Subject: Concerned Parent!

To whom it may concern,

I am a mother raising boy/girl twins we live in Palmer, Alaska and my husband and I are relocating this May to Talkeetna.

If your a parent ask yourself would you like your children going to school next to a facility that makes marijuana gummies. Let's be honest is this truly necessary??

Let's go back to the days when if you wanted to get high you rolled a joint for crying out load! It's not easy to raise children in this world today. So many temptations as it is with drinking, smoking, drugs etc. Now we'll be adding another near a high school. When young adults have enough going on with decisions about college, girlfriends, boyfriends, proms, and sports! Lets let kids be kids! This is a terrible location for a marijuana lab, it's just ridiculous. Why Talkeetna? Why near the high school?

I just don't see how this makes any sense and in a community of 800 in the winter.

All I ask is think of your families would you want this for them? Set aside the $$ signs. This community is loved by all Alaskans and this I feel would ruin it, it's undeveloped beauty that this sweet town of Talkeetna is and hopefully always will be does NOT need this!, Period!

Thank you for your time,
Mrs. Dacia Fletcher
Mother of 5 year old twin growing up in TKA area.
