

LIEN WATCH:

A Review of Small Community Liens

MARCH-APRIL 2009 UPDATE

INTRODUCTION

The Division of Community and Regional Affairs' (DCRA) Rural Utility Business Advisor (RUBA) program sponsors *Lien Watch*, a bi-monthly report of liens held against small communities. The purpose of *Lien Watch* is to identify community entities struggling with cash flow or management issues, as indicated by active tax or court-related liens. DCRA uses this report to identify communities that may be at risk and to build local utility management capacity in rural Alaska.

This report lists unresolved state and federal tax liens and court judgments levied against municipal, tribal, and utility entities in communities with less than 1,500 persons. The information in this report is based on public domain liens data dating from July 1, 2000, to April 30, 2009, extracted from the records of the Alaska Department of Natural Resources (DNR) Recorder's Office. A single organization may have lien items filed under multiple names. For this report, liens have been standardized under the most representative name. Data collection is limited to individual lien items of \$500 or more. Liens unrelated to cities, tribes, utilities, or community non-profit associations are excluded. Liens issued to independent subsidiaries of tribal or community entities or for-profit private corporations are also excluded.

DATA LIMITATIONS

The Recorder's Office data has specific lien-related limitations. Data only represents debts for which liens have been issued. The recording of liens or their release may not be current due to reporting or recording delays. These delays can lead to significant differences between the amount of reported and actual lien-related debt.

The search feature of the Recorder's Office database is also limited. Keyword searches find only matches that begin with the term entered. Wildcard searches are prohibited. Consequently, records which include misspellings, have an unexpected word order, or lack information may be unintentionally omitted from this report. Finally, real property liens are not included within this report.

LIEN SUMMARY

Lien Summary

The compiled records through April 30, 2009, list **299** individual active lien items of \$500 or more that were connected with **59** city, tribal, and utility entities in **54** communities across Alaska. The median debt load per individual lien item was \$7,049 (average = \$21,546). The majority (**54%**) of these lien-holding entities owed at least \$20,000. **Thirteen** of the 59 entities (**22%**) owed more than \$100,000.

Figure 1. Number of Active Liens Over Time

The number of lien items recorded between March and April 2009 was 25, which is equal to the 2008 average of 25 new lien items issued for each two-month period. The number of lien item releases recorded between March and April 2009 was 15, slightly lower than the 2008 average of 22 lien item releases per two month period. Figure 1 shows the change in the number of active liens since *Lien Watch* began in January/February 2007. The charts below list all of the liens issued and all of the liens released in the March/April 2009 period.

In Alaska, a confession judgment can be entered before or after the commencement of action in Superior Court.
