Thank you,

Will you please update the address in the system for Top Hat Concentrates, LLC reflecting "suite B" on the address so new public notice, notice for the news paper, and cover page are updated in the system so I can repost when I repost for Top Hat, LLC?

John

Good Morning,

You do not need to resubmit the entire application, just page 1 of each form with the address corrected.

You will need to do the same thing for Top Hat Concentrates, LLC as well with Suite B.

Thank you,
AMCO Staff

Thank you,

So I need to resubmit the entire application? Or just the first page of every MJ-form changing the address? And should I just go ahead and do all of this for Top Hat Concentrates, LLC, as well?

John

Hello John,

I had a chance to speak with the management team and I have an answer for you on the suite issue.

Since there are two separate companies, regardless of whether they have the same shareholders (they are different companies with different entity #'s), they must be differentiated by suite #'s. This is the same thing we have required of several other applicants whose premises is in a building with other tenants/businesses.

Thank you,
AMCO Staff

The sublease included with the documents for this license as well as license number 10271 (Top Hat Concentrates, LLC) is the same. Top Hat, LLC is the manager and owner of Top Hat Concentrates, LLC. Both lease the shared facility from JBT Dev., LLC. and are under the same roof. Top Hat Concentrates, LLC is just separated by it's own RFID access door for the purpose of doing extractions.

Thanks,

John

Hello,

Just a heads up, there may be an issue because there are two entities in the building; Top Hat, LLC and Top Hat Concentrates, LLC. Even though both LLC's may have the same owners, it is still two separate companies. Our meeting is in about 30 minutes, so I will let you know by the end of today.

Tracy may be able to contact PFD and resolve the issue with them. If she can get her status changed to "Eligible", she will

not need the residency verification investigation.

Thank you,
AMCO Staff

Thank you for the prompt response!

I would appreciate just being able to change the lease, as we are the people who generated it, and it makes life easier on everyone. Just a lawyer typo that is easily modified.

Looks like Tracy just hasn't filed this year or they haven't approved her yet for what ever reason. I'll have her fill out the MJ-18, as well.

I'm placing a definite border around the facility on the floor plan submitted.

Thank you again!

John

Hello,

I will bring the suite question to the meeting with our management team today and get back to you with an answer.

As far as residency, the definition of "resident of the state" in the regulations (3 AAC 306.015) is a person who meets the residency requirement under AS 43.23 for a permanent fund dividend *in the calendar year* in which that person applies for a marijuana establishment license under this chapter. Therefore, we use the PFD database to check that the individual is "eligible" to receive a PFD this year. As you can see below, the status for Tracy LaBarge in the PFD database for 2016 is "Undetermined".
<image001.png>

For the premises diagram, I don't need you to outline the areas that will be under cultivation, but the entire premises for the cultivation facility. If that is the entire diagram you submitted, please show that.

Thank you,
AMCO Staff

Hello,

I've received your incomplete letter, thank you.

In reference to the "suite a" not being listed on documents… This was an error by our lawyer on the lease documents. There should be no suite assigned to the Top Hat, LLC facility. We own the building and are the lessor and leasee.

Can we change the lease documents to not reflect a "suite" assignment, resign, and resubmit instead of changing all the other paperwork?

Also, Tracy LaBarge has lived in Juneau for over 20 years and doesn't understand why there isn't any PFD documentation?

I have lived here for 2 years, but haven't received a PFD, yet. So I will submit necessary documentation to you ASAP.

I will also outline the 3 rooms where marijuana cultivation will be taking place on the MJ-02 diagram.

Thank you,

John
