Hello, Theo,

I have reviewed your corrections. It is still incomplete for the reasons I will outline below. This email does not extend the 90-day deadline you have to get this application deemed complete as outlined in the incomplete letter. That deadline is 6/28/18.

- MJ-01 and MJ-04: the corrections must be addressed on the actual MJ-01 application, not as a separate document, if you were to need more space then you would use a separate piece of paper very adequately linking the documents together.
- MJ-02: the pink outline (licensed premises and restricted access area) color **must** be tightly around the perimeter of the proposed premises.

It is imperative that the corrections are addressed accurately and adequately, the deadline for you to get this application complete is 6/28/18. If you do not submit a complete application by this date you will have to start your application over from the beginning.

Call me if you have any questions.

Thank you
