---

Hi Jane – attached is the revised MJ15 with delegation items applied – we also included the minute meetings for your convenience.

I also wanted to add a note to explain the reason we are requesting to remove the THC stamp on some of the edibles is because at the time the original MJ16 was submitted the team was doing some R&D with a small (non-commercial) mold that had the THC imprint.

After further research, once the products were approved, my client could not find a mold with the THC print that was commercial grade and that was not prohibitively expensive. The cheapest version was around $35K and given that the THC stamp is not a requirement in the regulations it just doesn't make business sense to expend that much monies for something that isn't required by regulations.

Please let us know if you need anything to complete this MJ15.

Thanks for your HARD WORK! You are a rock star and we appreciate you.

Jana

Subject: RE: #10828 Glacier Extracts MJ-15 Operating Plan Change

JDW team, this MJ-15 will not be ready for the June meeting because there is not enough time for me to decipher April's new product's delegation and compare it to the changes you are making.

Jane

Subject: #10828 Glacier Extracts MJ-15 Operating Plan Change

Good Afternoon,

Please find attached an operating plan change request for Glacier Extracts.

Please let us know if anything further is needed in order to schedule this request for the June MCB meeting agenda.

Thank you,

Tina Thibodeaux

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

What is this form?

This operating plan change form is required for all marijuana establishment licensees seeking to change a licensed marijuana establishment's existing operating plan, as required by 3 AAC 306.100. With this form, a licensee may request changes to as much or as little as desired of Form MJ-01 and/or the corresponding operating plan supplemental for the establishment's license type. **The required $250 change fee may be made by check, cashier's check, or money order.**

Please download, complete, and submit with this form **only the pages** of Form MJ-01 and/or the corresponding operating plan supplemental that contain sections that you are requesting to change. All fields that are left blank will be considered unchanged from the existing operating plan. All fields that are completed and submitted with this form will be considered as changes to the existing operating plan and are subject to board approval. **Please do not submit any wholly unchanged pages of an operating plan.**

The form(s) that I am requesting board approval to change is:

- ☐ **Form MJ-01:** Marijuana Establishment Operating Plan
- ☐ **Form MJ-03:** Retail Marijuana Store Operating Plan Supplemental
- ☐ **Form MJ-04:** Marijuana Cultivation Facility Operating Plan Supplemental
- ☑ **Form MJ-05:** Marijuana Product Manufacturing Facility Operating Plan Supplemental
- ☐ **Form MJ-06:** Marijuana Testing Facility Operating Plan Supplemental

This form must be completed and submitted to AMCO's main office prior to changing existing operations. The licensed establishment's operations may not be altered unless and until the director has given temporary approval or the Marijuana Control Board (MCB) has given final approval of the changes. Please note that licensees seeking to change operating plans for multiple licenses must submit a separate completed copy of this form for each license.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Glacier Extracts, LLC	**MJ License #:**		10828

Alaska Marijuana Control Board

Form MJ-15: Operating Plan Change

Section 2 – Summary of Changes

Provide a summary of the changes for which you are requesting approval.

The following products are to be amended as indicated below and attached:
-Glacier Caps will be available in various MG dosages.
-Glacier Gems - Glacier Extracts will be removing the permanently pressed "THC" imprint, by utilizing a mold without the "THC" imprint. Shape of the candies is being changed from circular to square and CBD oil is being added as an optional ingredient.
-Glacier Gummies - Glacier Extracts will be removing the permanently pressed "THC" imprint, by utilizing a mold without the "THC" imprint. The shape of the gummies is being changed from circular to square and CBD oil is being added as an optional ingredient.
-Glacier Mints - Glacier Extracts will be removing the permanently pressed "THC" imprint, by utilizing a mold without the "THC" imprint. Shape of the mints is being changed from circular to square and CBD oil is being added as an optional ingredient.
-Glacier Spa Bath Bomb - the THC content is being changed from 5mg THC per "bomb" to three options: 20, 50 or 100mg THC per "bomb" and marijuana concentrate is being added as an optional ingredient. The statement "Not for oral consumption or inhalation is also being added to the label per the MCB meeting delegation.
-Glacier Spa Body Salve - the THC content is being changed from 5mg THC per tin to three options: 50, 100 or 300mg THC per tin and marijuana concentrate is being added as an optional ingredient. A top label stating "Contains THC* is being added per MCB delegation.
-Glacier Spa Massage Oil - the THC content is being changed from 5mg THC to three options: 50, 100 or 300mg THC.
-Glacier Spa Foot Soak - the THC content is being changed from 5mg THC to three options: 50, 100 or 300mg THC and marijuana concentrate is being added as an optional ingredient. The statement "Not for oral consumption or inhalation is also being added to the label per the MCB meeting delegation.
Koda Bar - at the MCB meeting in Nome 2018, this product was modified by the MCB to include the THC stamp, it was not originally presented in the MJ16 as having a stamp - and therefore we request that delegation condition be lifted. We did not include the Koda Bar in this MJ15 as there would be nothing to amend from the previously submitted MJ16.
-Glacier Coconut Sugar - marijuana concentrate is being added as an optional ingredient.
-Koda Truffles - marijuana concentrate and CBD oil are being added as optional ingredients. Infused butter in the ingredient list is revised to include "cannabis" per MCB delegation.
-Glacier Caps - CBD oil is being added as an optional ingredient.
-MJ Elixir - CBD oil is being added as an optional ingredient.
-Koda Bar - CBD oil is being added as an optional ingredient.

Section 3 – Declarations

Read each statement below, and then sign your initials in the corresponding box to the right: Initials

The proposed changes conform to all applicable public health, fire, and safety laws. [ ]

I understand that any temporary approval granted by the director is pending a final decision by the MCB; therefore, any investment I make, based upon temporary approval, is at my own risk. [ ]

As a marijuana establishment licensee, I declare under penalty of unsworn falsification that this form, including all accompanying schedules and statements, is true, correct, and complete.

Section 6 – Proposed Marijuana Concentrates and Marijuana Products

Review the requirements under 3 AAC 306.520, 3 AAC 306.525, and 3 AAC 306.560.
Attach a completed copy of this page for each proposed marijuana concentrate or marijuana product.

Product Name:	Glacier Caps		
Product Type:	Marijuana Product		
Perishable: Yes/No	No	**Shelf Life:** If perishable.	

Product Description: Details must include the color, shape, and texture.	A viscous, light golden to light brown oil.
Ingredients: This box is not applicable to marijuana concentrates.	non-marijuana, food grade, plant based oil and CO2 concentrate oil (either Glacier Extracts approved Product "Glacier Goo"(CO2 concentrate oil), Glacier Extracts approved product "Glacier Vape Pen Oil" (CO2 concentrate oil), or another locally sourced, lab tested and MCB approved marijuana concentrate) optional CBD oil.
Standard Production Procedure and Detailed Manufacturing Process:	Glacier Extracts will be utilizing subcritical, & supercritical CO2 Extraction, methods in compliance with 3 AAC 306.555. The CO2 Extractor will be manufactured by Apeks i2000-5LD, (2000psi 5L supercritical extraction system) & will meet all local, state regulations Utilizing only 99% pure CO2, and certified by a licensed engineer, per 3 AAC 306.555. The CO2 extraction equipment will meet all local fire, & building code requirements. Combine batch of "food grade" CO2 oil, with measured amount of coconut oil, & lecithin granules. Place in a double boiler @ 165deg f, for two hours to complete infusion process. Then load oil into RoboCann capsule machine, & load try with empty capsules. Final product will be capsules containing no more than 5mg THC per 1ml of infused oil. Stored in a cold secure storage.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Received by AMCO 5.24.18

Section 7 – Proposed Product Packaging and Sample Labels

Review the requirements under 3 AAC 306.520, 3 AAC 306.565, and 3 AAC 306.570.
Attach a completed copy of this page for <u>each</u> proposed marijuana concentrate or marijuana product.

Product Name:	Glacier Caps
Product Type:	Marijuana Product

Packaging Description: Details must include the color(s), size, packaging materials used, total amount of THC, individual serving sizes (if multiple), and other specifics showing compliance with 3 AAC 306.565. Please include photos, drawings, or graphic representations.	Description: Push down & turn prescription vial. Color: Black Size: 16-Dram, Diameter = 1.25", Height = 2.87" Packaging Material: plastic Four package options will be available: 1, 2, 3.5 or 5mg THC per cap Each vial will contain 10 servings not to exceed 50mg THC per package. Serving Size: 1 capsule
Sample Labels: Provide sample labels showing how the labeling requirements set forth in 3 AAC 306.570 will be met.	 TO USE: XXXX Please enjoy responsibly. Form MJ-16: Proposed New Marijuana Product

Glacier Gems

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Gems hard candy will be square and small, each piece about 1/2" -1". Colors will vary based on fruit flavors. Glacier Gems will be very hard and consistent with hard candies (not chewy), and one candy will be a single serving.
Ingredients: This box is not applicable to marijuana concentrates.	Powdered sugar, sugar, light corn syrup, water, white vinegar, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate), optional CBD oil, food coloring, fruit-flavored extracts
Standard Production Procedure and Detailed Manufacturing Process:	Mix & heat all ingredients. Pour into candy molds. Let cool, and when hard candy is set, remove from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Glacier Gummies

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Glacier Gummies will be square and small, each piece about 1/2" - 1". Colors will vary based on fruit flavors. Glacier Gummies will be chewy, and one gummy will be a single serving.
Ingredients: This box is not applicable to marijuana concentrates.	Powdered gelatin, citric acid, corn syrup, marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate), optional CBD oil, water, sugar, fruit juice, fruit-flavored extracts, oil cooking spray
Standard Production Procedure and Detailed Manufacturing Process:	Slowly add gummy ingredients. Combine all, mixing gently but consistently while adding heat. Remove from heat, and pour mixture into pre-greased molds. Let mold trays cool before attempting to remove gummies from tray.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.	

Form MJ-16: Proposed New Marijuana Product

Glacier Mints

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Mints will be small and square, about .5-1”. Texture will be hard, like hard candy. Mints will be cloudy or clear white in color.
Ingredients: This box is not applicable to marijuana concentrates.	Powdered sugar, sugar, light corn syrup, water, white vinegar (optional), marijuana concentrate (either Glacier Extracts approved product Glacier Goo [concentrate CO2 oil], Glacier Extracts approved product Glacier Vape Pen Oil [concentrate CO2 oil], or another locally-sourced, lab-tested AMCO-approved manufacturer's marijuana concentrate), optional CBD oil, peppermint oil
Standard Production Procedure and Detailed Manufacturing Process:	Mix & heat all ingredients. Pour into mint candy molds. Let cool, and when mints are set, remove from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Glacier Spa Bath Bomb

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Bath bomb will be considered a single-serving product, since entire "bomb" is used at once in the bathtub. Color will be very light pastel colors. Final product will be fairly hard, but will dissolve in warm water. Product will be similar texture to chalk and have a matte finish. Shape will be a round ball.
Ingredients: This box is not applicable to marijuana concentrates.	Infused coconut oil, epsom salt, essential oils, food coloring, water, baking soda, citric acid (optional) Optional ingredient: marijuana concentrate (either Glacier Extracts approved Product "Glacier Goo"(CO2 concentrate oil), Glacier Extracts approved product "Glacier Vape Pen Oil" (CO2 concentrate oil), or another locally sourced, lab tested and MCB approved marijuana concentrate)
Standard Production Procedure and Detailed Manufacturing Process:	Mix ingredients together, then press well into a mold. Once set, remove from mold. Store in a low humidity environment.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Glacier Coconut Sugar

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Final marijuana-infused coconut sugar product will be completely dry, like sand. Color will be green or golden. Shape will be consistent with sugar, conforming to the shape of its packet.
Ingredients: This box is not applicable to marijuana concentrates.	Marijuana, coconut sugar Optional ingredient: marijuana concentrate (either Glacier Extracts approved Product "Glacier Goo"(CO2 concentrate oil), Glacier Extracts approved product "Glacier Vape Pen Oil" (CO2 concentrate oil), or another locally sourced, lab tested and MCB approved marijuana concentrate)
Standard Production Procedure and Detailed Manufacturing Process:	Using low, but steady heat to decarboxylate the marijuana, blend with clear food-grade alcohol in order to release the cannabinoids from the plant into the liquid, then strain out plant materials. Blend strained mixture with sugar, then heat sugar until alcohol completely evaporates from mixture.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.

Form MJ-16: Proposed New Marijuana Product

Koda Truffles

Section 3 – Proposed Product Details

Enter information for the marijuana product for which you are seeking MCB approval.

Product Description: Details must include the color, shape, and texture.	Truffles will be in a variety of shapes, based on the mold used, but all a similar size, which is approximately 1-1.5" in diameter. The texture for each will be a hard chocolate shell filled with a softer, creamy center. Truffle exterior will either be artfully colorful (created through a simple combination of cocoa butter and food coloring) or will be brown in color if left the original chocolate color.
Ingredients: This box is not applicable to marijuana concentrates.	Cannabis Infused butter, white chocolate, chocolate, cocoa powder, heavy cream, sugar, salt, coconut oil, cocoa butter, food coloring, flavor extracts (optional) Optional ingredient: marijuana concentrate (either Glacier Extracts approved Product "Glacier Goo"(CO2 concentrate oil), Glacier Extracts approved product "Glacier Vape Pen Oil" (CO2 concentrate oil), or another locally sourced, lab tested and MCB approved marijuana concentrate), optional CBD oil
Standard Production Procedure and Detailed Manufacturing Process:	Combine infused butter and other filling ingredients over low heat to create filling. Line mold tray with any exterior decor and chocolate coating. Add truffle filling. Cap mold tray with layer of chocolate to seal in filling, then let tray set before tipping tray upside down & lightly tapping to remove truffles from mold.
Depiction: Provide a photograph, drawing, or graphic representation of the expected appearance of the final product.
