Current approved product(s).

This PDF document also includes the products that were approved with delegated corrections at the April 2018 meeting for which the licensee is requesting changes.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Glacier Caps		
Product Type:	Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	A viscous, light golden to light brown oil.
Ingredients: This box is not applicable to marijuana concentrates.	non-marijuana, food grade, plant based oil and CO2 concentrate oil
Standard Production Procedure and Detailed Manufacturing Process:	Glacier Extracts will be utilizing subcritical, & supercritical CO2 Extraction, methods in compliance with 3 AAC 306.555. The CO2 Extractor will be manufactured by Apeks i2000-5LD, (2000psi 5L supercritical extraction system) & will meet all local, state regulations Utilizing only 99% pure CO2, and certified by a licensed engineer, per 3 AAC 306.555. The CO2 extraction equipment will meet all local fire, & building code requirements. Combine batch of "food grade" CO2 oil, with measured amount of coconut oil, & lecithin granules. Place in a double boiler @ 165deg f, for two hours to complete infusion process. Then load oil into RoboCann capsule machine, & load try with empty capsules. Final product will be capsules containing no more than 5mg THC per 1ml of infused oil. Stored in a cold secure storage.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Received by AMCO 3.12.18

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Glacier Caps
Product Type:	Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Description: Push down & turn prescription vial. Color: Black Size: 16-Dram, Diameter = 1.25", Height = 2.87" Packaging Material: plastic Total Estimated THC per-package: 50mg Serving Quantity: 10 Serving Size: 1 capsule at 5mg
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	TO USE: XXXX Please enjoy responsibly. INGREDIENTS: XXXX 1 capsule = 1 serving / X g THC per serving Allergy Warning: Contains XXXX  Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children; Marijuana should not be used by women who are pregnant or breast feeding. Manufacturer: License #: Product Lot #: Pesticides / Fungicides / Herbicides: Testing Facility: Retailer: License #: Total THC: Total CBD: Net Weight: sample label wrap

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**		10828	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Gems		
Product Type:	Marijuana product (edible)		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	12 months

Received by AMCO 3.12.18

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Gems hard candy will be circular and small, each piece about 1/2" - 1" in diameter. Colors will vary based on fruit flavors. Glacier Gems will be very hard and consistent with hard candies (not chewy), and one candy will be a single serving. Candy mold will have the letters "THC" on each individual piece, so each individual piece of round hard candy will have "THC" permanently imprinted into it.
Ingredients: This box is not applicable to marijuana concentrates.	Powdered sugar, sugar, light corn syrup, water, white vinegar, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate), food coloring, fruit-flavored extracts
Standard Production Procedure and Detailed Manufacturing Process:	Mix & heat all ingredients. Pour into candy molds. Let cool, and when hard candy is set, remove from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Product Name:	Glacier Spa Body Salve		
Product Type:	Marijuana product (topical)		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Received by AMCO 3.12.18

Product approved with delegated corrections at April 2018 meeting

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Texture is like real butter. Fairly firm in its container, but melts into skin when held in hands & warmed by body heat, similar to butter. Color can be green to gold. Shape will take the form of the container.
Ingredients: This box is not applicable to marijuana concentrates.	Shea butter, apple cider vinegar, ground pasturized eggshells (optional), pure gum turpentine (pine tree sap), olive oil, infused coconut oil
Standard Production Procedure and Detailed Manufacturing Process:	Ensure all ingredients are well blended. Pour into product containers while warm (to ease pouring - product becomes more viscous when slightly warm).
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Entire container will contain no more than 5mg THC, so entire container will not be considered more than a single "serving" worth of THC. Since entire package will not exceed 5mg THC, no serving marks or delineations will be necessary. Packaging will be a small, round tin. A plastic shrink-wrap material will be placed around the edges of the lid, and tightened down, acting as a safety seal and a child-resistant barrier prior to opening.
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	TO USE: Rub salve on skin as needed. INGREDIENTS: Infused coconut oil, olive oil, shea butter, apple cider vinegar, egg shells, pure gum terpentine Glacier Extracts Glacier Spa Body Salve is for external use only. Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children; Marijuana should not be used by women who are pregnant or breast feeding. Received by AMCO 3.12.18

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Final massage oil product will be the consistency of vegetable oil at room temperature, slightly thicker to pour than water, but still certainly a liquid. Color will be clear to light yellow. Texture will be slick and oily. Shape will be the shape of the container.
Ingredients: This box is not applicable to marijuana concentrates.	Sweet almond oil, essential oils (eucalyptus, lavender, peppermint), marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate)
Standard Production Procedure and Detailed Manufacturing Process:	Marijuana concentrate will be emulsified (= extremely well mixed to avoid separation) with the other oils until fully combined and will not separate.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Massage oil will be packaged in a 4-oz glass bottle containing 10 servings. Each serving is 5mg THC or 0.4oz. All 10 servings will be packaged in the same bottle container, with specifically set visual line markers on the side of the bottle in order to clearly show servings. The entire bottle will be 4 liquid oz (50mg THC), with serving lines at each 0.4oz mark. There will be cellophane shrink-wrap plastic tightly surrounding the lid and the neck of the bottle as a child-resistant barrier prior to opening. *This bottle to be placed into fully opaque exit packaging by retailer*
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

What is this form?

This proposed new marijuana product form is required for a marijuana product manufacturing facility licensee who is seeking Marijuana Control Board (MCB) approval of a new marijuana product or marijuana concentrate for production at its licensed premises, as required under 3 AAC 306.100 and 3 AAC 306.525. **The required $250 proposed new marijuana product fee may be made by check, cashier's check, or money order.**

This form must be completed and submitted to AMCO's main office prior to production of any new marijuana product or marijuana concentrate. **The proposed new marijuana product may not be produced unless and until the MCB has approved of the product.**

Please note that licensees seeking approval of more than one proposed new marijuana product or marijuana concentrate must submit a separate completed copy of this form and pay a separate fee for each proposed new marijuana product or marijuana concentrate.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**		10828	
License Type:	Marijuana Product Manufacturing Facility				
Doing Business As:	Glacier Extracts				
Premises Address:	8639 Toloff Street				
City:	Anchorage	**State:**	Alaska	**ZIP:**	99507

Section 2 – Proposed Marijuana Concentrate or Marijuana Product

Enter information for the marijuana concentrate or the marijuana product for which you are seeking MCB approval.

Product Name:	Glacier Spa Foot Soak		
Product Type:	Marijuana product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	n/a

Received by AMCO 3.12.18

Product approved with delegated corrections at April 2018 meeting

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Color will be very light, discreet pastels. Texture will be like granules of sand or coarse ground salt. Shape will take the shape of the container.
Ingredients: This box is not applicable to marijuana concentrates.	epsom salt, infused coconut oil, salt, essential oils, food coloring
Standard Production Procedure and Detailed Manufacturing Process:	All ingredients will be slightly warmed (in order to mix better) and very well mixed.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Received by AMCO 3.12.18

Product approved with delegated corrections at April 2018 meeting

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 4 – Proposed Product Packaging and Sample Label

Enter information for the packaging and labeling of the marijuana product for which you are seeking MCB approval.

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.

Foot soak product will contain no more than 5mg of THC for the entire jar so no serving size marks are necessary because there will only be one "serving" per container. Product will be placed into a 4-oz glass jar (containing 5mg THC total). After adding foot soak product to the jar, a plastic shrink-wrap material will be placed around the top of the bottle opening, over the lid, and tightened down, acting as a safety seal and a child-resistant barrier prior to opening.

this container to be placed into fully opaque exit packaging by the retailer

Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.

TO USE: Draw a foot soak bath with warm water. Add your preferred amount of Glacier Spa Foot Soak to foot soak water and mix until dissolved. Soak tired feet & enjoy!

INGREDIENTS: Infused coconut oil, essential oils, epsom salt, salt, food coloring, baking soda

Glacier Extracts Glacier Spa Foot Soak is for external use only.

Marijuana has intoxicating effects and may be habit forming and addictive; Marijuana impairs concentration, coordination, and judgement. Do not operate a vehicle or machinery under its influence; There are health risks associated with consumption of marijuana. For use only by adults twenty-one and older. Keep out of the reach of children; Marijuana should not be used by women who are pregnant or breast feeding.

Product Type:	Marijuana product (edible)		
Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	3 months

Received by AMCO 3.16.18

Product approved with delegated corrections at April 2018 meeting

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Truffles will be in a variety of shapes, based on the mold used, but all a similar size, which is approximately 1" in diameter. The texture for each will be a hard chocolate shell filled with a softer, creamy center. Truffle exterior will either be artfully colorful (created through a simple combination of cocoa butter and food coloring) or will be brown in color if left the original chocolate color.
Ingredients: This box is not applicable to marijuana concentrates.	Infused butter, white chocolate, chocolate, cocoa powder, heavy cream, sugar, salt, coconut oil, cocoa butter, food coloring, flavor extracts (optional)
Standard Production Procedure and Detailed Manufacturing Process:	Combine infused butter and other filling ingredients over low heat to create filling. Line mold tray with any exterior decor and chocolate coating. Add truffle filling. Cap mold tray with layer of chocolate to seal in filling, then let tray set before tipping tray upside down & lightly tapping to remove truffles from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Perishable: Yes/No	Yes	**Shelf Life:** If perishable.	18 months

Received by AMCO 3.12.18

Alaska Marijuana Control Board

Form MJ-16: Proposed New Marijuana Product

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Final marijuana-infused coconut sugar product will be completely dry, like sand. Color will be green or golden. Shape will be consistent with sugar, conforming to the shape of its packet.
Ingredients: This box is not applicable to marijuana concentrates.	Marijuana, coconut sugar
Standard Production Procedure and Detailed Manufacturing Process:	Using low, but steady heat to decarboxylate the marijuana, blend with clear food-grade alcohol in order to release the cannabinoids from the plant into the liquid, then strain out plant materials. Blend strained mixture with sugar, then heat sugar until alcohol completely evaporates from mixture.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
