---

Hi, Joseph,

I went through the corrections submitted. A few things:

- Corrected MJ-01 did not come through. The PDF had some problems (you may need to save it differently) I attached a screenshot of the error.

- MJ-02-on the "Security Layout" diagram. Please clearly indicate the restricted access areas (label them). I asked for this on the original incomplete letter but perhaps it was not clear.

- MJ-04-page 4, first box-the marijuana waste needs to be in a restricted access area within the marijuana cultivation licensed premises, it can't be stored out of the licensed premises if that's what you mean by "outside the cultivation facility".

- MJ-07-The email with attachment labeled "THC-MJ-07 Revised" was not the corrected MJ-07, it was a copy of the public notice.

- MJ-12-Petition: so on the coversheet of MJ-08 you state that the proposed premises are over 50 miles away from the nearest local government.

  Now, on the petition, on page 3, you selected "within one mile.." nonetheless, according to page 4, you collected signatures within five miles. The problem here is that if the proposed premises is over 50 miles away from the nearest local government you should have collected the signatures within five miles, but from the nearest post office, not the proposed premises.

  So, which is it. Is the proposed premises within 50 miles from the boundaries of nearest local government or is the proposed premises over 50 miles from the boundaries of the nearest local government.

Please call me if you need clarification or have questions.

Also, please note that this email does not extend your 90-day deadline to

submit an accurate and complete application.

Thank you, Joseph.

Jane
