Re: Standard Marijuana Cultivation Facility License Application #10052

Dear Applicant,

AMCO staff has reviewed the online application and supplemental documents submitted for the proposed marijuana establishment license referenced above. The following items need to be corrected and/or resubmitted.

- Entity Documents
  - You need to file your Initial Report with the Division of Corporations: https://www.commerce.alaska.gov/cbp/Main/CorporationDetail.aspx?id=10036509 phone #: 269-8160
  - Please submit a copy of the paperwork you submit for your Initial report
  - Per 3 AAC 306.020(b)(3)(B) the limited liability company agreement, also called the LLC operating agreement, must be submitted with the application
- Proof of Possession of Proposed Premises
  - The Affidavit you provided is an inadequate proof of possession of proposed premises
  - Please provide a deed or lease showing Red Run Cannabis Cultivators, LLC has right to possession of the premises address on the application
- Premises
  - It is hard to decipher the cultivation and restricted access areas on the diagram provided
  - Please clearly delineate the outer boundaries of the proposed cultivation facility by outlining in another color
    - When you resubmit the updated diagram please make very clear what the licensed premises specifically for the cultivation facility will be. For example, the diagram submitted is a little confusing, the statement on the diagram says "Red for retail; green for cultivation" yet the diagram shows a "false wall" in red, and all the "restricted access" labels are red. The diagram also shows a green line or strip by the handicap ramp, and another one by what looks like

the outside by the connex, does this mean that this strip is part of the proposed licensed premises for the cultivation facility?.

- Two different entities may not overlap under the same licensed premises (the shared office and work room)
- Because there are two different companies in this building, you will need to distinguish one from the other with a suite/unit/room #.
- Since neither application was initiated with a suite/unit/room #, there are multiple corrections associated with adding one.
    - You will need to add a suite/unit/room # for this application or the Retail application which will require the following actions and or corrections:
        - AMCO staff will add the suite/unit/room # to the premises address in the licensing database which will create a new advertisement notice and public notice
        - If you have already accomplished those notices, you will need to run a 1-time correction ad and re-post the public notice for an additional 5 days
        - Your proof of possession of proposed premises must include the suite/unit/room #
        - You will need to correct Section 1 – Establishment Information, of each form to include the suite/unit/room # in the premises address

Please return the incomplete items within two weeks of the date of this letter. Receipt of the items within two weeks will keep your application at the top of our worklist. If we do not receive all of the completed items within two weeks, your application will be moved to the back of the "Under Review" worklist. If we do not receive your completions within 90 days, per 3 AAC 306.025(f), you must file a new application and pay a new fee.

Sincerely,

Cynthia Franklin, Director
