To the Marijuana Control Board:

Ref: License #10131, DBA: Pakalolo Supply Company, Inc.

I object to this license being issued because the access on Fox Avenue has been cut off by the railroad. The only access is off of a bad curve on Phillips Field Road, which is already a dangerous road. When we have the icing that often occurs on this road, there are many cars that slide off of it. You can verify with AK DOT for the accident numbers for this road.

The applicant has expressed interest publicly in having a consumption venue with this license at that location. That kind of increased traffic combined with drivers going to this location for the sole purpose of altering their state of mind to the point of impairment is an incredible safety issue. This establishment shouldn't be allowed unless access is obtained via Fox Avenue.

Thank You,

Lance Roberts
