Rural Utility Business Advisor Program

LIEN WATCH: A Review of Small Community Liens

MAY-JUNE 2011

INTRODUCTION

Every two months, the Division of Community and Regional Affairs' (DCRA) Rural Utility Business Advisor (RUBA) program publishes *Lien Watch*, a report of liens held against public service entities in small communities. The purpose of *Lien Watch* is to identify community entities struggling with cash flow or management issues, as indicated by active tax liens or court-related debts. DCRA uses this report to identify communities that may need technical assistance to build local utility management capacity in rural Alaska. All records in this report are in the public domain and may be found at: http://dnr.alaska.gov/ssd/recoff/search.cfm.

This report lists unresolved state and federal tax liens and court judgments levied against municipal, tribal, and utility entities in communities with less than 2,500 persons within the timeframe of the report period. The information in this report is based on public domain lien data dating from July 1, 2000, to June 30, 2011, extracted from the records of the Alaska Department of Natural Resources (DNR) Recorder's Office. A single organization may have lien items filed under multiple names. For this report, liens have been standardized under the most representative name. Liens unrelated to public-service entities are excluded. Liens issued to independent subsidiaries of tribal or community entities or for-profit private corporations are also excluded. To verify the validity of a particular lien, contact the entity listed or the agency that filed the document.

DATA LIMITATIONS

The Recorder's Office data have specific lien-related limitations. Data only represent debts for which liens have been issued. The recording of liens or their release may not be current due to reporting or recording delays. These delays can lead to significant differences between the amount of reported and actual lien-related debt.

The search feature of the Recorder's Office database is limited. Keyword searches find only matches that begin with the term entered. Wildcard searches are prohibited. Consequently, records that include

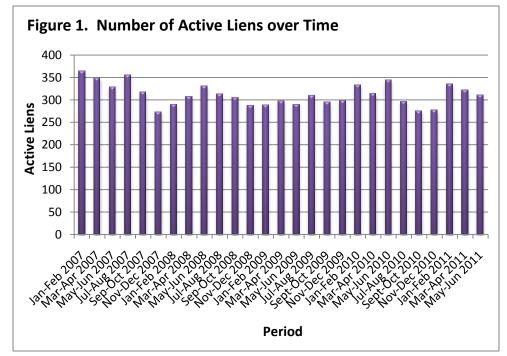

misspellings, have an unexpected word order, or lack information may be unintentionally omitted from this report. Finally, real property liens are not included within this report. Since 2010, DCRA has received data of new filings of liens and their releases from DNR's Recorder's Office.

LIENS CLAIMED AND RELEASED

The compiled records through June 30, 2011, list 310 individual active lien items that were connected with

55 city, tribal, and utility entities in 52 communities across Alaska. The median debt load per community entity was \$20,611 \$132,225). (average =The majority (51%) of these lien-holding entities owed at least \$20,000. Thirteen of the entities (24%) owed more than \$100,000.

The number of lien items recorded in May and June 2011 was 11, about 20% the 59 lien items issued in May/June 2010. The number of lien item

releases recorded in May and June 2011 was 23, less than the number of liens released (36) in May/June 2010. Figure 1 shows the change in the number of active liens since *Lien Watch* began in January/February 2007. The following tables list all of the liens issued and all of the liens released in the May/June 2011 period.
