Re: Standard Marijuana Cultivation Facility License #10687

Dear applicant,

The AMCO Office is reviewing the documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted. **All corrections/additions to any form(s) must be initialed by the proposed licensee.**

- **All Forms/MJ Applications**
  - The first page of **all** forms/MJ applications need to include the Suite number/letter as indicated on your lease (Suite E). You will also need to re-advertise, re-notify the local government, and re-post your application that includes the suite number. I have updated the system to reflect the suite number as indicated on your lease. You should be able to go to your MyAlaska and print out an updated Public Notice and Advertisement Notice.
- **MJ-00 Application Certifications**
  - Page 1, in addition to the suite number, can you please spell out RSO.
- **MJ-01 Operating Plan**
  - Page 12, first box; the response here does not address how you will store and manage the waste during the three-day waiting period before rendering it unusable. How will you manage liquid waste?. Please address these questions in this box.

- **MJ-02 Premises Diagram**
    - On the colorful diagram where you show the red arrow; please clearly indicate what this is. I suppose this is the entrance/exit to the basement where this marijuana cultivation facility is going to be, but it needs to be very clear for the MCB board.
    - On the As-Built; please clearly show where this property is.
    - On the other two diagrams that seem to be the same floor plan only different versions; please clearly delineate the licensed premises, within the licensed premises delineate the restricted access areas. For example, on the diagram showing the dimensions you state that "All rooms are restricted access.." but what about the hallways. So, if the entire licensed premises is going to be restricted access as you state somewhere on your operating plan, then just make it very clear. Licensed premises and restricted access areas are two different things.
    - On the two-of-the-same diagrams; one has a "Secured Exit" but not the other one. Please explain clearly on the diagram.
- **MJ-04 Cultivator Supplemental**
    - First page of this application; in addition to the suite number on address, the licensee name is incomplete. It should have the LLC at the end.
- **MJ-07 Public Notice Posting Affidavit**
    - The updated public notice that includes the suite number must be posted for five (5) days at the proposed premises and other conspicuous location and a new MJ-07 must be filed with us.
- **MJ-08 Local Government Notice Affidavit**
    - The updated public notice that includes the suite number must be submitted to the local government, and a new MJ-08 must be filed with us.
- **Publisher's Affidavit**
    - A one-time (one week) correction newspaper ad that includes the suite number must be run. We will need the publisher's affidavit for this ad that should include copy of the ad.

- **Proof of Possession for Proposed Premises**
    - Clause 16-Extended Absences by Tenant: Please have the landlord incorporate a statement that landlord may not remove or take possession of marijuana or marijuana products and that he/she will contact State of Alaska-AMCO. Landlord must initial.

Please return the incomplete items within two weeks of the date of this letter. Receipt of the items within two weeks will keep your application at the top of our worklist. If we do not receive all of the completed items within two weeks, your application will be moved to the back of the "Under Review" worklist. If we do not receive your completions within 90 days, per 3 AAC 306.025(f), you must file a new application and pay a new fee.

Sincerely,

Cynthia Franklin, Director
