Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

What is this form?

An operating plan is required for all marijuana establishment license applications. Applicants should review **Title 17.38** of **Alaska Statutes** and **Chapter 306** of the **Alaska Administrative Code.** This form will be used to document how an applicant intends to meet the requirements of those statutes and regulations. If your business has a formal operating plan, you may include a copy of that operating plan with your application, but all fields of this form must still be completed per 3 AAC 306.020(c).

What must be covered in an operating plan?

Applicants must identify how the proposed premises will comply with applicable statutes and regulations regarding the following:

- ☑ Security
- ☑ Inventory tracking of all marijuana and marijuana product on the premises
- ☑ Employee qualification and training
- ☑ Waste disposal
- ☑ Transportation and delivery of marijuana and marijuana products
- ☑ Signage and advertising
- ☑ Control plan for persons under the age of 21

Applicants must also complete the corresponding operating plan supplemental forms (**Form MJ-03, Form MJ-04, Form MJ-05,** or **Form MJ-06)** to meet the additional operating plan requirements for each license type.

Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Section 2 – Security

Review the requirements under 3 AAC 306.710 – 3 AAC 306.720 and 3 AAC 306.755, and identify how the proposed premises will meet the listed requirements.

Describe how the proposed premises will comply with each of the following:

Restricted Access Areas (3 AAC 306.710):

Describe how you will prevent unescorted members of the public from entering restricted access areas:

No persons under 21 years of age will be allowed on the premises of our cultivation facility; there will be no exceptions to this rule. The doors and gates to the facility will remain locked whether occupied by an employee/licensee or vacant. No visitors under 21 will be allowed access into this cultivation facility. Exception to this rule: AMCO Board members, inspectors, law enforcement or possible prospective retail clients or other individuals necessary for us to comply with all state and local regulations. Each visitor to this facility regardless of their authority will be required to produce a valid from of photographic identification in the form of an unexpired, unaltered passport, an unexpired, unaltered driver's license, instruction permit, or identification card of any state or territory of the United States, the District of Columbia, or a province or territory of Canada or an identification card issued by a federal or state agency authorized to issue a driver's license or identification card.

Night Security will be on-site to ensure all property is secure and will have immediate access to activate alarm and/or law enforcement officials in case of trespassing or emergency.

Describe your processes for admitting visitors into and escorting them through restricted access areas:

All visitors must make arrangements prior to visiting the facility excluding any surprise visits from the AMCO board members or law enforcement and officials, with a minimum of a two-hour notice. There is a limit of no more than five (5) visitors per licensee, employee, or agent of the licensee. Per 3 AAC 306.710, before being allowed into the restricted access areas, each visitor will produce a valid form of photographic identification in the form of an unexpired, unaltered passport, an unexpired, unaltered driver's license, instruction permit, or identification card of any State or Territory of the United States, the District of Columbia, or a Province or Territory of Canada or an identification card issued by a federal or state agency authorized to issue a driver's license or identification card. Visitors badges will be provided and must be completed by each visitor and will be adhered to each individual as they sign in on the mandatory sign in sheet once entering the clean room/decontamination room. Information that will need to be included by visitors include: visitor's name, address, phone number, date and time of entry and date of birth before being allowed into any "Restricted Access" areas. Each visitor will be within sight and sound of the person designated as their escort at all times during the visit.

Form MJ-01: Marijuana Establishment Operating Plan

Security Alarm Systems and Lock Standards (3 AAC 306.715):

Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Motion detection lights will illuminate the driveway leading to the facility, on the facility itself in addition to the later installed proposed fence and gate will be set to detect within 40 feet of the cultivation facility on all corners of the structure. The lights are activated and remain illuminated as long as there is movement. In addition, the cameras used both inside and outside of the facility are infrared and record clear images regardless of the amount of light in case of some sort of malfunction, the cameras and lights will be each other's back up system. Night Security will be on-site to ensure all property is secure and will have immediate access to activate alarm and/or law enforcement officials.

An alarm system is required for all license types. Describe the security alarm system for the proposed premises:

Motion detection alarms will be set on all windows and doors of the cultivation facility. These alarms and the camera system will run continuously 24 hours a day, 7-days a week. Motion detecting devices will also be set up at separate locations within the facility that can be activated manually by licensee or employee. When activated these alarms will send email, text alerts will be generated automatically and sent via WIFI to the owner(s) or designees who then open the app on their smart phones to view activity being detected. Security Cameras will be in place and the recordings can be viewed remotely or on site at any time. Night Security will be on-site to ensure all property is secure and will have immediate access to activate alarm and/or law enforcement officials.

The alarm system must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe how the security alarm system meets this requirement:

This cultivation facility will not open their doors for business to the general public and is strictly for commercial business only. The 50 Shades of Green, LLC cultivation facility will have motion detection alarms on all windows and doors. Activation is set to detect movement or opening and will automatically activate. Night Security will be on-site to ensure all property is secure and will have immediate contact with law enforcement officials. All alarm systems and video systems are operating and recording 24 hours a day, 7-days a week. 50 Shades of Green, LLC employees when in the facility can activate alarms manually, these alarms can be manually de-activated if necessary. Upon de-activation all doors will remain locked within the "Restricted Access" areas of the facility to secure our marijuana product inventory. No one will have access to the physical property without the knowledge of the owner or licensee.

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

Describe your policies and procedures for preventing diversion of marijuana or marijuana product:

The 50 Shades of Green, LLC cultivation facility will not be open to the public, with the exception of: AMCO Board members, inspectors, law enforcement, or possible prospective retail clients or other individuals necessary for us to comply with state and local regulations. This facility will remain locked 24 hours a day, 7-days a week. The physical property and facility are under guard of motion detecting devices and video surveillance in addition to a physical security personnel presence 24 hours per day . Located within the facility will be designated locked storage areas to secure our marijuana product inventory and divert any individual from any unmonitored access to products. In addition no one person employee or otherwise, will be alone at any time in the facility, it is required by 50 Shades of Green LLC that the buddy system be utilized at all time and no one individual will have access to the physical property without the knowledge of the owner or licensee and a on site physical security personnel will be monitoring the property and facility in prevention of any diversion employee or otherwise.

Describe your policies and procedures for preventing loitering:

The 50 Shades of Green, LLC cultivation facility is located right off the Parks Highway in a business district and regularly patrolled by the Alaska State Troopers. A surrounding fence, when complete, will be 6 ft. high with 3 rows of barbed wire located at the top. The gate will be locked at all times and be under strict 24 hour, 7-days a week detection by the physical on-site security personnel to prevent any uninvited or authorized persons from entering the property in addition to movement detection video surveillance as well as Restricted Access Signs and No Loitering Signs posted visible to the public.

Describe your policies and procedures regarding the use of any additional security device, such as a motion detector, pressure switch, and duress, panic, or hold-up alarm to enhance security of the proposed premises:

This facility and surrounding property including gate entrances when complete will be under strict motion detection video surveillance. Motion detecting devices will also be installed at separate locations outside the facility that can be activated manually by licensee or employees (i.e. toggle switch or flip switch). When activated these the motion detection cameras will send email, text alerts automatically and sent via WIFI to the owner or designee. Security cameras will be in place and will record all motion activity with access viewed remotely or on site at any time. 24 hour physical security personnel will ensure all property is secure and will have immediate access to activate alarm and or law enforcement officials.

Section 3 – Inventory Tracking of All Marijuana and Marijuana Product

Review the requirements under 3 AAC 306.730, and identify how the proposed establishment will meet the listed requirements.

All licensed marijuana establishments must use a marijuana inventory tracking system capable of sharing information with the system the board implements to ensure all marijuana cultivated and sold in the state, and each marijuana product processed and sold in the state, is identified and tracked from the time the marijuana propagated from seed or cutting, through transfer to another licensed marijuana establishment, or use in manufacturing a product, to a completed sale of marijuana or marijuana product, or disposal of the harvest batch of marijuana or production lot of marijuana product.

Applicants should be able to answer "Yes" to all items below.

Marijuana Tracking and Weighing:	Yes	No
A marijuana inventory tracking system, capable of sharing information with the system the board implements to ensure tracking for the reasons listed above, will be used	☑	☐
All marijuana delivered to a marijuana establishment will be weighed on a scale certified in compliance with 3 AAC 306.745	☑	☐

Describe the marijuana tracking system that you plan to use and how you will ensure that it is capable of sharing information with the system the board implements:

The 50 Shades of Green, LLC cultivation facility will be using the METRC tracking system per the State of Alaska. A number and RDIF will be assigned via a tagging system for all plants within the facility that are 8" or taller in order to maintain identification and tracking from the time of propagation to time of transportation to another marijuana facility for the sale of the product or is forced to be destroyed, this is in compliance with 3 AAC 306.435 and 3 AAC 306.730. In order to assure full compliance, Franwells Marijuana Enforcement Tracking Reporting Compliance (METRC) Software Program will be used in this cultivation facility to track and manage all plants from seed to end product, we will be able to track transportation and final destination of our product and label the transportation manifest as well.

Section 4 – Employee Qualification and Training

Review the requirements under 3 AAC 306.700, and identify how the proposed establishment will meet the listed requirements.

A marijuana establishment and each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or a marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at a marijuana establishment.

Applicants should be able to answer "Yes" to all items below.

Marijuana Hander Permit:	Yes	No
Each licensee, employee, or agent of the marijuana establishment who sells, cultivates, manufactures, tests, or transports marijuana or marijuana product, or who checks the identification of a consumer or visitor, shall obtain a marijuana handler permit from the board before being licensed or beginning employment at the marijuana establishment	☑	☐
Each licensee, employee, or agent who is required to have a marijuana handler permit shall keep that person's marijuana handler permit card in that person's immediate possession (or a valid copy on file on the premises of a retail marijuana store, marijuana cultivation facility, or marijuana product manufacturing facility) when on the licensed premises	☑	☐
Each licensee, employee, or agent who is required to have a marijuana handler permit shall ensure that that person's marijuana handler permit card is valid and has not expired	☑	☐

Describe how your establishment will meet the requirements for employee qualifications and training:

The 50 Shades of Green, LLC will require for all bodies entering onto the facility property lines unless pre-announced visitor including but not limited to the licensees, employees, agents and, anyone that cultivates, sells, transports, or checks ID of visitors to the premises to have completed and obtained a marijuana handlers permit (MHP) in compliance with 3 AAC 306.700. The 50 Shades of Green, LLC has a website that will provide information and requirements according to 3 AAC 306.700. This will provide any persons seeking employment in the marijuana industry to obtain their marijuana handlers permit. The MHP will be worn or displayed on their person at all times when on the physical property of this cultivation facility or transporting marijuana or marijuana products. An employee handbook will be provided to each employee upon hiring with a signed acknowledgement by them that it has be received.

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

Section 5 – Waste Disposal

Review the requirements under 3 AAC 306.740, and identify how the proposed establishment will meet the listed requirements.

Applicants should be able to answer "Yes" to the statement below.

Marijuana Waste Disposal:	Yes	No
The marijuana establishment shall give the board at least 3 days notice in the marijuana inventory tracking system required under 3 AAC 306.730 before making the waste unusable and disposing of it	☒	☐

Describe how you will store, manage, and dispose of any solid or liquid waste, including wastewater generated during marijuana cultivation, production, process, testing, or retail sales, in compliance with applicable federal, state, and local laws and regulations:

The proposed plan for disposal is that all: stalks, stems, leafage and cuttings be processed and sold to manufacturing facilities as per state of Alaska regulations in full view of camera surveillance to licensed manufacturing facilities for retail processing. Three days prior to disposal of marijuana waste including: roots, stalks, leaves, stems and expired or returned marijuana samples, and any existing wastewater if any, 50 Shades of Green, LLC will keep all waste listed, in a 55 gallon drum or waste bin with lid and proceed to notify the board of the intention to render all of it unusable, after the three days waiting time the waste will be ground and mixed with our own living soil compost and nutrient enriched worm castings for use in our cultivation tables and our employee outdoor garden with a maximum of 90/10 mixture of living soil while awaiting notification to the state via the inventory tracking system in compliance with 3 AAC 306.740. The 50 Shades of Green, LLC cultivation facility will be using only natural nutrients in our living soil. No harmful chemicals will be used at our facility for any purpose.

Describe what material or materials you will mix with the ground marijuana waste to make it unusable:

Our goal is to create living soil through composting our waste products. We propose that this facilities waste product will consist of root balls, which will be cut up for use in our living soil. This soil will then be used in our outdoor employee garden. It is through the natural philosophy of permaculture methods that this facility holds in high regards. ingredients used for living soil compost: this is a small list of ingredients from the brown/green list necessary to produce healthy, living soil that will be used solely for our cultivation and outdoor employee garden, grown in accordance with permaculture methods.
nutrient enriched worm castings, nutrient enriched root balls from marijuana plants, natural material: coffee grounds, eggshells, fruit/vegetable peelings, newspaper, cardboard, shredded paper, outdoor: leaves, grass cuttings, hay, wood chips, sawdust, natural compost tea created using vermiculture methods

Section 6 – Transportation and Delivery of Marijuana and Marijuana Products

Review the requirements under 3 AAC 306.750, and identify how the proposed establishment will meet the listed requirements.

Applicants should be able to answer "Yes" to all items below.

Marijuana Transportation:	Yes	No
The marijuana establishment from which a shipment of marijuana or marijuana product originates will ensure that any individual transporting marijuana shall have a marijuana handler permit required under 3 AAC 306.700	☒	☐
The marijuana establishment that originates the transport of any marijuana or marijuana product will use the marijuana inventory tracking system to record the type, amount, and weight of marijuana or marijuana product being transported, the name of the transporter, the time of departure and expected delivery, and the make, model, and license plate number of the transporting vehicle	☒	☐
The marijuana establishment that originates the transport of any marijuana or marijuana product will ensure that a complete printed transport manifest on a form prescribed by the board must be kept with the marijuana or marijuana product at all times during transport	☒	☐
During transport, any marijuana or marijuana product will be in a sealed package or container in a locked, safe, and secure storage compartment in the vehicle transporting the marijuana or marijuana product, and the sealed package will not be opened during transport	☒	☐
Any vehicle transporting marijuana or marijuana product will travel directly from the shipping marijuana establishment to the receiving marijuana establishment, and will not make any unnecessary stops in between except to deliver or pick up marijuana or marijuana product at any other licensed marijuana establishment	☒	☐
When the marijuana establishment receives marijuana or marijuana product from another licensed marijuana establishment, the recipient of the shipment will use the marijuana inventory tracking system to report the type, amount, and weight of marijuana or marijuana product received	☒	☐
The marijuana establishment will refuse to accept any shipment of marijuana or marijuana product that is not accompanied by the transport manifest	☒	☐

Alaska Marijuana Control Board

Form MJ-01: Marijuana Establishment Operating Plan

Describe how marijuana or marijuana product will be prepared, packaged, and secured for shipment:

Marijuana bud and flower produced at 50 Shades of Green, LLC cultivation facility will be processed on-site in our facility. Product will be packaged for wholesale in sealed packages not to exceed five (5) pounds for re-packaging by the retail facility or in a package not to exceed one ounce for resale to a consumer without additional handling by a retail marijuana store. Wholesale packages not to exceed five (5) pounds may be labeled as to whether contents are a single strain or a mixture of strains and sold to manufacturing facilities or retail stores. The packaging will not have any printed images, including cartoon characters that specifically target individuals under the age of 21. The food grade packaging will protect the product from contamination and will not impart any toxic or damaging substance to the marijuana. Each package prepared in compliance with 3 AAC 306.470 will be identified by a tracking label generated by METRC, the state's inventory tracking system. The labeled package will then be placed in a sealed, tamper-evident shipping container labeled in compliance with 3 AAC 306.475. Attached to the container will be a manifest from our inventory tracking system and will remain with the marijuana at all times. A copy of the manifest will be given to the licensed establishment that receives the shipment. The sealed container will then be placed into the locked storage compartment attached to the transport vehicle.

Describe the type of locked, safe, and secure storage compartments that will be used in any vehicles transporting marijuana or marijuana product:

The 50 Shades of Green, LLC is the owner of a 2005 Dodge Ram 1500 4x4 truck. This truck is fitted with a heavy duty, locked, waterproof, stainless steel "Jobox". The Jobox is mounted in the bed of the 2005 Dodge Ram 1500 4x4. The Jobox cannot be opened without a key and the Jobox cannot be lifted from the bed of the truck as it is securely bolted to the bed from the inside of the container. All marijuana products will be placed in sealed containers and inside the locked Jobox. Our transportation truck is equipped with the highest available security system with GPS tracking and mobile alerts to the company office when the vehicle goes off route, starts, stops, and if speeding should occurs. Our transport driver will have a specified route to all existing legal marijuana facilities that we do business with. Diversions from the designated route will not be allowed, stops once in route will not be allowed "to or from" a legal marijuana facility once marijuana product is located in the vehicle.

Form MJ-01: Marijuana Establishment Operating Plan

Section 7 – Signage and Advertising

Describe any signs that you intend to post on your establishment with your business name, including quantity and dimensions:

There will be no signs posted on our facility in order to deter any unwanted loitering. Advertisement of the facility is not a safe route for our company to take therefore we will not be advertising our facility.

If you are not applying for a retail marijuana store license, you do not need to complete the rest of Section 7, including Page 17.

Restriction on advertising of marijuana and marijuana products (3 AAC 306.360):

All licensed retail marijuana stores must meet minimum standards for signage and advertising.

Applicants should be able to answer "Agree" to all items below.

No advertisement for marijuana or marijuana product will contain any statement or illustration that:	Agree	Disagree
Is false or misleading	☒	☐
Promotes excessive consumption	☒	☐
Represents that the use of marijuana has curative or therapeutic effects	☒	☐
Depicts a person under the age of 21 consuming marijuana	☒	☐
Includes an object or character, including a toy, a cartoon character, or any other depiction designed to appeal to a child or other person under the age of 21, that promotes consumption of marijuana	☒	☐

Form MJ-01: Marijuana Establishment Operating Plan

Section 8 – Control Plan for Persons Under the Age of 21

Describe how the marijuana establishment will prevent persons under the age of 21 from gaining access to any portion of the licensed premises and marijuana items:

No persons under 21 years of age will be allowed on the premises of our cultivation facility; there will be no modifying this rule. The doors and gates to the facility will remain locked whether occupied by an employee/licensee or vacant. Exception to this rule: AMCO Board members, inspectors, law enforcement or other individuals necessary for us to comply with all state and local regulations. Each visitor to this facility regardless of their authority will be required to produce a valid from of photographic identification in the form of an unexpired, unaltered passport, an unexpired, unaltered driver's license, instruction permit, or identification card of any State or Territory of the United States, the District of Columbia, or a Province or Territory of Canada or an identification card issued by a federal or state agency authorized to issue a driver's license or identification card.

Night Security will be on-site to ensure all property is secure and will have immediate access to activate alarm and/or law enforcement officials in case of trespassing or emergency.

I declare under penalty of perjury that I have examined this form, including all accompanying schedules and statements, and to the best of my knowledge and belief find it to be true, correct, and complete.
