Good morning;
We have uploaded your corrections. However, there is still one item that needs to be addressed.

- The diagram needs to very clearly show what the licensed premises will be. Within the licensed premises what the restricted access areas will be. What you submitted does not clearly show these two things. Additionally, you will need to rewrite the labels because they were not legible. Call if you have questions.

Please note that we will not be sending reminder emails regarding any corrections that need to be submitted. This application is still in incomplete status.
Thank you
