---

Mark,

I just go to your corrections. There are a couple more things:

- I was not able to open the MJ-01, and when I opened it all the pages were completely blank. Please re-send it.
- MJ-04: on 8.1 and 8.2, there is more information the label(s) require than just the warning statements. Please re-review the regulations and amend your label(s) accordingly.
- MJ-02: can you make the color of the text of the dimensions a different color (the white is almost invisible on these diagrams). Also, the Non-Secure storage, you want that as part of the licensed premises, but, is accessible from within the proposed licensed cultivation? storage of what will that be?

Please note this email does not extend the 90-day deadline to have this application complete or you will have to start over with this process from the beginning, that deadline is 4/23/18. Furthermore, the application must be complete by 3/16/18 to make it to the April MCB meeting.

Thank you

Jane P Sawyer
