding. DCCED takes the view that due process is best served by providing thorough, credible, and objective analysis of every municipal boundary proposal that comes before the LBC.

DCCED's commissioner, deputy commissioners, and the director of DCRA provide policy direction concerning recommendations to the LBC from staff. DCCED staff's recommendations to the LBC are not binding on the LBC. The LBC is an independent commission. While the commission is not obligated to follow DCCED recommendations, it has historically considered the department's analyses and recommendations to be critical components of the evidence in municipal boundary proceedings. The LBC considers the entire record when it renders a decision.

DCCED staff also provide technical assistance to municipalities, residents of areas subject to impacts from existing or potential petitions for creation or alteration of municipal governments, petitioners, respondents, agencies, and others. There are two full-time staff positions assigned to work on commission matters.

Types of assistance provided by DCCED staff include:

- conducting feasibility and policy analysis of proposals for incorporation or

⁸ Article 10, Section 14 states, "An agency shall be established by law in the executive branch of the state government to advise and assist local governments. It shall review their activities, collect and publish local government information, and perform other duties prescribed by law."

⁹ AS 44.33.020 provides that DCCED "shall (1) advise and assist local governments."

¹⁰ AS 29.05.080 and 3 AAC 110.530

- alteration of municipalities;
- responding to legislative and other governmental inquiries relating to issues on municipal government;
 - conducting informational meetings;
 - providing technical support during commission hearings and commission meetings;
 - drafting decisional statements;
 - implementing decisions of the commission;
 - certifying actions;
 - maintaining incorporation and boundary records for each of Alaska’s municipal governments;
 - drafting reports, correspondence, public notices, legislation, or regulations as requested by the commission;
 - coordinating, scheduling, and overseeing public meetings and hearings for the commission;
 - developing orientation materials and providing training for new commission members;
 - maintaining and preserving commission records in accordance with the public records laws of the state;
 - developing and updating forms and related materials for use in municipal incorporation or alteration; and
 - if directed by the commission, acting as a petitioner on a matter that the commission believes will promote local government standards in the Alaska constitution, AS 29.04, AS 29.05, or AS 29.06.

PROCEDURES OF THE COMMISSION

Procedures for establishing and altering municipal boundaries and for reclassifying cities are designed to secure the reasonable, timely, and inexpensive determination of every proposal to come before the commission. The procedures are also intended to ensure that decisions of the commission are based on analysis of the facts and the applicable legal standards, with due consideration of the positions of interested parties. The procedures include extensive public notice and opportunity to comment, thorough study, public informational meetings, public hearings, a decisional meeting of the commission, and opportunity for reconsideration by the commission. Petition procedures are described later in the modules, [About Municipal Dissolution](#) and [Procedures for Petitions](#).

ABOUT MUNICIPAL DISSOLUTION

INTRODUCTION

“Municipal dissolution” means the termination of a city or borough government. There are a number of municipal dissolution scenarios, including the following:

Within the Unorganized Borough:

- A city within the unorganized borough may be dissolved, leaving no successor municipal government in place;
- A city within the unorganized borough may be dissolved because of a merger or consolidation involving another city government, leaving an expanded city government in place.

Within an Organized Borough:

- A city within an organized borough may be dissolved as a consequence of a merger or consolidation involving another city government, leaving an expanded city government in place;
- A city in an organized borough may be dissolved as a result of the transfer of all powers of the city to the borough on an areawide basis, direct dissolution, merger, consolidation, annexation, or unification, leaving some municipal government structure (another city and the borough, or just the borough) in place;
- An organized borough may be dissolved leaving no successor regional municipal government in place;
- An organized borough may be dissolved because of a merger, consolidation, annexation, or unification, leaving some municipal government structure in place.

Scenarios involving dissolution as a result of merger or consolidation are addressed separately in additional information packets available on the LBC website. Dissolution involving unification into a home rule borough is not a process dictated by the LBC. Information can be found in AS 29.06.190- AS 29.06.420. The scenario involving dissolution of an organized borough that leaves no successor regional municipal government in place is virtually unimaginable. There has never been a dissolution of a borough under such circumstances. Consequently, this discussion focuses on dissolution of city governments through a means other than merger, consolidation, annexation, or unification.

Dissolution of a city through means other than merger, consolidation, or unification is complex and requires a substantial commitment of time and other resources on the part of the petitioner. Proponents of dissolution should initiate a proposal to dissolve a city only after they have carefully and objectively evaluated the consequences and likelihood of success, as well as what will happen afterward regarding assets, liabilities, and services. The dissolution process is a set chain of events, which must be followed in order to ensure a successful dissolution process.

This module provides an overview of basic information about dissolution; however, dissolution cannot be covered completely in this brief overview. This overview does provide information, answers to frequently asked questions, and links to applicable law; staff is also available to provide assistance on the dissolution process.

FREQUENTLY ASKED QUESTIONS

WHO CAN PROVIDE INFORMATION REGARDING DISSOLUTION?

Local Boundary Commission staff are located within the Division of Community and Regional Affairs of the Department of Commerce, Community, and Economic Development. Staff are available to provide technical assistance, petition forms, and sample dissolution materials to anyone interested in petitioning, and are available to provide materials and information to those interested in responding to a petition. Staff also provide general information to any other interested individuals or groups.

IF AN INDIVIDUAL OR GROUP OPPOSES DISSOLUTION, WILL STAFF PROVIDE INFORMATION TO THEM?

Yes. LBC staff will provide information about how to submit comments or a responsive brief. Submitting a responsive brief allows any interested party to be identified as a ‘respondent’ in the dissolution proceeding. Being identified as a respondent provides certain procedural rights at the commission's public hearing. These rights include being able to present witnesses and to give opening and closing arguments. Staff can also explain the standards and procedures.

WHO CAN INITIATE A DISSOLUTION PETITION?

A petition for dissolution may be initiated by:

- a city;
- a borough;
- a regional educational attendance area (REAA);
- at least 10 percent of the resident registered voters of a city, borough, or regional educational attendance area, if the petition seeks dissolution by legislative review;
- at least 25 percent of the number of votes cast in the last regular election in that municipality, if the petition seeks dissolution by local action;
- the state legislature;
- the Commissioner of the Department of Commerce, Community, and Economic Development (DCCED); or
- a person designated by the Local Boundary Commission.

If a petition for dissolution includes another boundary change and is initiated by voters, additional signature requirements may be necessary to meet.

ARE THERE CRITERIA THAT GUIDE THE DEVELOPMENT OF A PETITION FOR DISSOLUTION OF MUNICIPALITIES?

Yes, the criteria are found in [AS 29.06.470](#), [AS 29.06.500](#), [3 AAC 110.280-300](#), [3 AAC 110.310-3 AAC 110.330](#), and [3 AAC 110.900-3 AAC 110.990](#). These criteria (also referred to as the standards) should be carefully reviewed when deciding whether to dissolve a government. If the prospective petitioner decides to propose dissolution, the criteria should also be used to guide the development of the petition. The LBC will use these same criteria to judge the merits of the petition.

WHAT ARE THE PROCEDURES FOR DISSOLUTION?

The procedures for dissolution petitions are found in [3 AAC 110.400- 3 AAC 110.700](#). See the module, [Procedures for Petitions](#), for more specific information. Generally, most petitions come from either municipalities or citizens. The petitioner drafts the petition, proposes the boundaries, and, if the petition is initiated by citizens, gathers signatures.

If the petition is initiated by a municipality, then the proposed boundary change would first need to be discussed at a publicly noticed city council or assembly meeting. People can attend such a meeting, or otherwise make their views known to the potential petitioner. It is possible that such input could result in a petition not being filed, or filed using a different method.

When a petition is submitted, the LBC staff first performs a technical review which verifies that the petition includes everything necessary for commission review and required by statutes and regulations. This review is not an analysis of the merits of the petition. If the petition does not include all of the necessary information, staff send it back to the petitioner to complete.

If a petition is accepted for filing, there is a publicly noticed opportunity for the public to submit written comment. A person or entity can also become a “respondent.” A respondent has the opportunity to file a brief in response to the petition, and to present witnesses at the hearing. This gives a respondent the opportunity for greater input before the commission.

Next, the staff analyze the petition to see whether it meets the standards. In doing so, it considers the petition, briefs, and comments submitted. The staff then issue a public report with its findings. People can comment on that report, and say why they feel the report is correct or incorrect in its findings. Staff consider those comments, and then issue a second report with findings. The findings could change from the first report based on the comments submitted.

After public notice, the commission will hold at least one public hearing, where parties can present witnesses, and the public will have an opportunity to speak. After the hearing, the commission will carefully consider all of the testimony, materials, and comments submitted in determining whether the petition meets the standards.

The LBC may amend the petition and may impose conditions for the dissolution. If the LBC determines that the dissolution, as amended or conditioned if appropriate, meets the dissolution statutes in [AS 29.06.450 – AS 29.06.530](#), the dissolution standards in [3 AAC 110.280 – 3 AAC 110.300](#), or [3 AAC 110.310-3 AAC 110.330](#), as well as [3 AAC 110.900 – 3 AAC 110.990](#), it may approve the petition. Otherwise, it must reject the petition.

Once the LBC acts on a petition, it must prepare and adopt a written decision explaining the basis for its decision. Once adopted, any individual may ask the LBC to reconsider its decision pursuant to [3 AAC 110.580](#). If the LBC approves the proposal, it will be subject to either voter approval or legislative review.

If approved by the voters or the legislature takes no action, the dissolution is implemented. Succession to the dissolved municipality's rights, powers, duties, assets, and liabilities occurs in the fashion noted in [AS 29.06.520](#). See below for more details about succession.

The petition process generally takes about a year before the LBC holds the hearing and issues a decision, primarily because of the extensive opportunity for public comment, and because of the two written reports by staff analyzing the petition.

CAN A PETITION BE AMENDED AFTER IT IS FILED?

The petition may be amended by the petitioner. The LBC can also amend or impose conditions on a proposal following a public hearing. Ideally, however, with carefully planning and proper consultation prior to the filing of a petition, amendments can be avoided. Amending a petition may, under certain circumstances, cause delays in the consideration of the petition.

HOW LONG DOES IT TAKE TO DISSOLVE?

It typically takes several months (in some cases a year or more depending on the local effort) to prepare a proper petition. Prospective petitioners are encouraged to work closely with the LBC staff in developing a petition. Once a petition is completed, the petition is filed with the LBC. The process for review of the proposal by the LBC depends, in part, upon other actions pending before the commission. The procedural steps required by law are extensive. In general, one should assume that it will take one year or longer from the filing of a petition for final action.

WHAT HAPPENS WHEN A MUNICIPAL GOVERNMENT DISSOLVES?

AS 29.06.520 provides as follows:

A municipality succeeding to a dissolved municipality succeeds to all rights, powers, duties, assets, and liabilities of the dissolved municipality. Otherwise, the state succeeds to those rights, powers, duties, assets, and liabilities. If the state succeeds to a dissolved municipality, the state may enter into a contract for the performance of duties or powers in the area of the dissolved municipality. However, a contract with an organization for the performance of duties or powers entered into under this section does not constitute recognition by the state of governmental powers of that organization.

The issue of what organization will succeed to the assets, rights, powers, and obligations of a city proposed for dissolution is a critical aspect of any dissolution proposal. Details regarding such matters must be included in the transition plan required by [3 AAC 110.900](#).

Another municipal government (if its boundaries encompass the dissolved city) *may*, but is not obligated to, succeed to all rights, powers, duties, assets, and liabilities of the dissolved city. Otherwise, the State of Alaska becomes the successor to those rights, powers, duties, assets, and liabilities.

It has been the policy of the Local Boundary Commission that the State of Alaska should avoid the assumption of responsibilities of former city governments. Consequently, it has been the practice of the commission to permit dissolution of a city only if some stable local entity is prepared to serve as successor. In such case, the commission would stipulate that the state would enter into a contract for the performance of duties or powers in the area of the dissolved municipality. As the statute states, succession of assets and liabilities to an organization does not constitute recognition of that entity as a political subdivision of the state.

CAN A CITY BE DISSOLVED IF IT HAS DEBTS?

Only if all creditors of the city have indicated in writing that they are satisfied with a plan for payment of the debts.¹¹

WHAT IF A CITY IS INACTIVE?

AS 29.06.450 states:

The department shall investigate a municipality that it considers to be inactive and shall report to the Local Boundary Commission on the status of the municipality. The commission may submit its recommendation to the legislature that the municipality be

¹¹ AS 29.06.470

dissolved in the manner provided for submission of boundary changes in art. X, sec. 12 of the state constitution.

'Inactive' status is not a legal status, but a term simply used to describe communities who fail to meet the ongoing requirements of municipalities found in Title 29. There are a number of requirements in law for cities including holding annual elections, convening regular city council meetings, providing a certified financial statement or audit, and other requirements.

An inactive municipality is one that does not meet those requirements—such as failing to meet regularly, hold regular elections, etc. Instead of pursuing dissolution, a city could simply become inactive. However, if a city or borough does not meet certain obligations, many sources of funding are no longer available. For example, payments from the Community Assistance Program (CAP) (formerly Community Revenue Sharing) are dependent on receiving a certified financial statement or audit among other requirements.

CAN A CITY OR BOROUGH FILE FOR BANKRUPTCY?

The United States Bankruptcy Code was amended in 1994 to require express statutory authorization by state law in order for a municipality to file for bankruptcy. The Alaska statutes contain no such statutory authority. Therefore, a municipality or school district in Alaska would not be permitted to file for Chapter 9 bankruptcy unless the Alaska legislature first passed a law specifically authorizing them to do so.

WHAT ARE THE TWO PETITION METHODS?

State law establishes procedures for two different types of dissolution including by legislative review and by local action.

LOCAL ACTION

Dissolution by Vote. Upon approval by the Local Boundary Commission, a city or borough may dissolve. Dissolution is then subject to ratification by the voters living in the municipality approved for dissolution. To pass, the proposition must be approved by a majority of those voting on the question. The terms 'local action' and 'local option' have the same meaning.

LEGISLATIVE REVIEW

Dissolution by Legislative Review. A municipality may be dissolved without approval of the voters under the legislative review process. This method is authorized by the state constitution. Such petitions first require approval by the LBC. After approval, the LBC presents its recommendation to the legislature during the first 10 days of a regular session of the legislature. The legislature then has the opportunity to act on the LBC's recommendation. If the legislature adopts a concurrent resolution to deny the recommendation within 45 days of the

date that it was submitted, then the recommendation is denied. If the legislature takes no action, it has tacitly approved the proposal, and the dissolution takes effect.

WHAT HAPPENS AFTER DISSOLUTION?

See [Planning for Dissolution](#) for more information on post-dissolution options.

WHAT ARE THE STANDARDS THE LBC USES TO REACH A DECISION?

A municipal government may be dissolved if it meets the standards established in law.¹² Among the standards is the requirement to demonstrate that the city is free of debt or that its creditors have agreed to a repayment plan. Also essential is a well-conceived transition plan (where another municipal government or some other local entity will take responsibility for assets, obligations, and functions of the former city). It must also be demonstrated that the proposed dissolution will serve the broad public interest. See [Planning for Dissolution](#) for more information.

ADDITIONAL INFORMATION AVAILABLE

LBC staff is available to answer questions about the standards for dissolution and about municipal dissolution generally. The next modules, [Planning for Dissolution](#), and [Procedures for Petitions](#), provide additional information about the process and procedures for dissolution throughout the petition process.

PLANNING FOR DISSOLUTION

Petitions to dissolve municipalities are submitted infrequently. This discussion focuses on cities because so few borough dissolution petitions have been submitted, and no dissolution petition for a borough without a concurrent boundary change has ever been approved. Dissolution petitions are typically part of other boundary changes such as consolidation, merger, or unification. A dissolution could also be proposed as part of an incorporation petition for a new city or borough. Other boundary changes are possible and should be discussed with LBC staff as part of the planning process. Once decisions are reached, staff can provide the appropriate forms for specific boundary changes as well as more information and guidance.

Dissolution of a municipality requires that there be a plan for succession of assets, liabilities, powers, and duties in place. The LBC generally will not approve a petition to dissolve a municipality with no successor in place. Another municipality may succeed to the powers, duties, assets, and liabilities of a dissolving municipality, but is not required to. It has been the policy of the Local Boundary Commission that the State of Alaska should avoid the assumption of responsibilities of former city governments. A list of all dissolved cities in Alaska is provided in the previous module.

Any dissolution proposal requires approval by the Local Boundary Commission. Many specific questions regarding issues about post-dissolution options are those that would be addressed in a transition plan included as a part of a complete petition. For example, state law requires a petitioner for city dissolution to provide a detailed plan for the termination of the city government.¹³ In addition, the commission has authority to impose conditions on any city dissolution.¹⁴

EFFECTS OF DISSOLUTION

City governments in Alaska are a diverse group. Some provide an extensive range of fundamental services while others provide very limited services. With the exception of home rule and first class cities located outside of organized boroughs, state law does not impose any specific duties on city governments to provide particular services.¹⁵ Boroughs, alternatively, are required to provide education, for example.

The answer to many dissolution-related questions will depend largely on the particular powers being exercised by the municipal government proposed to be dissolved. For example, management and maintenance of the electrical utility would be an issue only if the city

¹³ 3 AAC 110.900.

¹⁴ AS 29.06.500.

¹⁵ AS 29.35.260

government operated the utility in question. Issues regarding successor responsibilities of utility operations operated by a city (electric, water, wastewater, etc.) would fall within the purview of the Regulatory Commission of Alaska. In general, if a city being dissolved provides utility services under AS 42.05, it would have to apply for a utility certificate transfer under AS 42.05.281 or discontinuance, suspension, or abandonment approval under AS 42.05.261.

When the Local Boundary Commission last dealt with the dissolution of city governments in the mid-1990s, the commission consistently granted its approval of those proposals with the stipulation that a local entity assume full responsibility for all assets and liabilities of the dissolving city. That condition was imposed as a matter of public policy to ensure that the State of Alaska did not take on additional responsibilities for provision of local services following dissolution of municipal governments. A copy of an agreement similar to the ones used in those dissolutions actions is available on request from staff.

Potential petitioners should:

- *Carefully define objectives*: articulate what changes to the local government status quo are desired.
- *Examine local government options*: realistically determine which potential local government options would best achieve the defined objectives, if any.
- *Thoroughly and credibly examine the feasibility of potential options*: address the economic and political feasibility, as well as whether any hypothetical options could meet the standards.
- *Develop and implement an action plan*: determine what course of action, if any, to pursue. If a boundary proposal is forthcoming, determine how to marshal the resources needed to draft the petition and support the effort to make the change.

Defining the objectives of a prospective dissolution proposal is a fundamental step in planning for dissolution. A petitioner is required by law ([3 AAC 110.420](#)) to state its reasons formally for dissolution in its petition. In planning for dissolution, it may also be helpful to anticipate arguments against dissolving.

WHAT ARE THE STANDARDS?

This section summarizes the standards that must be met for both city and borough dissolution, which are found in statute and regulations, and lists the referenced statutes and regulations. The standards found in statute and regulation are sometimes repetitive, but each is summarized here for reference.

METHODS OF DISSOLUTION ([AS 29.06.450](#))

This statute identifies the methods available to dissolve a municipality. Municipality means both cities and boroughs.

- *Legislative review.* When a legislative review petition is approved by the LBC, the legislature has an opportunity to disapprove a petition. A legislative review petition initiated by voters requires 10 percent of voter signatures of the city or borough proposed for dissolution in order to be submitted.
- *Local action (also referred to as local option).* With a local action petition, residents have an opportunity to vote on the question of dissolution once the petition is approved by the LBC. A local action petition initiated by voters must be signed by a number of voters equal to at least 25 percent of the votes cast in the last regular election held in that municipality.

In addition, this statute says if the department considers a municipality to be inactive, then the department must investigate and report on the status of the municipality to the LBC. The LBC may then submit its recommendation to the legislature that the municipality be dissolved in the manner provided (legislative review) in Article 10, Section 12.

This statute also says a borough is dissolved when its entire territory is included in a home rule or first class city or cities. In addition, a city is dissolved when all its powers become areawide borough powers.

This statute allows for the methods identified in commission regulation as well. This means that a petition can be initiated by a municipality, or an REAA, as well as the commissioner of DCCED, the legislature, or a person designated by the commission. A petition from those entities could proceed either by local action or legislative review, subject to the commission's decision, and would not require any signatures.

PETITION ([AS 29.06.460](#))

Voters may file a dissolution petition in the manner provided for by the department (items required are spelled out in [3 AAC 110.420](#)). For a local action petition, it must be signed by a number of voters equal to at least 25 percent of the number of votes cast in the last regular election in that municipality.

STANDARDS (FOR VOTER INITIATED PETITIONS) ([AS 29.06.470](#))

Voters of a municipality may petition for dissolution when the municipality is free of debt, or if in debt, when each of its creditors is satisfied with a method of repayment, and one of the following is met:

- The municipality no longer meets the minimum standards prescribed for incorporation by AS 29.05;
- The municipality ceases to use each of its mandatory powers; or
- The dissolution petition is signed by a number of voters of the municipality proposed to be dissolved that is greater than 50 percent of the number of votes cast in the last regular election in that municipality.

This statute also states that voters of a city in a borough may petition for dissolution of the city if the borough consents to assume the city's rights, powers, duties, assets, and liabilities. This consent must be ratified by a majority of borough voters voting on the question.

COMMISSION STANDARDS ([3 AAC 110.280](#), [3 AAC 110.310](#))

After filing a petition under AS 29.06.110(a)(1), a city may dissolve if the commission determines that these three things apply:

- The dissolution is in the best interests of the state;
- The city or borough is free of debt or has satisfied each creditor with a method of repayment
- And one of these things:
 - The city or borough no longer meets the standards for incorporation;
 - The city or borough has ceased to exercise any of its mandatory powers; or
 - The city is included within an organized borough that assumes, on an areawide, nonareawide, or service-area basis, all the rights, powers, duties, assets and liabilities of the city; or for a borough, the borough is a unified municipality and is subject to a petition for deunification under 3 AAC 110.331-333.

The commission will require an audit identifying all assets and liabilities of the city or borough in its determination whether a municipality is free of debt or has satisfied each creditor with a method of repayment. These regulations also provide details on the requirements of that audit.

LOCAL ACTION ([3 AAC 110.290](#) AND [3 AAC 110.320](#))

A city or borough may dissolve using the local action method identified in AS 29.06 if the voters of the municipality file a petition for city or borough dissolution under [AS 29.06.460](#), and the commission determines the city or borough qualifies for dissolution under [AS 29.06.470\(a\)](#) or [\(b\)](#). The commission may accept or deny a petition in accordance with AS 29.06.

These regulations also note that the commission must determine whether the city or borough is free of debt or has satisfied each creditor with a method of repayment. The commission will require an audit and the details of those requirements are spelled out in these regulations.

LEGISLATIVE REVIEW ([3 AAC 110.295](#) AND [3 AAC 110.325](#))

The commission may determine whether its decision approving a petition for dissolution for a borough or city may be submitted for legislative review according to Article X, Section 12.

BEST INTERESTS OF THE STATE ([3 AAC 110.300](#) AND [3 AAC 110.330](#))

These regulations provide relevant factors the commission may consider in its determination of whether the dissolution of a city or borough is in the best interest of the state. These factors are:

- The extent to which the city or borough is providing services, receiving revenue, and incurring debt;
- Whether a government or organization other than the state is willing and able to provide all services and facilities necessary to meet the needs of the community;
- Whether dissolution of the city or borough is likely to endanger the health, safety, or general welfare of residents in or near the city proposed for dissolution;
- The effect that the proposed dissolution will have on the harmony of relations among residents of the city or borough proposed for dissolution, and between the residents of the city or borough and others residing near the city or borough;
- The social and economic impacts of the proposed dissolution on other municipalities or communities in the state;
- The effect of the proposed dissolution on the long-term stability of the finances of other municipalities and the state; and
- Circumstances identified by the commission reflecting the legal standards and principles that guide commission action in furthering the development of maximum local self-government with a minimum number of local government units.

This regulation ([3 AAC 110.330\(b\)](#)) also states that unless the petition demonstrates sufficiently otherwise, the commission will presume that a petition for dissolution of a city within an organized borough promotes the constitutional principle of a minimum number of local government units.¹⁶

¹⁶ Article X, section 12, Constitution of the State of Alaska

PREPARING TO DRAFT A PETITION: UNDERSTAND WHAT IS REQUIRED

Potential petitioners should:

- Understand the two methods that may be used to dissolve municipalities.
- Become familiar with the legal standards that will be used to judge the dissolution proposal. Standards for dissolution are described above, and listed in full in the appendices. Additional boundary change standards must be addressed if the petition is also seeking an additional, concurrent boundary change.
- Learn what information must be included in a petition. A sample petition is included in the appendix; all petition forms are available upon request from LBC staff. Petition information is listed in [3 AAC 110.420](#).
- Understand the signature requirements, if applicable, for dissolution, or if an additional boundary change is sought, those requirements as well. Signature requirements can be found in [3 AAC 110.410](#).
- Identify the resources needed to develop a petition. Potential petitioners should also consult with LBC staff to obtain and review any available materials to consider for other dissolutions, if any. These may include petitions, responsive and reply briefs, LBC staff reports, LBC decisional statements, and any relevant case law.

CONSIDER HOW DISSOLUTION WOULD BE IMPLEMENTED

After gathering information and identifying resources needed, potential petitioners should make preliminary decisions after reviewing the standards. The regulations require that petitions have a transition section which must include:

- A plan for the transition or termination of municipal services in the shortest practicable time after dissolution;
- A practical plan for the assumption of all relevant and appropriate powers, duties, rights, and functions presently exercised within the city or borough within two years; and
- A practical plan for the transfer and integration of all relevant and appropriate assets and liabilities of entities (including existing borough, city, service areas, or other entities) located within the city or borough without loss of value in assets, loss of credit reputation, or a reduced bond rating for liabilities within two years.

This plan must be thorough and practical, and must be prepared in consultation with the officials of existing cities, boroughs, and service areas wholly or partially included within the boundaries of the municipality proposed for dissolution. Many petitions fail to devote enough attention to this vital step. The transition plan will necessarily be more complex if a proposal seeks dissolution and another concurrent boundary change. Additional information about the transition plan can be found in regulation [3 AAC 110.900](#).

FINANCIAL CONSEQUENCES OF CITY DISSOLUTION

This discussion will focus on the impact of dissolution on cities because borough dissolution is so rare. Depending upon the particular circumstances there can be significant financial effects upon a community should city dissolution occur. These may include:

- *Reduction in Community Assistance Payments.* Unincorporated communities are eligible for Community Assistance (CAP) funding only if they are outside of organized boroughs. Even then, CAP for eligible unincorporated communities in the unorganized borough is greatly reduced. For unincorporated communities in organized boroughs, CAP payments are provided to the borough in which a community is located, and the borough may allocate that money as it sees fit.
- *Loss of Grant Eligibility for Some Grant Programs.* After dissolution of a city, the community would be ineligible for certain grant programs. For example, municipal governments in Alaska are eligible to apply for competitive Community Development Block Grants (CDBG) up to \$850,000 for community development, planning, and special economic development projects.
- *Loss of Confidence by Funding Agencies.* Uncertainty regarding whether a city would remain incorporated could result in the delay or loss of funding for public projects. In general, a community with an active city government is more likely to be awarded grant funds than a community with similar needs but governed by a weak or inactive city. If it appears that a city is likely to be dissolved, funding agencies may be inclined to withhold or delay grants or loans to that city.
- *Complication of Land Status.* In many cases, cities own land or have 14(c) claims to land occupied by or involving existing or proposed public facilities. State and federal grants for capital improvements require demonstrated site control. Dissolution of a city could result in delays in settling land ownership issues. Projects without site control may be delayed or funding opportunities may be lost.

PROS AND CONS OF DISSOLUTION

A community with a city government is referred to as 'incorporated.' A community without a city government is 'unincorporated.' When a city is dissolved, the incorporated city once again becomes an unincorporated community. In the unorganized borough, it is often proposed that certain duties and functions of dissolved cities be assumed by local IRA (Indian Reorganization Act) council or traditional tribal councils.

Dissolution of a city may result in many changes in the community involved. This discussion does not examine all of them, but describes some of the positions that are typically expressed when city dissolution is first discussed at the community level. This discussion is restricted to the unorganized borough. There are many other things to consider if a city proposed for dissolution is located within an organized borough.

COMMONLY STATED VIEWS IN SUPPORT OF CITY DISSOLUTION

Stronger Tribal Government. Some believe that having both a city and an IRA council or traditional council weakens tribal authority in the community. Others believe that having both forms of government can help the community by working together for the good of all the people living in the community.

A Single Tribal Local Government Is Simpler. Some believe that a single tribal government reduces confusion about service delivery, minimizes the number of meetings, and keeps government to a minimum.

Return to Traditional Ways of Governing. City government is still fairly new in many Alaska communities. Many second class cities were established during the period from 1960-1980. Some people think of the 'old' days as more pleasant than today. They say that changing local government back to an earlier style might help bring back some of the other values that are viewed as diminished or changed.

COMMONLY STATED VIEWS AGAINST CITY DISSOLUTION

Reduction in Community Assistance Program payments (CAP). Unincorporated communities are only eligible if they are outside of organized boroughs. CAP for eligible unincorporated communities is greatly reduced. Money is allocated to boroughs for unincorporated communities within organized boroughs, but the borough may allocate that as it sees fit.

Loss of Grant Eligibility. After dissolution of a city, the community will be ineligible for certain grant programs, such as the Community Development Block Grant (CDBG) Program, which limit eligibility to municipalities.

Loss of Confidence by Funding Agencies. Uncertainty regarding whether a city will remain incorporated could result in the delay or loss of funding for public projects. In general, a community with an active city government is more likely to be awarded grant funds than a community with similar needs, but governed by a weak or inactive city administration. If it appears that a city is likely to be dissolved, funding agencies may be inclined to withhold or delay grants or loans to that city.

Sales Tax. Unlike cities, IRA and traditional councils have no authority to impose and collect sales taxes. Sales tax revenues provide a major source of funds to support local services throughout Alaska.

Complication of Land Status. In many cases, cities own land or have 14(c) claims to land occupied by or involving existing or proposed public facilities. State and federal grants for capital improvements require demonstrated site control. Dissolution of a city could result in delays in settling land ownership issues. Projects without site control may be delayed or funding opportunities may be lost.

Some Residents May Be Excluded from Participating in Local Affairs. IRA and traditional councils can be racially exclusive; consequently, non-Native residents of a community may not hold elective office in such organizations or vote in elections of such organizations.

Loss of Political-Subdivision Exemption from Utility Regulation. Under AS 42.05.711(b), public utilities owned and operated by a political subdivision of the state, such as a city, are, with limited exceptions, exempt from economic regulation by the Regulatory Commission of Alaska (RCA). If a city is dissolved, it loses its status as a political subdivision; and its utilities could become subject to regulation by the RCA.

TECHNICAL ASSISTANCE, FORMS, AND SAMPLE MATERIALS AVAILABLE

Local Boundary Commission staff are available to provide technical assistance, petition forms, and sample dissolution materials to prospective petitioners, prospective respondents (those favoring or opposing dissolution), and other interested individuals and groups throughout the planning phase of the petition process. Staff will draft a petition form specific to the boundary change(s) a petitioner is seeking and can offer guidance regarding signature requirements for concurrent boundary changes.

Ultimately, the burden of deciding whether to pursue a particular boundary change and drafting a petition falls on petitioners. The next module will discuss drafting a petition for review, the formal filing of a petition as well as the process that takes place after a petition is filed with the Local Boundary Commission staff.

PROCEDURES FOR PETITIONS

THE PROCESS

1. Alaska Statute Title 29 and Alaska Administrative Code Title 3 Articles 9, 10, and 14 ([3 AAC 110.280-.300](#); [.310-.330](#); [.900-990](#)) contain the standards for dissolution that the Local Boundary Commission (LBC) follows when reviewing a petition for dissolution. Petition procedures are found in [3 AAC 110.400-700](#). The following is a brief summary of the procedures for dissolution.
 - a. A petition is filed with the LBC.
 - b. The public reviews the petition.
 - c. LBC staff review petition, and draft report(s) that include a nonbinding recommendation to the commission.
 - d. The LBC holds public hearing(s) and makes a decision.
 - e. If the LBC approves the dissolution, the boundary change must be approved by voters or through legislative review in order to take effect.
2. Petition forms are drafted and provided by LBC staff. A sample form for dissolution by local action is provided in the appendices of this packet. Other forms are available on request.
3. Before a voter-initiated petition for dissolution is circulated for signatures, the petitioner should prepare and submit to LBC staff a complete draft of the dissolution petition, using forms provided by DCCED. LBC staff will review the draft petition and advise the petitioner of any elements in the draft that should be corrected, supplemented, or clarified. Such preliminary review by DCCED should minimize the possibility of rejection of the petition for technical reasons after local voters sign the document. If a petition is rejected by DCCED after petition signatures of local voters are secured, the corrected petition must then be circulated again for signatures of qualified voters. This could be time-consuming and potentially confusing to the public.
4. If the petition seeks dissolution using the legislative review method, the petition should be filed recognizing the time constraints necessitated by the legislative review method. Successful legislative review petitions decisions can only be submitted during the first 10 days of a regular legislative session—typically around late January to early February. Those petition decisions completed after that point during the year must wait until the next regular legislative session.
5. Information required in a petition is specified in [3 AAC 110.420](#). Petitioners may submit additional information to supplement their petition, and are not limited to the space provided in sample forms. Staff may offer technical assistance including review, analysis and an assessment of the feasibility of a particular proposal. However, staff may not act

in an advocacy capacity pursuant to [3 AAC 110.410](#) and [-3 AAC 110.435](#).

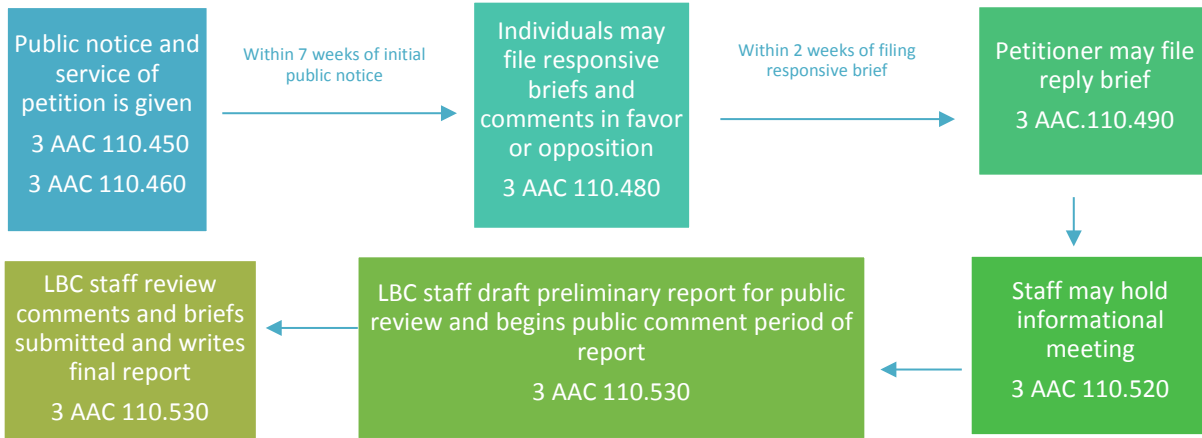

6. Once a petition, including signatures and any supporting materials, is complete, it is submitted to LBC staff. Staff have 45 days to complete a technical review required by [3 AAC 110.440](#). This review ensures all required elements of the petition are included, complete, and sufficient for commission review. It also ensures there are enough valid signatures to proceed. This technical review is not a review of the merits of the petition. A more substantive review with an investigation and analysis of the merits of the petition occurs later in the process when the department drafts its preliminary report for the commission which includes a nonbinding recommendation to the LBC.
7. If a petition is deemed incomplete, it will be returned to the petitioner for completion with a list of the missing elements. The chair of the LBC will determine if the changes necessary are significant enough to warrant the gathering of new signatures, or reauthorization by the city council or borough assembly. If a petition passes technical review, the petition will be accepted for filing. It is important to note that acceptance of the petition for filing is not a formal endorsement of the petition as submitted. Acceptance allows the merits of the dissolution proposal to be examined formally by interested parties, including the department, and the Local Boundary Commission. As staff develop its report to the LBC regarding the petition, specific policy issues or other concerns may be identified.
8. When a petition is accepted for filing, DCCED will notify petitioners and provide a packet of information including the procedure going forward. The next pages will detail the next steps in the process. The following page includes a flow chart with these steps.

Dissolution Petition Process

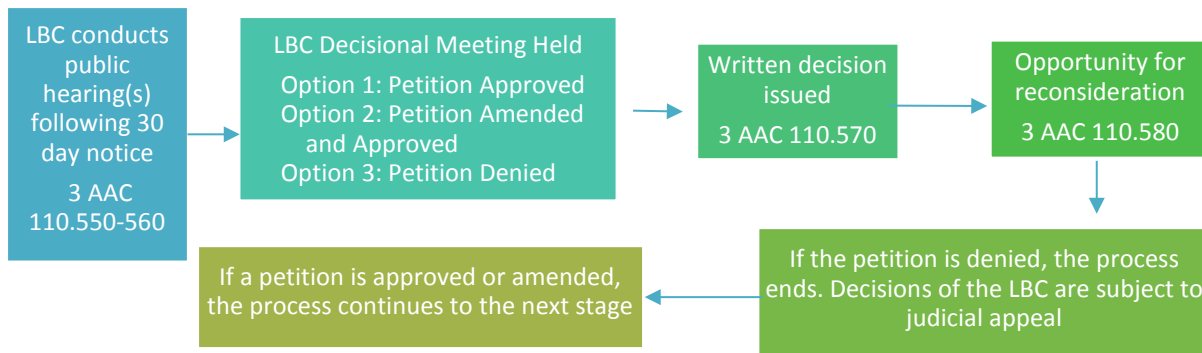

Stage 1: Filing the Petition

Stage 2: Public Review

Stage 3: Hearing and Decision by LBC

Stage 4: Implementation

Stage 5: Succession

PETITION PROCEDURES ONCE ACCEPTED

PUBLIC NOTICE AND PUBLIC REVIEW

Once a petition is accepted for filing, extensive public notice of the filing of the petition is given. Interested parties and the public are given at least seven weeks to submit responsive briefs and comments in support of or in opposition to a petition. The petitioner is then given at least two weeks to file one brief in reply to all the responsive briefs.

PETITION ANALYSIS

Following the initial public comment period, LBC staff analyze the petition, responsive briefs, public comments, reply brief, and other materials as part of its investigation. LBC staff may conduct an informational meeting on petition procedures under [3 AAC 110.520](#).

At the conclusion of its investigation, the department issues a preliminary report for public review and comment. The report includes a formal recommendation to the Local Boundary Commission for action on the petition.

The preliminary report is circulated for public review and comment for a minimum of four weeks. After reviewing the comments on its report, the department issues its final report. The final report includes a brief discussion of comments made on the preliminary report and also notes any changes to the department's recommendations to the commission. The final report must be issued at least three weeks prior to the hearing on the petition.

COMMISSION REVIEW OF MATERIALS AND PUBLIC HEARING

Members of the commission review the petition, responsive briefs, written comments, reply brief, and DCRA reports. If circumstances permit, commission members may also tour the area in question prior to the hearing in order to gain a better understanding of the proposal.

Following extensive public notice, the commission conducts at least one public hearing on the proposal. At this hearing, petitioners, respondents, and members of the public are given the opportunity to weigh in, and commissioners may ask questions. Commission hearing procedures are found in [3 AAC 110.550](#).

DECISION AND OPPORTUNITY FOR RECONSIDERATION

The commission must reach a decision on the petition within 90 days of the public hearing. However, typically, the commission holds a decisional meeting immediately after the hearing.

The commission may take any one of the following actions:

- Approve the petition as presented;

- Amend the petition (e.g., alter the boundaries);
- Impose conditions on approval of the petition (e.g., require an additional public meeting); or
- Deny the petition.

Within 30 days of announcing its decision, the commission must adopt a written statement setting out the basis for its decision. Copies of the statement are provided to the petitioner, respondents, and others who request it. At that point, the decision becomes final, subject to reconsideration.

Any person may ask the commission to reconsider its decision. Such requests must be filed within 18 days of the date that the decision becomes final. If the commission does not approve a request for reconsideration within 30 days of the date that the decision becomes final, the request for reconsideration is automatically denied.

IMPLEMENTATION

If the commission approves a petition, the proposal is subject to approval by voters, or is submitted to the legislature. For local action petitions, the boundary change takes effect when the boundary change election is certified. For a legislative review petition, the boundary change takes effect when 45 days have passed from submission during a regular session and no action is taken. Decisions are no longer subject to Department of Justice review under the Voting Rights Act of 1965.

Succession to the dissolved municipality’s rights, powers, duties, assets, and liabilities occurs in the fashion noted in [AS 29.06.520](#).

A general timeline is provided below.

PETITION PROCESS TIMELINE

Date	Action
Within 45 days of receiving petition	Local Boundary Commission (LBC) staff conduct a technical review of the petition. A technical review determines whether a petition contains all required information. A petition will either be accepted for filing or it will be returned to the petitioner for correction or completion.
Within 45 days of receiving notice of acceptance for filing	After the petition is accepted, staff will provide a public notice of the filing of the petition and instructions for publication. This notice informs the public and alerts them to an opportunity to comment.

Date	Action
Beginning when notice of filing is first published or posted, for at least 49 days	Public comments and responsive briefs are received for a specific time period published in notice. Staff may conduct an informational session during this time.
At least 14 days	Petitioner may respond to the responsive briefs and comments.
About 7 weeks	LBC staff perform a thorough investigation and analysis of the petition and draft a preliminary report that includes a recommendation to the LBC regarding the petition.
A minimum of 28 days from the mailing of preliminary report	Opportunity for public review and comment on the preliminary report.
Approximately 3 weeks	LBC staff consider comments on preliminary report and makes appropriate changes to its report and recommendation. The final report is issued for public review.
At least 21 days from the mailing of the final report	LBC conducts public hearing(s) where petitioners, respondents and members of the public are given an opportunity to comment.
Within 90 days of hearing	LBC conducts public meeting(s) and reaches a decision [often made immediately after hearing].
Within 30 days of decisional meeting	LBC issues written decision.
Within 30 days of when the written decision is issued	Any public member may request reconsideration within 18 days after the written decision is issued. The LBC may grant a reconsideration request, or order reconsideration on its own motion within 30 days after the written decision is issued.
If petition is denied, LBC process ends (parties may appeal LBC decision to superior court)	If approved by the LBC, the petition is subject to review by the legislature or approval by the voters in the area approved for change.

STAFF ASSISTANCE

Staff are available to help petitioners throughout this process. When a petition is formally accepted, petitioners will receive a packet of information with a schedule and materials specifying next steps for that petition.

CONCLUSION

This packet seeks to inform Alaska residents interested in city or borough dissolution, and to provide the necessary resources to start the petition process. Staff are available for guidance, and should be consulted when preparing a petition and before gathering any signatures.

Dissolution requires a substantial effort on the behalf of petitioners. Proper planning can help petitioners anticipate roadblocks and help streamline the process.

Dissolution of a municipality through means other than merger, consolidation, or unification is complex and requires a significant commitment of time and other resources on the part of the petitioner. Submission of a dissolution petition can result in significant expenses for necessary actions such as publication of notices in newspapers. Proponents of dissolution should initiate a proposal to dissolve a city or borough only after they have carefully and objectively evaluated the consequences and likelihood of success.

City or borough dissolution is a step not to be taken lightly. Thought should be given to researching and planning the process and what will happen afterward regarding assets, liabilities, and services. The dissolution process is a set chain of events, which must be followed in order to ensure a successful dissolution process. LBC staff are able to provide guidance regarding the standards and procedures, but decisions whether to seek dissolution must be made at the community level. Please contact staff for additional information.

APPLICABLE STATUTES AND REGULATIONS

CONSTITUTION OF THE STATE OF ALASKA, ARTICLE 10, LOCAL GOVERNMENT

SECTION 1. PURPOSE AND CONSTRUCTION. The purpose of this article is to provide for maximum local self-government with a minimum of local government units, and to prevent duplication of tax-levying jurisdictions. A liberal construction shall be given to the powers of local government units.

SECTION 2. LOCAL GOVERNMENT POWERS. All local government powers shall be vested in boroughs and cities. The State may delegate taxing powers to organized boroughs and cities only.

SECTION 3. BOROUGHES. The entire State shall be divided into boroughs, organized or unorganized. They shall be established in a manner and according to standards provided by law. The standards shall include population, geography, economy, transportation, and other factors. Each borough shall embrace an area and population with common interests to the maximum degree possible. The legislature shall classify boroughs and prescribe their powers and functions. Methods by which boroughs may be organized, incorporated, merged, consolidated, reclassified, or dissolved shall be prescribed by law.

SECTION 5. SERVICE AREAS. Service areas to provide special services within an organized borough may be established, altered, or abolished by the assembly, subject to the provisions of law or charter. A new service area shall not be established if, consistent with the purposes of this article, the new service

can be provided by an existing service area, by incorporation as a city, or by annexation to a city. The assembly may authorize the levying of taxes, charges, or assessments within a service area to finance the special services.

SECTION 7. CITIES. Cities shall be incorporated in a manner prescribed by law, and shall be a part of the borough in which they are located. Cities shall have the powers and functions conferred by law or charter. They may be merged, consolidated, classified, reclassified, or dissolved in the manner provided by law.

SECTION 12. BOUNDARIES. A local boundary commission or board shall be established by law in the executive branch of the state government. The commission or board may consider any proposed local government boundary change. It may present proposed changes to the legislature during the first ten days of any regular session. The change shall become effective forty-five days after presentation or at the end of the session, whichever is earlier, unless disapproved by a resolution concurred in by a majority of the members of each house. The commission or board, subject to law, may establish procedures whereby boundaries may be adjusted by local action.

SECTION 13. AGREEMENTS; TRANSFER OF POWERS. Agreements, including those for cooperative or joint administration of any functions or powers, may be made by any local government with any other local government, with the State, or with the United States, unless otherwise provided by law or charter. A city may transfer to the borough in which it is located any of its powers or functions unless prohibited by law or charter, and may in like manner revoke the transfer.

SECTION 14. LOCAL GOVERNMENT AGENCY. An agency shall be established by law in the executive branch of the state government to advise and assist local governments. It shall review their activities, collect and publish local government information, and perform other duties prescribed by law.

3 AAC 110.570. DECISIONAL MEETING

- (a) Within 90 days after the last commission hearing on a proposed change, the commission will convene a decisional meeting to examine the written briefs, exhibits, comments, and testimony and to reach a decision regarding the proposed change. During the decisional meeting,
 - (1) the commission will not receive new evidence, testimony, or briefing;
 - (2) the chair of the commission or a commission member may ask the department or a person for a point of information or clarification; and
 - (3) the department may raise a point of information or clarification.
- (b) Repealed 1/9/2008.
- (c) If the commission determines that a proposed change must be altered or a condition must be satisfied to meet the standards contained in the Constitution of the State of Alaska, AS 29.04, AS 29.05, AS 29.06, or this chapter, and be in the best interests of the state, the commission may alter or attach a condition to the proposed change and accept the petition as altered or conditioned. A motion to alter, impose conditions upon, or approve a proposed change requires at least three affirmative votes by commission members to constitute approval. If the proposed change is a
 - (1) municipal annexation, detachment, deunification, dissolution, merger, or consolidation, a city reclassification, or a legislative-review borough incorporation under AS 29.05.115, and if the commission determines that the proposed change must be altered or a condition must be satisfied before the proposed change can take effect, the commission will include that condition or alteration in its decision; or
 - (2) municipal incorporation subject to AS 29.05.060 - 29.05.110, and if the commission determines that an amendment to the petition or the placement of a condition on incorporation may be warranted, the department shall provide public notice and an opportunity for public comment on the alteration or condition before the commission amends the petition or imposes a condition upon incorporation; if the department recommended the proposed change or

condition and the public had an opportunity to comment on the proposed change or condition at a commission hearing, an additional notice or comment period is not required.

- (d) If the commission determines that a proposed change fails to meet the standards contained in the Constitution of the State of Alaska, AS 29.04, AS 29.05, AS 29.06, or this chapter, or is not in the best interests of the state, the commission will reject the proposed change. If a motion to grant a proposed change receives fewer than three affirmative votes by commission members, the proposed change is rejected.
- (e) The commission will keep written minutes of a decisional meeting. Each vote taken by the commission will be entered in the minutes. The approved minutes are a public record.
- (f) Within 30 days after the date of its decision, the commission will issue a written decision explaining all major considerations leading to the decision. A copy of the statement will be mailed to the petitioner, respondents, and other interested persons requesting a copy. The department shall execute and file an affidavit of mailing as a part of the public record of the proceedings.
- (g) Unless reconsideration is requested timely under 3 AAC 110.580 or the commission, on its own motion, orders reconsideration under 3 AAC 110.580, a decision by the commission is final on the day that the written statement of decision is mailed, postage prepaid, to the petitioners and the respondents.

3 AAC 110.580. RECONSIDERATION

- (a) Within 18 days after a written statement of decision is mailed under 3 AAC 110.570(f), a person may file an original and five copies of a request for reconsideration of all or part of that decision, describing in detail the facts and analyses that support the request for reconsideration.
- (b) Within 30 days after a written statement of decision is mailed under 3 AAC 110.570(f), the commission may, on its own motion, order reconsideration of all or part of that decision.
- (c) A person filing a request for reconsideration shall provide the department with a copy of the request for reconsideration and supporting materials in an electronic format, unless the department waives this requirement because the person requesting reconsideration lacks a readily accessible means or the capability to provide items in an electronic format. A request for reconsideration must be filed with an affidavit of service of the request for reconsideration on the petitioner and each respondent by regular mail, postage prepaid, or by hand-delivery. A request for reconsideration must also be filed with an affidavit that, to the best of the affiant's knowledge, information, and belief, formed after reasonable inquiry, the request for reconsideration is founded in fact and is not submitted to harass or to cause unnecessary delay or needless expense in the cost of processing the petition.
- (d) If the person filing the request for reconsideration is a group, the request must identify a representative of the group. Each request for reconsideration must provide the physical residence

address and mailing address of the person filing the request for reconsideration and the telephone number, facsimile number, and electronic mail address, if any, for the person or representative of the group.

- (e) The commission will grant a request for reconsideration or, on its own motion, order reconsideration of a decision only if the commission determines that
 - (1) a substantial procedural error occurred in the original proceeding;
 - (2) the original vote was based on fraud or misrepresentation;
 - (3) the commission failed to address a material issue of fact or a controlling principle of law; or
 - (4) new evidence not available at the time of the hearing relating to a matter of significant public policy has become known.
- (f) If the commission does not act on a request for reconsideration within 30 days after the decision was mailed under 3 AAC 110.570(f), the request is automatically denied. If it orders reconsideration or grants a request for reconsideration within 30 days after the decision was mailed under 3 AAC 110.570(f), the commission will allow a petitioner or respondent 10 days after the date reconsideration is ordered or the request for reconsideration is granted to file an original and five copies of a responsive brief describing in detail the facts and analyses that support or oppose the decision being reconsidered. The petitioner or respondent shall provide the department with a copy of the responsive brief in an electronic format, unless the department waives this requirement because the petitioner or respondent lacks a readily accessible means or the capability to provide items in an electronic format.
- (g) Within 90 days after the department receives timely filed responsive briefs, the commission, by means of the decisional meeting procedure set out in 3 AAC 110.570(a) - (f), will issue a decision on reconsideration. A decision on reconsideration by the commission is final on the day that the written statement of decision is mailed, postage prepaid, to the petitioner and the respondents.

ARTICLE 14 GENERAL PROVISIONS

3 AAC 110.900. TRANSITION

- (a) A petition for incorporation, annexation, merger, or consolidation must include a practical plan that demonstrates the capacity of the municipal government to extend essential municipal services into the boundaries proposed for change in the shortest practicable time after the effective date of the proposed change. A petition for municipal detachment or dissolution under AS 29.06, or a city reclassification under AS 29.04, must include a practical plan demonstrating the transition or termination of municipal services in the shortest practicable time after detachment, dissolution, or city reclassification.
- (b) Each petition must include a practical plan for the assumption of all relevant and appropriate powers, duties, rights, and functions presently exercised by an existing borough, city, unorganized borough service area, or other appropriate entity located within the boundaries proposed for change. The plan must be prepared in consultation with the officials of each existing borough, city, and unorganized borough service area and must be designed to effect an orderly, efficient, and economical transfer within the shortest practicable time, not to exceed two years after the effective date of the proposed change.
- (c) Each petition must include a practical plan for the transfer and integration of all relevant and appropriate assets and liabilities of an existing borough, city, unorganized borough service area, and other entity located within the boundaries proposed for change. The plan must be prepared in consultation with the officials of each existing borough, city, and unorganized borough service area wholly or partially included within the boundaries proposed for change and must be designed to effect an orderly, efficient, and economical transfer within the shortest practicable time, not to exceed two years after the date of the proposed change. The plan must specifically address procedures that ensure that the transfer and integration occur without loss of value in assets, loss of credit reputation, or a reduced bond rating for liabilities.
- (d) Before approving a proposed change, the commission may require that all boroughs, cities, unorganized borough service areas, or other entities wholly or partially included within the

boundaries of the proposed change execute an agreement prescribed or approved by the commission for the assumption of powers, duties, rights, and functions, and for the transfer and integration of assets and liabilities.

- (e) The transition plan must state the names and titles of all officials of each existing borough, city, and unorganized borough service area that were consulted by the petitioner. The dates on which that consultation occurred and the subject addressed during that consultation must also be listed.
- (f) If a prospective petitioner has been unable to consult with officials of an existing borough, city, or unorganized borough service area because those officials have chosen not to consult or were unavailable during reasonable times to consult with a prospective petitioner, the prospective petitioner may request that the commission waive the requirement for consultation with those officials. The request for a waiver must document all attempts by the prospective petitioner to consult with officials of each existing borough, city, and unorganized borough service area. If the commission determines that the prospective petitioner acted in good faith and that further efforts to consult with the officials would not be productive in a reasonable period of time, the commission may waive the requirement for consultation.

3 AAC 110.981. DETERMINATION OF MAXIMUM LOCAL SELF-GOVERNMENT

In determining whether a proposed boundary change promotes maximum local self-government under art. X, sec. 1, Constitution of the State of Alaska, the commission will consider

- (1) for borough incorporation, whether the proposal would extend local government on a regional scale to a significant area and population of the unorganized borough;
- (2) for borough annexation, whether the proposal would extend local government to portions of the unorganized borough;
- (3) for merger or consolidation of municipalities, whether the proposal would expand or diminish the level of local government currently provided by the municipalities being merged or consolidated;
- (4) for borough detachment, whether the
 - (A) proposal would
 - (i) diminish the provision of local government to the area and population being detached; or
 - (ii) detrimentally affect the capacity of the remnant borough to serve the local government needs of its residents; and
 - (B) local government needs of the detached area can be adequately met by an existing local government;
- (5) for borough dissolution, whether the proposal substantiates that the provision of local government is no longer necessary or supportable for the area;
- (6) for deunification, whether the proposal substantiates that the provision of local government is not diminished by deunification or that deunification could lead to better local government by incorporation of other local governments better suited to needs of the area and population;
- (7) for city incorporation or annexation in the unorganized borough, whether the proposal would extend local government to territory and population of the unorganized borough where no local government currently exists;

- (8) for city incorporation or annexation in an organized borough, whether the proposal would extend local government to territory or population of the organized borough where local government needs cannot be met by the borough on an areawide or nonareawide basis, by annexation to an existing city, or through an existing borough service area;
- (9) for city detachment in an organized borough, whether the
 - (A) proposal would
 - (i) diminish the provision of local government to the territory and population being detached; or
 - (ii) detrimentally affect the capacity of the remnant city to serve the local government needs of its residents; and
 - (B) local government needs of the territory and population to be detached can be adequately met by the borough;
- (10) for city detachment in the unorganized borough, whether the
 - (A) proposal would
 - (i) diminish the provision of local government to the territory and population being detached; or
 - (ii) detrimentally affect the capacity of the remnant city to provide local government services; and
 - (B) local government needs of the detached territory and population can be adequately met by another existing local government;
- (11) for city dissolution in an organized borough, whether the proposal substantiates that the
 - (A) provision of local government is no longer necessary or supportable for the territory; or
 - (B) local government needs of the territory could be better provided by the borough;
- (12) for city dissolution in the unorganized borough, whether the proposal substantiates that the
 - (A) provision of local government is no longer necessary or supportable for the territory; or
 - (B) local government needs of the territory could be better provided by a governmental organization other than the city;
- (13) for city reclassification, whether the proposal would expand or diminish the provision of local government to the territory being reclassified;
- (14) whether the petition proposes incorporation of a home rule municipality.

3 AAC 110.982. MINIMUM NUMBER OF LOCAL GOVERNMENT UNITS

Among the factors to be considered in determining whether a proposed boundary change promotes a minimum number of local government units in accordance with art. X, sec. 1, Constitution of the State of Alaska, the commission will consider

- (1) for borough incorporation, whether a new borough will be created from the unorganized borough and whether the proposed boundaries maximize an area and population with common interests;
- (2) for borough annexation, whether the jurisdictional boundaries of an existing borough are being enlarged rather than promoting the incorporation of a new borough and whether the proposed boundaries maximize an area and population with common interests;
- (3) for borough merger or consolidation, whether the merged or consolidated borough minimizes the number of local government units and whether the boundaries of the merged or consolidated borough maximize an area and population with common interests;
- (4) for borough detachment, whether the detached area by itself is likely to be incorporated as an organized borough;
- (5) for deunification of a unified municipality, whether
 - (A) incorporation of one or more new cities is likely to occur as a result of the proposed action, and, if so, the reasons why a new incorporation is or will be needed; or
 - (B) the action is proposed as an alternative to detachment of area and incorporation of one or more new boroughs;
- (6) for city incorporation, whether incorporation of a new city is the only means by which residents of the territory can receive essential municipal services;
- (7) for city annexation, whether the jurisdictional boundaries of an existing city are being enlarged rather than promoting the incorporation of a new city or creation of a new borough service area;
- (8) for city merger or consolidation, whether the merged or consolidated city minimizes the number of local government units;
- (9) for city detachment, whether the detached area, by itself, is likely to be incorporated as a new city.
