Hello,

I am voicing a specific objection for license number: 10086, TERRA HOUSE, LLC. This property is located in a residential neighborhood with small children present and I personally feel it would be unacceptable to have such an establishment here. My concerns are for the surrounding residents' safety and property value as this establishment could become a target for criminals who wish to take advantage of the fact that a resident has a known supply of marijuana and thus increase the crime in the area.

Thank you for hearing my concerns.
