---

Good morning, James,

I've reviewed your corrections. Tiny bit more to do which I will outline below, but first I just want to let you know that this email does not extend the 90-day deadline you have to get this application deemed complete by AMCO director; that deadline is 2/28/18.

On the other hand, if you are hoping to be on the agenda for the January meeting, the application must be deemed complete by 1/5/18, in other words, I need the following corrections/items/documents submitted immediately – respectfully.

- MJ-01 Operating Plan (this time I only need the pages that are being corrected, the entire page completed, but it can be only the pages that need corrections):
  - Pages 12 & 13: the marijuana waste must be made unusable by **grinding** (very specific in the regulation) not by mulching/shredding. Will you please amend that tiny section to reflect this.

- MJ-04 Cultivation Supplemental (this time I only need the pages that are being corrected, the entire page completed, but it can be only the pages that need corrections):
  - Page 4, first box: the marijuana waste must be made unusable by grinding not by mulching/shredding. Will you please amend that tiny section to reflect this.
  - Page 5: In this box, separately explain (add to the answer you already have) how you will comply with 3 AAC 306.465.

- MJ-02 Premises Diagram:
  - On the aerial diagrams, please clearly point out the proposed licensed premises.

Thank you

Jane P Sawyer
