Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- Security
- Inventory tracking of all marijuana and marijuana product on the premises
- Employee qualification and training
- Waste disposal
- Transportation and delivery of marijuana and marijuana products
- Signage and advertising
- Control plan for persons under the age of 21

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Form MJ-01: Marijuana Establishment Operating Plan

Section 2 – Security

Review the requirements under 3 AAC 306.710 – 3 AAC 306.720 and 3 AAC 306.755, and identify how the proposed premises will meet the listed requirements.

Describe how the proposed premises will comply with each of the following:

Restricted Access Areas (3 AAC 306.710):

Describe how you will prevent unescorted members of the public from entering restricted access areas:

The licensed premises will have many levels of security. The first level is entryways, all entryways to the facility, not in restricted access areas, when locked are required to use an ID card to access the facility. All restricted access areas will have locks and only employees with access will be able to access the area. The restricted access areas, and entry and exits to both the facility and restricted access areas will be under 24/7 video surveillance.

Describe your processes for admitting visitors into and escorting them through restricted access areas:

We do not allow public visitors into any restricted access areas. Only individuals that have their marijuana handlers card will be allowed into our facilities. When others like members of the board, public officials, or members of the press enter our facility we will log their name, the date of entry, and the time of entry. All restricted access areas are required to be escorted by at least one employee during the visit, when the visitor leaves they need to sign out. We give them a visitors pass and retain their driver's license and marijuana handlers card after the visit concludes we will give their licenses back.

Form MJ-01: Marijuana Establishment Operating Plan

Security Alarm Systems and Lock Standards (3 AAC 306.715):

Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

All four corners of the building will have spot lights that are triggered by motion, along with four cameras that will also be triggered by motion. All entryways will also have motion activated lighting with cameras.

An alarm system is required for all license types. Describe the security alarm system for the proposed premises:

The security alarm is motion activated sensors in each grow room, entryway sensors for all exterior doors, and 10 motion activated night vision cameras. The sensors and cameras work off two different systems to protect against equipment failure and hacking. All systems are reported to restricted access employees immediately along with an alarm in office.

RECEIVED
JAN 09 2017
ALCOHOL MARIJUANA CONTROL OFFICE
STATE OF ALASKA

The alarm system must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe how the security alarm system meets this requirement:

The alarm system will be operated around motion sensors and entryway sensors, both of which will be armed prior to the business location closing. Along with the camera system which is also motion activated and it will report to restricted access personnel if the sensors are triggered.

Form MJ-01: Marijuana Establishment Operating Plan

Describe your policies and procedures for preventing diversion of marijuana or marijuana product:

2 Person Deliveries: All deliveries require two employees, each employee will sign a log indicating how much product they are carrying and where that product is being delivered to with a log out and log in time.

All deliveries will take place during daylight hours, no employees will be allowed to make deliveries when it is dark outside for employee safety.

All transfers of marijuana to retail, manufacturing, or testing facility will require a signature from the person that has been authorized to receive shipments from KushTopia.

All staff will be required to wear a Tyvec suit when working in the restricted grow areas. This ensures very limited contamination.

Diversion Prevention training: All employees will be trained on the different signs of diversion, they will be trained on how to report suspected diversion, all employees will be required to complete the diversion training program. All employees will have their marijuana handlers permits as well. See Attachment #2

Describe your policies and procedures for preventing loitering:

We do not allow any public access to our property and any loitering will be reported to the police.

RECEIVED
JAN 09 2017
ALCOHOL & MARIJUANA CONTROL OFFICE

Describe your policies and procedures regarding the use of any additional security device, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm to enhance security of the proposed premises:

We have motion detectors in all restricted access areas, these motion detectors are armed prior to leaving the facility.

Form MJ-01: Marijuana Establishment Operating Plan

(Additional Space as Needed):

Attachment #2
Diversion Continued:

Inventory monitoring, all inventory will be logged and verified by two employees at least twice a week. All plants, products, or other marijuana waste is removed it will be immediately logged into the marijuana tracking system to notify the State of the change. All logs will be checked daily for compliance.

Scale and Security System DVR:
The scale and security system DVR will be located in restricted access areas, where only employees will be allowed to enter.

All grow areas, entryways, and all other restricted access areas are covered by video surveillance. The DVR will be locked in a safe, and the DVR itself will be password protected. This ensures the integrity of our security.

All keys have different access logs, so each employee when entering the facility will create a log, which can be traced.

Clothing Restriction:
All employees will have a strict clothing restriction when working in the grow rooms, this is for contamination purposes, but it also serves as a deterrent to theft.

From my experience in the banking industry, making sure that two employees are designated certain tasks to complete together decreases the amount of internal theft and fraud. Of course it does not eliminate it, but we believe it helps to decrease the chances.

When making deliveries:

Employees will be required to make deliveries when it is daylight. Employees will make deliveries in pairs and both employees have to acknowledge how much product they are delivering and where they are delivering the product to.

Employees are required to drive straight to the receiving licensed marijuana facility, without diverting.

GPS sensor tracking of products.

Form MJ-01: Marijuana Establishment Operating Plan

Describe your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when any automatic or electronic notification system alerts a local law enforcement agency of an unauthorized breach of security:

All security systems alert all members of the staff prior to any law enforcement notification. The system will not automatically notify law enforcement, it will notify all employees of the breach, which will be able to be viewed by computer or smart phone, and the employee on site will be notified of the breach. If the breach warrants notifying law enforcement, employees are instructed to contact 911 for emergencies and the local police department for non emergencies such as; loitering or suspicious activity.

Video Surveillance (3 AAC 306.720):

All licensed marijuana establishments must meet minimum standards for surveillance equipment. Applicants should be able to answer "Yes" to all items below.

Video surveillance and camera recording system covers the following areas of the premises:	Yes	No
Each restricted access area and each entrance to a restricted access area	☑	☐
Both the interior and exterior of each entrance to the facility	☑	☐
Each point of sale area	☑	☐

A marijuana establishment is required to exercise due diligence in preserving and maintaining all required records. Describe how you will prevent records and data, including electronically maintained records, from being lost or destroyed:

• QuickBooks and Microsoft Office Software will be used for our business operating and accounting system including all records for tax purposes.
• Records for at least 6 months will be made available onsite. Older records will be archived and made available on request.
• Records of all employee's including marijuana handler permits of each licensee, employee, and agent will be kept at the establishment.
• We will maintain our own video surveillance and alarm system at our licensed premises.
• All marketing and advertising records will be kept at the premises.
• A diagram of our premises will be made available including all restricted access areas.
• A log recording the name, and date and time of entry of each visitor permitted in a restricted access area will be maintained at the premises.
• An accurate and comprehensive inventory tracking records that account for all marijuana inventory activity from seed or immature plant stage until the retail marijuana or retail marijuana product is sold to a consumer, to another marijuana establishment, or destroyed will be maintained on premises.
• All transportation records for marijuana and marijuana products as required under 3 AAC 306.750(f) will maintained and kept on premises.
• All required documents will be maintained and kept on premises and made available to an employee of the board upon request. Records kept off premises will bee provided to the board's employees not later than three business days after a request for the record

Section 3 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730, and identify how the proposed establishment will meet the listed requirements.

All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with the system the board implements to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

Applicants should be able to answer "Yes" to all items below.

Marijuana Tracking and Weighing:	Yes	No
A marijuana inventory tracking system, capable of sharing information with the system the board implements to ensure tracking for the reasons listed above, will be used	☑	☐
All marijuana delivered to a marijuana establishment will be weighed on a scale certified in compliance with 3 AAC 306.745	☑	☐

Describe the marijuana tracking system that you plan to use and how you will ensure that it is capable of sharing information with the system the board implements:

We will be using the State METRC System for all marijuana tracking. At this time we do not plan on using any supplemental tracking software or system. See Attachment #5

Attachment 5

Demonstration of compliance with Marijuana Inventory Tracking System

- **Metric-** Creates a vertically integrated "closed-loop" medical marijuana regulatory scheme which stems, in part, from the landmark 2005 California case, Gonzales vs. Raich (If you can demonstrate a closed loop, in which no marijuana crosses state borders, it strengthens against federal intervention)
- **Chain of custody**-Metric Creates audit trails and tools for assessing risk and channeling resources more efficiently (e.g. system notifications and reporting), Provides aggregate data regarding cultivation, production, transportation and sales of marijuana within the regulated model.
- **Transfer manifesting-** The system provides for a real time digital transport manifest giving access to law enforcement enabling them to quickly discover illegal activity during transportation.
- **Event level monitoring date and time stamping-** All activities will logged with date and time stamp in Metric.
- **Highly secure RFID** tags- By using RFID technology combined with serialized itme tracking, the system creates an "end to end" surveillance system where the municipality has real-time visibility at any given time into the inventory of KushTopia. Central control of security through RFID secure tag ID also provides an extra layer of security.
- **Trend analysis**-Creates an industry database of analytical information to establish trends and benchmarks for marijuana production
- **Investigations**-Allows criminal investigators to streamline field enforcement and compliance activities associated with licensees.
- **Plant, Harvest, and Package tracking**-Captures perpetual inventory quantities for KushTopia
- **Activity of licensed employees-** All employees activity will be logged, if employees are adding, removing, delivering, or making adjustments to any logs maintained by Metric. All employees will be trained on how to utilize the system.

Form MJ-01: Marijuana Establishment Operating Plan

Section 4 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700, and identify how the proposed establishment will meet the listed requirements.

A marijuana establishment and each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

Applicants should be able to answer "Yes" to all items below.

Marijuana Hander Permit:	Yes	No
Each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment	☑	☐
Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the premises of a retail marijuana store, marijuana cultivation facility, or marijuana product manufacturing facility) when on the licensed premises	☑	☐
Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired	☑	☐

Describe how your establishment will meet the requirements for employee qualifications and training:

• Training associated for employees on the marijuana inventory tracking system-
All our employees will be trained on the marijuana inventory tracking system, they will know how to input a travel log, understand how each entry is supposed to take place, and to pass a test to make sure they have the necessary knowledge to utilize the marijuana inventory tracking system correctly. Once complete the employees will receive a certification.

• Employee training associated with restricted areas and knowledge of the laws and regulations-
We will require our employees to go through one-day worth of training associated with the federal and state laws and regulations. All employees will be required to take a test to verify that they are comfortable with the information. Once complete all employees will receive a certification.

• The operators of KushTopia will first take every precaution associated with the rules and regulations of the State of Alaska regarding employees involved in the business of marijuana. We plan to advertise for employment mostly in the State of Alaska.

• How are we going to screen our potential employees?
Once management of KushTopia has chosen the best applicants to interview based upon their experience and resume strengths we will conduct a per-approved criminal background check. Upon successful background screening KushTopia will conduct interviews with applicants. After KushTopia managers have screened employee references and agreed unanimously on the applicants to be hired for employment, they will contact the future employees and inform them of training regiments and licenses needed for a complete hire status.

Section 5 – Waste Disposal

Review the requirements under 3 AAC 306.740, and identify how the proposed establishment will meet the listed requirements.

Applicants should be able to answer "Yes" to the statement below.

Marijuana Waste Disposal:	Yes	No
The marijuana establishment shall give the board at least 3 days notice in the marijuana inventory tracking system required under 3 AAC 306.730 before making the waste unusable and disposing of it	☑	☐

Describe how you will store, manage, and dispose of any solid or liquid waste, including wastewater generated during marijuana cultivation, production, process, testing, or retail sales, in compliance with applicable federal, state, and local laws and regulations:

• Preparation-
Prior to any disposal of any solid or liquid waste we must make sure we properly document it in our marijuana tracking inventory system and notify the board that the solid or liquid waste will be disposed of with at least 3 days notice.

Storage- During the 3 days notice period, we will store all waste material in sealed compost bins.

Waste Disposal- Once the compost is ready to be disposed of, we will use a solid waste incinerator. We will filter this incinerator and abide by all state, local, and federal laws and regulations associated with pollutants from the incinerator.

Describe what material or materials you will mix with the ground marijuana waste to make it unusable:

The waste matter will be collected and mixed with soil to be composted.

We will use soil, water, and leaf matter in equal parts prior to disposing of ground marijuana.

Marijuana waste must be rendered unusable for any purpose for which it was grown or produced before it leaves the marijuana establishment. Describe the process or processes that you will use to make the marijuana plant waste unusable:

• How we will dispose of material-
We will dispose of all solid and liquid waste, including wastewater generated during marijuana cultivation production. We will do this by grinding all remaining material and mixing all disposable material with compost that is left after we change our soil. The soil and solid or liquid waste will be equal parts to make sure the solid and liquid waste is disposed of properly.

Section 6 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750, and identify how the proposed establishment will meet the listed requirements.

Applicants should be able to answer "Yes" to all items below.

Marijuana Transportation:	Yes	No
The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700	☑	☐
The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle	☑	☐
The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport	☑	☐
During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport	☑	☐
Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment	☑	☐
When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received	☑	☐
The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest	☑	☐

Form MJ-01: Marijuana Establishment Operating Plan

Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment:

We are responsible for preparing, packaging, and securing the marijuana or during shipment, for recording the transfer in the marijuana inventory tracking system, and for preparing the transport manifest. An individual transporting marijuana in compliance with this section shall have a marijuana handler permit required under 3 AAC 306.700. All our employees will have a marijuana handler permit. We will make sure that all our employees are trained on preparing, packaging, securing, recording the transfer in the marijuana inventory tracking system. During transport, any marijuana must be in a sealed package or container in a locked, safe and secure storage compartment in the vehicle transporting the marijuana. The sealed package may not be opened during transport. Any vehicle transporting marijuana must travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and must not make any unnecessary stops in between except to deliver or pick up marijuana at any other licensed marijuana establishment.

Pre-Roll Amendment:

We plan to package our products with no additives in joint papers.

Our packaging will include labels containing: Marijuana has intoxication effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Our joint packaging will be packaged in sealed container that will not exceed a 1 Oz for customers purchase. The label will include our Cultivator Name, License number, Strain name, Lab results (for strain, thc, cbd, and pesticides). It will also include the net weight.

Flower Packaging:

We plan to package our products for customer sale that will not exceed a 1 Oz.

Our packaging will include labels containing: Marijuana has intoxication effects and may be habit forming and addictive. Marijuana impairs concentration, coordination, and judgment. Do not operate a vehicle or machinery under its influence. There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of reach of children. Marijuana should not be used by women who are pregnant or breast feeding.

Describe the type of locked, safe, and secure storage compartments that will be used in any vehicles transporting marijuana or marijuana product:

Our locked, safe and secure storage compartment will be a locked military grade transport hard case that will be put into the trunk of a transportation vehicle utilizing a cable lock system to secure it to the vehicle.

Section 7 – Signage and Advertising

Describe any signs that you intend to post on your establishment with your business name, including quantity and dimensions:

I do not plan to put any signs or advertising up on our establishment.

If you are not applying for a retail marijuana store license, you do not need to complete the rest of Section 7, including Page 17.

Restriction on advertising of marijuana and marijuana products (3 AAC 306.360):

All licensed retail marijuana stores must meet minimum standards for signage and advertising.

Applicants should be able to answer "Agree" to all items below.

No advertisement for marijuana or marijuana product will contain any statement or illustration that:	Agree	Disagree
Is false or misleading	☑	☐
Promotes excessive consumption	☑	☐
Represents that the use of marijuana has curative or therapeutic effects	☑	☐
Depicts a person under the age of 21 consuming marijuana	☑	☐
Includes an object or character, including a toy, a cartoon character, or any other depiction designed to appeal to a child or other person under the age of 21, that promotes consumption of marijuana	☑	☐

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

Section 8 – Control Plan for Persons Under the Age of 21

Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

2. Restricted access areas:

• Video Surveillance-
Our video surveillance system will cover all the entrances and exits of the restricted access areas.
• Locked doors-
All of our doors will be locked and only authorized employees who have marijuana handler permits prior to going in any restricted area.
• Signage-
The signage near all restricted areas will state that it is a restricted access area and that a marijuana handler permit is necessary to go into restricted areas.
• ID cards-
All employees will have ID cards; these ID cards will be required to access any restricted access areas.

• The licensed premises will have many levels of security. The first level is entryways, all entryways to the facility, not in restricted access areas, when locked are required to use an ID card to access the facility. All restricted access areas will have locks and only employees with access will be able to access the area. The restricted access areas, areas where sales take place, and entry and exits to both the facility and restricted access areas will be under 24/7 video surveillance.

I declare under penalty of perjury that I have examined this form, including all accompanying schedules and statements, and to the best of my knowledge and belief find it to be true, correct, and complete.

Clone and Seed Supplement:

Clone Supplement:

Our clones come from selected mother plants that represent the traits of potency and vigor that we would be proud to pass on to our patients and clients. Once our clones are cut from our mothers, they survive a 10-14 day rooting and selection process. Only the healthiest and best looking rooted plants are then transplanted in a 2×2 inch pot. We transplant these to allow the roots to keep growing and not wrap around themselves, which stunts growth and compromises yield and quality. **All our clones will be sold to a licensed marijuana cultivator or retailer.**

Seed Supplement:

Our seed packaging will include a closed package, with details about the cultivator and the strain. We will include details relating to the type of strain, how long the flowering time is, sativa or indica dominant, and a picture of the strain if available. **We will only sell seeds to a licensed marijuana cultivator or retailer.**
