Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

Describe your policies and procedures for preventing diversion of marijuana or marijuana product:

Policies and programs to prevent diversion of product (flower and sell-able leaf) are addressed as follows: Company policy states "diversion of any marijuana is not allowed and if discovered is cause for termination." The management program, METRC, identified by the State of Alaska, will be used to track individual plants. All product from the individual plant sand the resulting product (flowers and sell-able leaf) will be identified through the individual plant Id's provided by METRC. This individual plant sand the resulting product (flowers and leaf) are easily tracked by the program identification. Between the METRC tracking system and adherence to company policy and vigilant surveillance on my part, diversion of any marijuana will be easily identified and addressed.

Our facility is a small 3 man operation and thus easy to control diversion. If, in the future, employees are brought on, training and adherence to company policy addressing prevention of diversion will be conditions of employment.

There are exterior and interior security cameras located throughout the restricted area and areas of interest (office, entry way, entry door) to monitor and record activities. This monitoring will provide an additional deterrent to any attempted diversions.

Describe your policies and procedures for preventing loitering:

The facility is located in a rural and less populated area. "Private Property" & "No Trespassing" signs are posted, our policy dictates that the procedure for handling uninvited/suspicious persons/traffic is to investigate, and if necessary ask said uninvited/suspicious persons/traffic to leave the premises, and then if necessary, report to the local authorities for trespassing.

Describe your policies and procedures regarding the use of any additional security device, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm to enhance security of the proposed premises:

The Company's Security policies and procedures will include how to properly use, operate, and troubleshoot all of the security devices, as well as, the proper protocol for alarms and false alarms. It will be included in our training, and regular security checks will be performed.

The MJ Cultivation Security includes the following:

(14) 4MP HD-CVI WDR IR Vandle Proof Bullet Cameras
(1) 16CH Tribrid 4MP, 2 SATA, HDMI, 8CH Additional 5MP IP
(2) 8TB Surveillance Grade Hard Drives

Form MJ-01: Marijuana Establishment Operating Plan

Section 8 – Control Plan for Persons Under the Age of 21

Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

The rural and remote location of this facility will negate any casual interactions. The property is secure from unintentional trespassers. Any interested persons will be vetted prior to visitation and under age parties or access by under age persons will not be permitted.

I declare under penalty of perjury that I have examined this form, including all accompanying schedules and statements, and to the best of my knowledge and belief find it to be true, correct, and complete.
