Subject: Lic. 11350 Corrections Incomplete

Importance: High

Good morning,

I have reviewed your corrections submitted 8/21/17 and there are still issues that need to be fixed. As a reminder, your 90 day deadline from the first time you were deemed incomplete is end of business at 4:00 PM tomorrow, 8/23/17. If your application is still incomplete at that time, per 3 AAC 306.025(f), you must file a new application and pay a new fee. Please consider this deadline and get corrections back to me as soon as you can in case there is still items outstanding.

The following corrections still need to be made:

- MJ-02
  - On your MJ-02 you did not add dimensions for your areas under cultivation. Per 3 AAC 306.410(1) you are limited to 500 square feet for a limited cultivation license.
  - Be more clear on the diagram of what the areas are. It is not clear if those are separate rooms for flower/veg/etc. or if they in the open. Please note where the entrances to each area are.
- MJ-04
  - On page 2 when describing the sizes of your facility you are not clear enough. The board needs to know what the total size is of your area under cultivation to know it is within regulations. Currently your description puts you well over the limit of 500 square feet.

You may scan and send in just the needed pages for corrections to this email, marijuana.licensing@alaska.gov

Best regards,

Mark Bailey
