Section 6 – Security

Identification Requirement to Prevent Sale to Person Under 21 (3 AAC 306.350):

Describe the retail marijuana store's procedures for ensuring a form of valid photographic identification has been produced before selling marijuana or marijuana product to a person, per 3 AAC 306.350(a):

Upon a consumer entering the building foyer, there is a check point with security personnel that will check identification. Valid identification will be ~~scan~~ taken, the barcode ~~on the~~ scanned back of the ID into the FlowHub system. If the ID is valid, this system will allow the person's information to be uploaded into the system with date of birth, address, and state of identification. The trained security personnel will then look at the ID to ensure no alterations have been made and it is not expired. The security personnel will then look at the person to verify the picture on the ID matches the person wanting to enter the marijuana retail area.

If any issues about the person's age, then further questioning will pursue. If valid ID, the consumer will be allowed to enter the marijuana retail area. If not valid ID, the person will be asked to leave the building.

Each employee will have had to take an Alaska marijuana handlers course and have current marijuana handlers card and will be trained per policy and procedure of AM Delight.

I declare under penalty of perjury that I have examined this form, including all accompanying schedules and statements, and to the best of my knowledge and belief find it to be true, correct, and complete.
