Attachments:	12964- OPERATING AGREEMENT FOR WESTFRONT ANDREW LLC- FAIRDANKS CANNABIS.pdf

---

Vivian,

I reviewed the corrections. The LLC's operating agreement was pretty much not filled out. I need a completed, to include signature, operating agreement for West Front Andrew, LLC. This is the last thing I need.

This email does not extend the 90-day deadline to complete the application.

Thank you
Jane

8. MJ-07
9. MJ-08
10. Operating Agreement for West Front Andrew LLC
11. PFD Information for Buik Hong
12. Proof of Ownership

1
3
. Quitclaim Deed for West Front Andrew LLC

Below, please find your comments in red, and our corrections in black for MJ-01, in reference to our last email.

Page 11- I just want to make sure that Buik understands that licensee/employee/agents must have a marijuana handler's card that is issued by our office. Yes, they need to do the class from which they receive a certificate but then they need to submit it to our office in order to obtain the marijuana handler's permit. Please have Buik make a note that he understands that in this box.

FAIRDANKS CANNABIS employees must have the required certifications in marijuana handling, which will be sent to AMCO, if approved they will receive their marijuana handler's permit. All employees will renew their certifications and permits yearly through a continuing education and state approved training requirement. All records of employees will be kept on and off site. Failure to comply will result in termination of employment. In addition, FAIRDANKS CANNABIS will receive the retail marijuana store's training.

Page 12 & 13- the 3-day notice to our office regarding marijuana or marijuana product waste before it is rendered unusable and disposed of must be given in writing by email to our enforcement section as Metrc does not have that function. Please amend that section of the answers to these pages to reflect it.

FAIRDANKS CANANBIS will give the Enforcement Board of AMCO at least 3 days notice via email prior to making waste unusable and disposing of it. Marijuana solid waste will be weighed on the industrial scale is pursuant to 3 AAC 306.745 and waste will be ground up using a grinder which will then be mixed with equal parts compostable material waste. Once the marijuana is ground up and combined with a material to make it unusable, it will be in placed in a closed, pest-resistant garbage bag and will be stored in restricted access area until its disposable at the end of each business day.

Page 15, second box: retail marijuana stores are not allowed to transport marijuana or marijuana products to another licensed marijuana establishment other than another retail marijuana store. Please correct that section of this page.

Pursuant to 3 AAC 306.750, FAIRDANKS CANNABIS may transport marijuana or a marijuana product to another retail marijuana store. In doing so, FAIRDANKS CANNABIS shall ensure that:

Products destined for transport will be packaged in an opaque container, limited to five pounds per package, with tamper evident seal. A complete printed transport manifest will be kept with marijuana at all times. METRC will be used to record the type, amount, weight of marijuana product being transported, name of transporter, time of departure and expected delivery, the make, model, and license plate number for transporting vehicle. In the event cannabis products need to be transported off premises, marijuana will be stored in a lockable compartment of the vehicle where it will remain until arrival at another retail marijuana store. Only authorized FAIRDANKS CANNABIS employees will have the key to the lock of the safe in the transport vehicle.

The transporting vehicle will travel directly to destination. The recipients will only include licensed marijuana retail locations. A signature, printed name,marijuana handler permit number, and time of arrival will be required from the receiving party before any transfers can be deemed complete.

Page 16, the sign on the plaza's listing of stores is not allowed. All signs with the business name of it or logos must be attached to the premises. Please remove that from this page.

FAIRDANKS CANNABIS will have two signs with its name. The first sign will be at the top of the front entrance of the store; it will be 2' x 10'. The second sign will be 5'11" x 4'10" on the store-front window. Neither of these signs will exceed 4,800 square feet.

Thank you;
yours sincerely,
Vivian Hong
