Re: Retail Marijuana Store License Application #10056

Dear Applicant,

AMCO staff has reviewed the online application and supplemental documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted.

- Since the application was initiated without the suite #, there are multiple corrections associated with adding it
  - AMCO staff added the suite # to the online licensing system on 7/27 per your email, (also attached for your reference), which created a new advertisement notice and public notice
    - The new publisher's affidavit was received on 8/09 and is marked complete
  - The new public notice must be posted for 5 days and a new MJ-07 must be submitted
  - The new public notice must be submitted to the local government and community council and a new MJ-08 must be submitted
  - You will need to correct Section 1 – Establishment Information, of each form to include the suite # in the premises address
    - All of these instructions were provided in the attached email from 7/27
- MJ-01 Operating Plan
  - Page 15, both boxes, refer only to cultivation, but this is a retail store application – please provide a description for your retail store
  - Page 16, box 1 – will all three signs comply with 3 AAC 306.360(a) which states that a sign may be placed in the retail marijuana store's window or attached to the outside of the licensed premises?

- MJ-02 Premises Diagram
    - Please clearly delineate the outer boundaries of the proposed licensed premises (for the retail store) by outlining in another color
        - When an AMCO investigator is looking at your diagram, it should be very clear what areas will be the "licensed premises" (for this application) as defined in 3 AAC 306.990(23) and what areas will not be licensed premises.
    - MJ-03 states that you will stock and dispense for sales from the counter and behind the counter, but your diagram does not designate this area as a restricted access area
        - Per 3 AAC 306.325(c) and 306.710, any part of the licensed premises where marijuana or a marijuana product is grown, processed, tested, stored, stocked for sale or dispensed for sale should be in a restricted access area, but it seems you will be stocking and dispensing for sales in an area that is not a restricted access area
            - Please amend your diagram to comply with these regulations
            - Please be sure to clearly label and outline the restricted access areas for the retail store

Please return the incomplete items within two weeks of the date of this letter. Receipt of the items within two weeks will keep your application at the top of our worklist. If we do not receive all of the completed items within two weeks, your application will be moved to the back of the "Under Review" worklist. If we do not receive your completions within 90 days, per 3 AAC 306.025(f), you must file a new application and pay a new fee.

Sincerely,

Cynthia Franklin, Director
