MEMORANDUM

TO: Chair and Members of the Board

DATE: June 13, 2018

FROM: Erika McConnell
Director, Marijuana Control Board

RE: Denali Dispensaries, LLC #11413

Denali Dispensaries, LLC, a standard marijuana cultivation facility, is requesting approval of amendment(s) to its operating plan. Attached is MJ-15 Operating Plan Change application, and current operating plan. Attached is also the approved MJ-14 in case is needed for reference.

DEC has noted that some fertilizers contain pesticides, a fact that is not always apparent to the user. AMCO is working with DEC on procedures whereby DEC staff in the Pesticide Control Program will review the fertilizers/chemicals section of cultivation facility operating plans to examine proposed pesticides and fertilizers. That said, the system is not yet in place and the proposed fertilizers/chemicals in this MJ-15 have not been reviewed by DEC.

I recommend the board approve this change with delegation and require the licensee to provide a specific list of fertilizers to be reviewed and approved by DEC.
