Mike,

I reviewed the corrections. We've got more work to do:

MJ-01-pages 12 and 15 including the extra page of response: You still make some references of retail sales and marijuana products. This application is for a cultivation license, not a retail or product manufacturing. That needs to be fixed. I don't need the entire document again, I just need the pages that you are amending.

MJ-02-diagram: Where are you showing your cameras? You need to clearly notate the licensed premises and restricted access. More questions about the "extraction" room in the cultivation side. Call me please. Thanks

Question about your lease: the lease says is for unit 100/101. What does this mean?
