MJ.05 Section 4 Product #43

Product Name:	Reefer Hummus
Type:	Edible
Product Description Details must include the color, shape, and texture.	4 oz liquid, light brown, creamy texture
Ingredients This box is not applicable to marijuana concentrates	• - 8 oz cooked chickpeas • - 3 oz Canna- Oil • - 3 oz tahini • - 2 ea raw garlic, cloves • - 2 Tbsp Sriracha • - 2 Tbsp lemon juice
Standard Production Procedure and Detailed Manufacturing Process:	- The hummus will be produced using Canna-Oil once all testing reports have been received. Then a batch will be made following these steps: a. In a food processor blend the raw garlic cloves, 1/3 of the chickpeas and a pinch of salt and run machine until smooth. b. Now slowly start to add of the oil, a 1/3 of the chickpeas and 1/2 of the tahini and then repeat until chickpeas are gone. c. Remove from the processor and place hummus into a container. - A sample from this batch will be sent to a marijuana testing facility with a travel manifesto. This batch will be packaged, labeled with METRC label, and stored in the locked, secure storage room. - Once the sample is cleared through the testing facility, labels will be made and placed on the stored, segregated sauce batch and then moved to the retail space.

MJ-05 Product #44 Section 4

Product Name:	Frozen Lemonz
Type:	Edible
Product Description Details must include the color, shape, and texture.	½"x ½" oval, yellow, hard smooth texture
Ingredients This box is not applicable to marijuana concentrates	• 1 cup sugar • 2 Cups Organic honey • 6 g Cannabis Decarb'd • 1 Cup water • 3-4 Tbsp water • 2 tsp citric acid • 2-3 drops all-natural yellow food coloring • Lemon flavoring
Standard Production Procedure and Detailed Manufacturing Process:	- The lemon ovals will be produced using cannabis once all testing reports have been received. Then a batch will be made following these steps: a. Place cannabis into crock pot and turn on HIGH. Pour in water and bring to a simmer. Pour in honey and allow to cook for 3-5 hours. b. Place parchment paper into a small pan. c. Place sugar, honey mixture, and water into a saucepan. Bring to soft boil, stirring constantly. Place candy thermometer into saucepan. Do not stir any more at this point. d. Once it reaches 310 degrees, remove from heat. e. Allow the mix to sit for 30 seconds-1 minute. f. Place a couple of drops of coloring, flavoring, and citric acid and stir. g. Pour into parchment-lined pan. Let it cool briefly for 4 minutes. h. Using kitchen scissors, cut into ½"x ½" oval. Dust with powdered or fine-textured sugar; package. - A sample from this batch will be sent to a marijuana testing facility with a travel manifesto. This batch will be packaged, labeled with METRC label, and stored in the locked, secure storage room. - Once the sample is cleared through the testing facility, labels will be made and placed on the stored, segregated sauce batch and then moved to the retail space.

Form MJ-05: Marijuana Product Manufacturing Facility

Section 6 – Waste Disposal Plan

Review the requirements under 3 AAC 306.520, and identify how the proposed premises will meet the listed requirements.

Describe the marijuana product manufacturing facility's plan for disposal of any expired or outdated marijuana or marijuana product that is not sold or transferred to another licensed marijuana establishment:

Frozen Budz manufacturing production plan for disposal of any expired or outdated marijuana or marijuana product that is not sold or transferred to another licensed marijuana establishment is to ensure the marijuana or marijuana products is deemed unusable before disposal. Our procedure will be to access the expired or outdated marijuana or marijuana to determine if item is compostable, in which case the compostable items will be mixed with compost material such as manure and hay and stored in the secure, locked compost shed on site. If the marijuana or marijuana product is deemed uncompostable, then the items will be mix with cat litter to ensure it is unusable and stored in a secure, leakproof refuse container until transferred off site to Fairbanks North Star Borough waste facility. All marijuana and/or marijuana products that are disposed of will be indicated in the METRC system as expired or outdated.

(Additional Space as Needed):

`Frozen Budz will be exclusively using the Magical Butter Machine which contains a motor and microprocessor with temperature buttons: No Heat, 130 F, 160 F, 190 F, and 220 F; and timer buttons: 1 Hour/Oil, 2 Hours/Butter, 4 Hours/Tincture, 8 Hours, and clean. This machine is constructed of high-quality stainless steel and a proprietary immersion blade: chops, grinds, and stirs ingredients; as well as a digital thermostat to provide maximum control of temperature ensuring consistency in extraction. This machine will be used to make four (4) base concentrates: CannaButter, CannaOil, Cannabis Tincture Oil, and Cannabis Essential Oils. These base concentrates are not for retail sale and will be used to make various edibles for retail sales.

Frozen Budz will use a Capsule Filling Machine - Size 00 Product Code: 22069 to fill Size 00 Clear Vegetarian Capsules with CannaOil. The Capsule Machine fills and ejects up to 24 pill capsules.
