Hello, Grant.

The only document that I was able to complete out of the corrections you sent me in response to incomplete letter dated 8/1/2017 was the LLC's operating agreement so that piece is done. The other documents are still inadequate as follows:

- The lease addendum is made between Theodore R Ellsworth who is the landlord and Grant Anderson who is mentioned as the tenant. However, the tenant in this particular case should be the company under which you are applying for the marijuana establishment license. In other words, I need a lease addendum where the tenant is Rebel Roots, LLC.
- The corrected diagram is even more confusing: the blue line is the proposed licensed premises **but** is that going to be a fence? what exactly does the blue line signify other than proposed licensed premises being that this blue line is outside the perimeter of the building.
- Also, is the bathroom outside of the building? Again, I don't know what the blue line signifies other than the proposed licensed premises.
- Forgot to ask on the original incomplete letter: clearly label the entrance(s) and exit(s) on the diagram and show camera placements.
- Page 15, first box: in this box please explain in what instance(s) you would be following the operating procedure you outline here to transport to another marijuana retail store.

Just FYI, I am going to be out of the office all next week, and the week after that is going to be very busy because we will be getting ready for the board meeting in September. That said, please do the absolute best you can to complete the items above and send back. If I have to send them to you back again you will not make the September meeting, though it is not a

guaranteed that this application or any specific application will make it to the September meeting.

Thank you
