Subject: RE: Corrections for Herbal Outfitters, LLC License 10173 little more corrections needed
Date: Thursday, August 04, 2016 8:25:00 AM

Good morning;

Corrections were received and uploaded. Thank you!

Now, there is still some work to be done on the premises diagram and MJ-01. First, don't get discouraged, we go back and forth a few times on these things with almost every applicant, and retail is a little more confusing for all of them.

Our enforcement team needs to have a clear picture of what your retail marijuana establishment is going to look like when they come to your initial inspection.

Your diagram needs to clearly show what the overall licensed premises is going to be (no one under the age of 21 allowed in no way shape or form), within the licensed premises you need to show the Restricted Access Areas under 306.710 (areas where marijuana is grown, processed, tested, stored, or stocked) and under 306.325(c) the area(s) of the retail marijuana store's licensed premises where marijuana or any marijuana product is stocked for sale or dispensed for sale.

The diagram must be clearly labeled. The yellow area on your diagram does not tell us anything. If you are saying that your licensed premises is going to be what is within the black line, then make the inside very clear and show/label everything mentioned above.

On your MJ-03 you briefly described your establishment. Please show what you are describing in your diagram.

On your MJ-01 regarding the restricted access areas, you say that no visitors will be allowed, but what if you ever have someone that wants to come a visit (21 or older of course), what are you going to do then?

Lastly, I did not get a copy of the ad that was ran originally. Please provide me with a copy.

Thank you

AMCO Staff
