Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please download, complete, and submit with this form **only the pages** of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. All fields that are left blank will be considered unchanged from the existing operating plan. All fields that are completed and submitted with this form will be considered as changes to the existing operating plan and are subject to board approval. **Please do not submit any wholly unchanged pages of an operating plan.**

The form(s) that I am requesting board approval to change is:

- [ ] **Form MJ-01:** Marijuana Establishment Operating Plan
- [ ] **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- [x] **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- [ ] **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- [ ] **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Denali Dispensaries, LLC	**MJ License #:**		11413	
License Type:	Standard Marijuana Cultivation Facility				
Doing Business As:	Denali Dispensaries, LLC				
Premises Address:	4603 Pittman Rd				
City:	Wasilla	**State:**	Alaska	**ZIP:**	99623

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

Change to MJ-04 stating that we will not use C02 before Fire marshal approval. Also will be adding the use of liquid nutrients as in addition to our dry nutrients from our original plan. The size of our building has increased from 50x40 to 60x40 per our new premises via MJ-14. Even though our footprint of the building has increased the actual square footage of the premises has decreased due to the elimination of growing rooms on the second floor. These were eliminated off our plans due to what the fire marshal wanted us to have in order to build those rooms.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. BB

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. BB

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Signature of licensee

Form MJ-04: Marijuana Cultivation Facility

Section 2 – Prohibitions

Applicants should review 3 AAC 306.405 – 3 AAC 306.410 and be able to answer "Agree" to all items below.

The marijuana cultivation facility will not:

	Agree	Disagree
Sell, distribute, or transfer any marijuana or marijuana product to a consumer, with or without compensation	☑	☐
Allow any person, including a licensee, employee, or agent, to consume marijuana or marijuana product on its licenses premises or within 20 feet of the exterior of any building or outdoor cultivation facility	☑	☐
Treat or otherwise adulterate marijuna with any organic or nonorganic chemical or compound to alter the color, appearance, weight, or odor of the marijuana	☑	☐

Section 3 – Cultivation Plan

Review the requirements under 3 AAC 306.420, and identify how the proposed premises will meet the listed requirements.

Describe the size of the space(s) the marijuana cultivation facility intends to be under cultivation, including dimensions and overall square footage. Provide your calculations below:

Denali Dispensaries is going to utilize a 60X50 warehouse having a small upstairs area to get rougly 3370 sqft. The warehouse will be built into different sections for vegetative growth (approx. 420 sqft), flowering (approx. 1575 sqft), and curing (approx 100 sqft).

Operating Plan Supplemental

Form MJ-04: Marijuana Cultivation Facility

Describe the marijuana cultivation facility's growing medium(s) to be used:

Denali Dispensaries will be using a soil medium based growing method with no harmful chemicals or pesticides. The soil may contain perlite, vermiculite, worm castings, bark mulch, humidified compost and black gold or as mixed per factory recommendations.

Describe the marijuana cultivation facility's fertilizers, chemicals, gases, and delivery systems, including carbon dioxide management, to be used:

Denali Dispensaries will be using natural based fertilizers both solid and liquid may be used per factory recommendation. C02 will not be used until fire marshal approval. C02 will come from bottles are released through a C02 management system to control PPM in each room.

Describe the marijuana cultivation facility's irrigation and waste water systems to be used:

Denali Dispensaries will start with a hand watering system. This will be changed in the future when better methods are achieved. We do not anticipate any waste water because water is controlled by hand watering. There will be pans underneath the plants that will collect the excess water. Whatever water that will be in these pans will most likely evaporate or be used in houseplants that serve the purpose of using the excess water that does not evaporate.
