Good morning Jessica,

I have been requested by AMCO as part of the certification process for the completeness of my application to provide "a copy of (my) permit application that is stamped "received" by DEC.

I do not seem to have this document in evidence. Is it held up by the need for completeness certification from AMCO?

If there is an opportunity, please return to me a copy of my application with the stamp "RECEIVED" on it in the appropriate place so that I may respond to AMCO request for this document. I have the receipt for payment Invoice #OTC 1725630 issued 9/13/17 at $275.00.

Sincerely yours,

Christopher Wilhelm
SFA LLC

Good Afternoon Christopher,

I want to thank you for your inquiry about the plans you submitted to our office for SFA LLC. I would like to clarify that we are not withholding inspection of your facility, as this will be done by our Ketchikan Environmental Health Officer as his schedule allows.

Our office works together with the AMCO office in permitting marijuana facilities. We coordinate our efforts to ensure that both offices are issuing approval for the same processes. In order for our unit to be able to complete a plan review that addresses all food products and processes, we need AMCO's notification of completion.

Once I receive notification of your completed application from AMCO, I will be sure to contact you promptly with any requests for clarification or additional information I may need to complete your plan review. Our plan review process does not take a very long time and the level of involvement of the operator helps move the review along.

Thank you for your inquiry and let us know if you have further questions.

Have a great day,

Jessica Davison

Jessica,

thank you for your reply. I am watching with great interest. I have paid $6,000 to AMCO and have every intention of completing my application. I would like to complete the bakery project regardless whether they award my license, there is a good market for baked goods here.

Could you elaborate on the policy decision to withhold the inspection of the new construction until the AMCO office has completed their evaluation of the marijuana license application?

Sincerely,

Christopher Wilhelm

Good Afternoon Christopher,

I have not yet received notification from AMCO that a complete application has been received on their end. I need to receive this information prior to being able to conduct your plan review. I will be sure to let you know if there is any clarification or additional information I need to receive from you.

Have a great day,

Jessica

Good morning Jessica,

I would like to check back with you on the status of my application for a review of the plans for a bakery in Ketchikan. I have submitted application and fees, I have not heard anything for sometime about the application. Is it moving forward? Have you found anything that I can assist with to provide more information or clarify any information already submitted?

We would like to pour concrete and go forward. The local government has provided zoning authorization, the fire department has provided its approval, everything is standing by. Please consider this as you deliberate on our plans.

Sincerely yours,

Christopher Wilhelm
